The final group of information collection requirements in the standard pertains to a number of provisions requiring tags and labels. Section 1910.65(f)(5)(i)(C) requires a load rating plate to be affixed to each suspended unit. Section 1910.66(f)(5)(ii)(N) requires the compartment for an emergency electric operating device to be labeled with instructions for use. Sections 1910.66(f)(7)(vi), 1910.66(f)(7)(vii), and 1910.66(f)(7)(viii) require the attachment of a tag on a suspension wire rope when it is installed, renewed or resocketed.

The information collected would also be used by OSHA compliance officers to ensure that employers are complying with the requirements set forth in 29 CFR 1910.66.

II. Current Actions

This notice requests public comment on OSHA's burden hour estimates prior to OSHA seeking Office of Management and Budget (OMB) approval of the information collection requirements contained in the Powered Platforms for Building Maintenance standard.

Type of Review: Extension of a Currently Approved collection.

Agency: U.S. Department of labor, Occupational Safety and Health Administration.

Title: Powered Platforms for Building Maintenance (29 CFR 1910.66).

OMB Number: 1218–0121.

Agency Number: Docket Number ICR–98–27.

Affected Public: Business or other forprofit; State or local governments.

Number of Respondents: 51,687.

Frequency: Varies (Initially, Annually, Monthly, On Occasion).

Average Time per Response: Varies from five minutes to generate, maintain and disclose records to 8 hours to prepare plans (average of two hours).

Estimated Total Burden Hours: 129,763.

Total Annualized Capital/Startup Costs: \$0.

Comments submitted in response to this notice will be summarized and included in the request for Office of Management and Budget approval of the information collection request. The comments will become a matter of public record.

Signed at Washington, D.C., this 15th day of June 1998.

Charles N. Jeffress,

Assistant Secretary of Labor. [FR Doc. 98–16381 Filed 6–18–98; 8:45 am] BILLING CODE 4510–26–M

DEPARTMENT OF LABOR

Occupational Safety and Health Administration

[Docket No. ICR-98-18]

Concrete and Masonry Construction

AGENCY: Occupational Safety and Health Administration, Labor.

ACTION: Notice of proposed information collection request; opportunity for public comment.

SUMMARY: The Department of Labor, as part of its continuing effort to reduce paperwork and information collection burdens, is conducting a preclearance consultation program to provide the general public and Federal agencies with an opportunity to comment on both current and proposed collections of information in accordance with the Paperwork Reduction Act of 1995 (44 U.S.C. 3506(c)(2)(A)). This program helps to ensure that reporting burden (time and financial resources) is minimized, collection materials are clearly understood, impact of collection requirements on respondents can be accurately assessed, and requested data can be provided in the desired format. Currently, the Occupational Safety and Health Administration is soliciting comments on the information collection requirement contained in 29 CFR 1926.703(a)(2). that provision requires that formwork drawings or plans for cast-in-place concrete construction work be available at the jobsite.

The Agency is particularly interested in comments that:

- Evaluate whether the proposed collection of information is necessary for the proper performance of OSHA's responsibilities, including whether the information will have practical utility;
- Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;
- Enhance the quality, utility, and clarity of the information to be collected; and
- Minimize the burden of the collection of information on those who are to respond, including the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology (for example, permitting electronic submissions of responses).

DATES: Written comments must be submitted on or before August 18, 1998. **ADDRESSES:** Comments are to submitted to the Docket Office, Docket ICR-98-18,

U.S. Department of Labor, Room N–2625, 200 Constitution Avenue, NW., Washington, DC 20210, (202) 219–7894. Written comments limited to 10 pages or less may be transmitted by facsimile to (202) 219–5046.

