SUPPLEMENTARY INFORMATION:

A. Purpose

It is the Government's policy to improve environmental quality. Accordingly, Executive agencies must conduct their acquisition activities in a manner that will result in effective enforcement of the Clean Air Act (42 U.S.C. 7401, *et seq.*) and the Clean Water Act (33 U.S.C. 1251, *et seq.*). The information required by the Clean Air and Water Certification is used to determine a contractor's compliance with these laws. A determination of noncompliance by the contracting officer requires notifying the agency head or designee who, in turn, notifies the Environmental Protection Agency's (EPA) Administrator, or a designee, in writing. Government contracting offices use the information to determine a firm's eligibility for award of a contract and to provide information to the EPA.
