

material inputs, they should be reclassified as direct materials costs.

Hylsa asserts that the materials in question were correctly included in the reported direct material costs and cites to the Cost Verification Report at 22.

Department's Position

We agree with Hylsa. After further analysis we determined that aluminum, zinc, and zinc chloride were properly classified as direct materials for the purposes of this review. Therefore, no adjustment to Hylsa's reported material costs is needed for the final results.

Comment 12: Indirect Selling Expenses in the Arm's-Length Test

Petitioners note that the computer program used to determine whether Hylsa's home market sales to affiliated parties were at arm's length for the preliminary results of this administrative review unintentionally neglected to subtract indirect selling expenses from the gross unit prices prior to testing the affiliated-party prices.

Department's Position

It is the Department's practice not to adjust for indirect selling expenses for home market sales in the arm's-length test and margin calculation programs when the reviewed U.S. transactions are EP sales. See *Notice of Final Results of Antidumping Duty Administrative Review: Certain Welded Carbon Steel Pipe and Tube from Turkey*, 61 FR 69067 (December 31, 1996). Therefore, we are not adjusting our methodology for the final results of this administrative review.

Comment 13: Reported Customer Codes

Petitioners argue that Hylsa's reported customer codes are reported in a non-numeric and inconsistent format. Petitioners assert that this inconsistency may result in one customer being treated as two separate entities in the arm's-length test if it has two customer codes. Because the arm's-length program does not include special instructions to correct for this error, reason petitioners, the Department should insert the proper language.

Department's Position

We noted the inconsistent format in which Hylsa reported customer codes for the preliminary results of this review. We inserted special computer language to correct for the inconsistencies that the petitioners noted for affiliated-customer codes in the arm's-length test for the preliminary results. Since the arm's-length test compares the weighted-average prices of

affiliated party sales, by customer code and CONNUM, to the weight-averaged prices of unaffiliated party sales by CONNUM only, there is no need to insert code to "correct" for the home market customer codes. Therefore, for these final results, we have not inserted additional programming language related to this issue.

Final Results of the Review

As a result of this review, we determine that the following weighted-average dumping margin exists:

CIRCULAR WELDED NON-ALLOY STEEL PIPES AND TUBES

Producer/manufacturer/exporter	Weighted-average margin
Hylsa	8.31

The Department will determine, and the U.S. Customs Service shall assess, antidumping duties on all appropriate entries. Because Hylsa was the only importer during the POR, we have calculated the importer-specific per-unit duty assessment rate for the merchandise imported by Hylsa by dividing the total amount of antidumping duties calculated during the POR by the total quantity entered during the POR. The Department will issue appraisal instructions directly to the Customs Service.

Furthermore, the following deposit requirements will be effective upon publication of this notice of final results of review for all shipments of circular welded non-alloy steel pipe from Mexico entered, or withdrawn from warehouse, for consumption on or after the publication date, as provided for by § 751(a)(1) of the Act: (1) The cash deposit rate for the reviewed company will be the rate stated above; (2) if the exporter is not a firm covered in this review, a prior review, or the original LTFV investigation, but the manufacturer is, the cash deposit rate will be the rate established for the most recent period for the manufacturer of the merchandise; (3) for previously reviewed or investigated companies not listed above, the cash deposit rate will continue to be the company-specific rate published for the most recent period; (4) the cash deposit rate for all other manufacturers or exporters will continue to be the "all others" rate of 32.62 percent.¹ See *Notice of Antidumping Orders: Certain Circular Welded Non-Alloy Steel Pipe from*

¹ The preliminary results of this administrative review incorrectly stated that the "all others" rate was 36.62 percent. *Preliminary Results* at 62 FR 64568.

Brazil, the Republic of Korea (Korea), Mexico, and Venezuela, and Amendment to Final Determination of Sales at Less Than Fair Value: Certain Circular Welded Non-Alloy Steel Pipe from Korea, 57 FR 49453 (November 2, 1992). These deposit requirements, when imposed, shall remain in effect until publication of the final results of the next administrative review.

This notice serves as a final reminder to importers of their responsibility under 19 C.F.R. § 353.26 of the Department's regulations to file a certificate regarding the reimbursement of antidumping duties prior to liquidation of the relevant entries during this review period. Failure to comply with this requirement could result in the Secretary's presumption that reimbursement of antidumping duties occurred and the subsequent assessment of double antidumping duties.

This notice also serves as a reminder to parties subject to administrative protective order (APO) of their responsibility concerning the disposition of proprietary information disclosed under APO in accordance with 19 C.F.R. § 353.34(d)(1) of the Department's regulations. Timely notification of the return/destruction of APO materials or conversion to judicial protective order is hereby requested. Failure to comply with the regulations and the terms of an APO is a sanctionable violation.

This determination is issued and published in accordance with sections 751(a)(1) and 777(i)(1) of the Act.

Dated: June 8, 1998.

Robert S. LaRussa,
Assistant Secretary for Import Administration.