FOR FURTHER INFORMATION CONTACT:

Mr. Laurence Davey, Directorate of Construction, Occupational Safety and Health Administration, U.S. Department of Labor, Room N3621, 200 Constitution Avenue, NW., Washington, DC 20210, (202) 219-7207. Copies of the information collection requests are available for inspection and copying in the Docket Office and will be mailed to persons who request copies by telephoning Mr. Davey at (20ž) 219-7207 or Barbara Bielaski at (202) 219-8076. For electronic copies of the information collection request, contact OSHA's Web Page on Internet at http:/ /www.osha-slc.gov (click on Information Collection Requests).

SUPPLEMENTARY INFORMATION:

Background

The Occupational Safety and Health Administration (OSHA) currently has approval from the Office of Management and Budget (OMB) for the information collection (records) requirements contained in 29 CFR 1926.703(a)(2). That approval will expire on September 30, 1998, unless OSHA applies for an extension of the OMB approval. This notice initiates the process for OSHA to request an extension of the current OMB approval.

Section 1926.703(a)(2) requires that formwork drawings or plans for cast-inplace concrete construction work be available at the jobsite. The information is needed by employers, employees, OSHA compliance officers, and other interested persons in the construction industry to ensure concrete structures are erected in a safe and purposeful manner. This provision addresses safety and health concerns caused by improperly designed and erected formwork. Such hazards could cause partial or total collapse of concrete structures and result in serious or fatal injuries to workers.

Current Action

This notice requests an extension of the current OMB approval of the paperwork requirements in 29 CFR 1926.703(a)(2).

Type of Review: Extension of existing approval.

Agency: Occupational Safety and Health Administration, U.S. Department of Labor.

Title: Concrete and Masonry Construction (29 CFR 1926.703(a)(2)).

OMB Number: 1218–0095. Agency Number: Docket No. ICR–98–

Frequency: On Occasion.

Affected Public: Business or other for-

Number of Respondents: 994. Estimated Time Per Respondent: 10

Total Burden Hours: 7,787.
Comments submitted in response to this notice will be summarized and included in the request for Office of Management and Budget approval of the information collection request; they will also become a matter of public record.

Signed at Washington, DC, this 15th day of June, 1998.

For electronic copies of the information collection request, contact OSHA's Web Page on Internet at http:/ /www.osha-slc.gov (click on Information Collection Requests).

SUPPLEMENTARY INFORMATION:

Background

The Occupational Safety and Health Act of 1970 authorizes the promulgation of such health and safety standards as are necessary or appropriate to provide safe or healthful employment and places of employment. The statute specifically authorizes information collection by employers as necessary or appropriate for the enforcement of the Act or for developing information regarding the causes and prevention of occupational injuries, illnesses, and accidents.

There are several provisions in OSHA's crane and derrick standard that require employers to obtain information and post it on the crane or derrick. Specifically, employers are required to

post the rated load capacities, recommended operating speeds, special hazard warnings, and instructions. In addition, an illustration of hand signals is to be posted at the jobsite. OSHA believes this information is normally provided by the crane or derrick manufacturers as a usual and customary business practice and there is a minimal time burden in posting this information. There is also a cost burden for employers who field modify cranes or derricks to obtain the information (loading ratings and limitations) for the employer to post.

Current Action

This notice requests comment on OSHA's burden hour estimates prior to seeking OMB approval of the information collection requirements in 29 CFR 1926.550(a)(1), (2), (4) and (16).

Type of Review: Revision.

Agency: Occupational Safety and Health Administration, U.S. Department of Labor.

Title: Construction Crane Rating Chart Limitations Instructions and Hand Signal Illustrations (29 CFR 1926.550(a)(1) and (a)(2), 1926.550(a)(4), and 1926.550(a)(16)).

Agency Number: Docket No. ICR 98–13.

Frequency: On occasion.

Affected Public: Business or other forprofit.

Number of Respondents: 59,944. Estimated Time Per Respondent: 5 minutes per respondent.

Total Burden Hours: 4996 hours. Total Annualized Capital/Start-up Costs: \$330,000.

Comments submitted in response to this notice will be summarized and included in the request for Office of Management and Budget approval of the information collection request; they will also become a matter of public record.

Signed at Washington, D.C., this 15th day of June, 1998.
