AGENCY: Environmental Protection Agency (EPA).

ACTION: Proposed rule.

SUMMARY: EPA proposes to approve the State Implementation Plan (SIP) revision submitted by the State of Pennsylvania for the purpose of establishing low Reid vapor pressure (RVP) gasoline volatility requirements for the Pittsburgh-Beaver Valley ozone nonattainment area. If no relevant adverse comments are received in response to this proposed rule by the deadline for comments, no further activity is contemplated in relation to this proposed rule. If EPA receives relevant adverse comments, it will

publish a notice informing the public that the direct final rule did not take effect and EPA will address all public comments received in a subsequent final rule based on this proposed rule. EPA will not institute a second comment period on this action. Any parties interested in commenting on this action should do so at this time.

AGENCY: Environmental Protection Agency (EPA).

ACTION: Proposed rule.

SUMMARY: EPA is proposing to approve revisions to section 19.2 and section 46.2.A.34 of the Knox County portion of the Tennessee State Implementation Plan (SIP) which were submitted to EPA through the Tennessee Department of Air Pollution Control (TDAPC), on December 24, 1996 and June 18, 1997. Section 19.2 is revised to include terminology which more clearly defines the subject matter of this section: process particulate emissions. In the final rules section of this **Federal Register**, the EPA is approving the Knox County portion of the Tennessee State Implementation Plan (SIP) as a direct final rule without prior proposal because the EPA views this as a noncontroversial revision amendment and anticipates no adverse comments. A detailed rationale for the approval is set forth in the direct final rule. If no adverse comments are received in response to this proposed rule, no further activity is contemplated in relation to this proposed rule. If EPA receives adverse comments, the direct final rule will be withdrawn and all public comments received will be addressed in a subsequent final rule based on this proposed rule. The EPA will not institute a second comment period on this document. Any parties interested in commenting on this document should do so at this time.
