Formations of, Acquisitions by, and Mergers of Bank Holding Companies

The companies listed in this notice have applied to the Board for approval, pursuant to the Bank Holding Company Act of 1956 (12 U.S.C. 1841 *et seq.*) (BHC Act), Regulation Y (12 CFR Part 225), and all other applicable statutes and regulations to become a bank holding company and/or to acquire the assets or the ownership of, control of, or the power to vote shares of a bank or bank holding company and all of the banks and nonbanking companies owned by the bank holding company, including the companies listed below.

The applications listed below, as well as other related filings required by the Board, are available for immediate inspection at the Federal Reserve Bank indicated. The application also will be available for inspection at the offices of the Board of Governors. Interested persons may express their views in writing on the standards enumerated in the BHC Act (12 U.S.C. 1842(c)). If the proposal also involves the acquisition of a nonbanking company, the review also includes whether the acquisition of the nonbanking company complies with the standards in section 4 of the BHC Act. Unless otherwise noted, nonbanking activities will be conducted throughout the United States.

Unless otherwise noted, comments regarding each of these applications must be received at the Reserve Bank indicated or the offices of the Board of Governors not later than July 10, 1998.

Notice of Proposals to Engage in Nonbanking Activities

The companies listed in this notice have given notice under section 4 of the Bank Holding Company Act (12 U.S.C. 1843) (BHC Act) and Regulation Y, (12 CFR Part 225) to engage *de novo*, or to acquire or control voting securities or assets of a company, including the companies listed below, that engages either directly or through a subsidiary or other company, in a nonbanking activity. Unless otherwise noted, these activities will be conducted throughout the United States.

Each notice is available for inspection at the Federal Reserve Bank indicated. The notice also will be available for inspection at the offices of the Board of Governors. Interested persons may express their views in writing on the question whether the proposal complies with the standards of section 4 of the BHC Act.

Unless otherwise noted, comments regarding the applications must be received at the Reserve Bank indicated or the offices of the Board of Governors not later than July 1, 1998.

A. Federal Reserve Bank of New York

(Betsy Buttrill White, Senior Vice President) 33 Liberty Street, New York, New York 10045-0001:

1. *J.P. Morgan & Co. Incorporated*, New York, New York ("JPM"), to engage *de novo* through its subsidiaries, including J.P. Morgan Investment Management Inc., New York, New York, in acting as a commodity pool operator ("CPO") for certain closed-end private investment funds that are exempt from registration under the Investment Company Act of 1940 (15 U.S.C. § 80a-1 *et seq.*). See *Dresdner Bank AG*, 84 Fed. Res. Bull. 361 (1998).

In connection with its proposal, JPM also seeks to act as CPO for certain open-end investment funds. JPM submits that the funds will be managed by an independent board that will be responsible for the overall management of the funds. JPM states that the independent board, and not JPM, will control the funds and will perform the activities typically associated with being a CPO. However, to avoid the administrative burdens associated with each individual board member having to register as CPO, JPM will register as a CPO itself.

In publishing this proposal for comment, the Board does not take a position on the issue raised by the notice. Notice of the proposal is published solely to seek the views of interested parties on the issues presented and does not represent a determination by the Board that the proposal meets, or is likely to meet, the standards of the BHC Act.

Notificants' proposal is available for immediate inspection at the Federal Reserve Bank of New York and the offices of the Board in Washington, D.C. Interested persons may express their views on the proposal in writing, including on whether the proposed activities "can reasonably be expected to produce benefits to the public, such as greater convenience, increased competition, or gains in efficiency, that outweigh possible adverse effects, such as undue concentration of resources, decreased or unfair competition, conflicts of interests, or unsound banking practices." 12 U.S.C. § 1843(c)(8).

Board of Governors of the Federal Reserve System, June 11, 1998.

Robert deV. Frierson,

Associate Secretary of the Board.

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Centers for Disease Control and Prevention

[Program Announcement 99011]

Notice of Availability of Funds; Emerging Infections Program

A. Purpose

The Centers for Disease Control and Prevention (CDC) announces the availability of fiscal year (FY) 1999 funds for a cooperative agreement program to establish an Emerging Infections Program (EIP) to join a national network of EIPs. This program will assist in local, State, and national efforts to conduct surveillance and applied epidemiologic and laboratory research in emerging infectious diseases and to pilot and evaluate prevention measures. This program addresses the "Healthy People 2000" priority area of Immunization and Infectious Diseases.

The purpose of the program is to assist State health departments to establish new EIPs as part of the national network. EIPs will be population-based centers designed to assess the public health impact of emerging infections and to evaluate methods for their prevention and control.

Activities of the EIPs will fall into the general categories of: (1) active surveillance; (2) applied epidemiologic and applied laboratory research; and (3) implementation and evaluation of pilot prevention/intervention projects.

The EIPs will maintain sufficient flexibility to accommodate changes in projects as required by the emergence of public health infectious disease problems. EIPs will be strategically located to serve a variety of geographical areas, diverse groups and difficult-to-reach populations—e.g., under-served women and children, the homeless, immigrants and refugees, and persons infected with HIV. They will enlist the participation of local health departments, academic institutions, and other public and private organizations with an interest in addressing public health issues relating to emerging infectious diseases, and will seek support from sources, in addition to CDC, to operate the EIP.

B. Eligible Applicants

Assistance will be provided only to the health departments of States or their bona fide agents, including the District of Columbia, the Commonwealth of Puerto Rico, the Virgin Islands, the Commonwealth of the Northern Mariana Islands, American Samoa, Guam, federally-recognized Indian tribal governments, the Federated States of Micronesia, the Republic of the Marshall Islands, and the Republic of Palau. In consultation with States, assistance may be provided to political subdivisions of States.

The following States already participating in the EIP cooperative agreement program should not apply to this announcement: California, Connecticut, Georgia, Maryland, Minnesota, New York, and Oregon.

C. Availability of Funds

Up to \$1,000,000 is available in FY 1999 to fund two awards. The average award will be about \$500,000. This amount is for both direct and indirect costs. It is expected that the awards will begin on or about October 1, 1998, and will be made for a 12-month budget period within a project period of up to five years. The funding estimate may change.

Continuation awards within an approved project period will be made on the basis of satisfactory progress as evidenced by required reports and the availability of funds.

Note: Per instructions in Evaluation Criteria section below, the application should include proposals for four projects. CDC will select from one to four of those projects to fund based on the capacity of the applicant, priorities of the EIP network, and availability of resources.

Funding Preferences

EIPs are currently established in the seven following states: California, Connecticut, Georgia, Maryland, Minnesota, New York, and Oregon. To achieve appropriate geographical representation in the EIP network, for one of the two potential awards made under this announcement, funding preference may be given to approved applications from States in Standard Federal Regions VI, VII, and VIII.

Region VI: Arkansas, Louisiana, New Mexico, Oklahoma, Texas

Region VII: Iowa, Kansas, Missouri, Nebraska

Region VIII: Colorado, Montana, North Dakota, South Dakota, Utah, Wyoming