BILLING CODE 3510-DS-P

DEPARTMENT OF COMMERCE

International Trade Administration

North Carolina State University; Notice of Decision on Application for Duty-Free Entry of Scientific Instrument

This decision is made pursuant to Section 6(c) of the Educational, Scientific, and Cultural Materials Importation Act of 1966 (Pub. L. 89-651, 80 Stat. 897; 15 CFR part 301). Related records can be viewed between 8:30 A.M. and 5:00 P.M. in Room 4211, U.S. Department of Commerce, 14th and Constitution Avenue, NW, Washington, DC.

Docket Number: 98-020. Applicant: North Carolina State University,

Raleigh, NC 27695-7212. *Instrument:* Mini 4-Pocket E-Beam Evaporator, Model EGC04. *Manufacturer:* Oxford Applied Research, United Kingdom. *Intended Use:* See notice at 63 FR 19715, April 21, 1998.

Comments: None received. *Decision:* Approved. No instrument of equivalent scientific value to the foreign instrument, for such purposes as it is intended to be used, is being manufactured in the United States. *Reasons:* The foreign instrument provides: (1) four pockets for evaporation of four elements and (2) small size for mounting on a photo-electron emission microscope. The National Institute of Standards and Technology advised May 28, 1998 that (1) these capabilities are pertinent to the applicant's intended purpose and (2) it knows of no domestic instrument or apparatus of equivalent scientific value to the foreign instrument for the applicant's intended use.

We know of no other instrument or apparatus of equivalent scientific value to the foreign instrument which is being manufactured in the United States.

Frank W. Creel,

Director, Statutory Import Programs Staff.

BILLING CODE 3510-DS-P

DEPARTMENT OF COMMERCE

International Trade Administration

Application for Duty-Free Entry of Scientific Instrument

Pursuant to Section 6(c) of the Educational, Scientific and Cultural Materials Importation Act of 1966 (Pub. L. 89-651; 80 Stat. 897; 15 CFR part 301), we invite comments on the question of whether an instrument of equivalent scientific value, for the purposes for which the instrument shown below is intended to be used, is being manufactured in the United States.

Comments must comply with 15 CFR 301.5(a)(3) and (4) of the regulations and be filed within 20 days with the Statutory Import Programs Staff, U.S. Department of Commerce, Washington, D.C. 20230. Applications may be examined between 8:30 A.M. and 5:00 P.M. in Room 4211, U.S. Department of Commerce, 14th Street and Constitution Avenue, N.W., Washington, D.C.

Docket Number: 98-030. *Applicant:* Stanford University, Ginzton Laboratory, 450 Via Palou, Stanford, CA 94305. *Instrument:* Crystal Growth Furnace, Type FZ-T-10000-HVP-II-S. *Manufacturer:* Crystal Systems, Inc.,

Japan. *Intended Use:* The instrument will be used for materials research of transition metal compounds and rare-earth compounds. In addition, the instrument will be used for training students in its use on an individual basis rather than course work.

Application accepted by Commissioner of Customs: May 26, 1998.

Frank W. Creel,

Director, Statutory Import Programs Staff.

University of Minnesota; Notice of Decision on Application for Duty-Free Entry of Scientific Instrument

This is a decision pursuant to Section 6(c) of the Educational, Scientific and Cultural Materials Importation Act of 1966 (Pub. L. 89-651, 80 Stat. 897; 15 CFR part 301). Related records can be viewed between 8:30 AM and 5:00 PM in Room 4211, U.S. Department of Commerce, 14th and Constitution Avenue, NW, Washington, DC.

Decision: Denied. Applicant has failed to establish that domestic instruments of equivalent scientific value to the foreign instrument for the intended purposes are not available.

Reasons: Section 301.5(e)(4) of the regulations requires the denial of applications that have been denied without prejudice to resubmission if they are not resubmitted within the specified time period. This is the case for the following docket.

Docket Number: 97-090. *Applicant:* University of Minnesota, Minneapolis, MN 55455. *Instrument:* Visual Stimulus Generator, Model VSG2/3S. *Manufacturer:* Cambridge Research Systems Ltd., United Kingdom. Date of Denial Without Prejudice to Resubmission: February 26, 1998.

University of California, Berkeley; Notice of Decision on Application for Duty-Free Entry of Scientific Instrument

This decision is made pursuant to Section 6(c) of the Educational, Scientific, and Cultural Materials

Importation Act of 1966 (Pub. L. 89-651, 80 Stat. 897; 15 CFR part 301). Related records can be viewed between 8:30 AM and 5:00 PM in Room 4211, U.S. Department of Commerce, 14th and Constitution Avenue, NW, Washington, DC.

Docket Number: 98-021. *Applicant:* University of California, Berkeley, Berkeley, CA 94720. *Instrument:* Electron Neutralizer. *Manufacturer:* Gammadata-Scienta, Sweden. *Intended Use:* See notice at 63 FR 20612, April 27, 1998.

Comments: None received. *Decision:* Approved. No instrument of equivalent scientific value to the foreign instrument, for such purposes as it is intended to be used, is being manufactured in the United States. *Reasons:* This is a compatible accessory for an existing instrument purchased for the use of the applicant.

The accessory is pertinent to the intended uses and we know of no comparable domestic accessory which can be readily adapted to the existing instrument.
