[Docket No. ER98-3771-000]

Take notice that on July 16, 1998, Virginia Electric and Power Company (Virginia Power or the Company), tendered for filing a proposed amended and restated market-based sales tariff. The proposed tariff is intended to replace Virginia Power's currently effective market-based sales tariff with an early proposed effective date commensurate with the date of the filing.

Virginia Power states that the purpose of the filing is to amend its authorization to make sales of capacity and/or energy at market-based rates and to resell transmission service on a short-term or long-term basis by more closely reflecting the terms and conditions of other such tariffs that have been recently approved by the Commission. Virginia Power states that the tariff filing has no impact on rates, and that several customers have requested Virginia Power to make the filing in order to simplify the terms and conditions.

Under the proposed tariff, Virginia Power will not make such market-based sales to any affiliate without first receiving authorization from the Commission under Section 205 of the Federal Power Act. Also, Virginia Power will not provide capacity and/or energy to loads located within its service territory consistent with the uncontested offer of settlement certified to the Commission in Docket No. ER97-3561-000.

Moreover, the proposed tariff does not provide for transmission or ancillary services, which are provided for on an

unbundled basis under Virginia Power's Open Access Tariff. Finally, the tariff retains the commitment to file a study of market power in Virginia Power's generation market within the time frame ordered in connection with the Company's currently effective market-based sales tariff provided for in the September 11, 1997, Order issued in Docket No. ER97-3561-000.

Virginia Power further states that a copy of this tariff filing has been served on all customers that are receiving service under Virginia Power's currently effective market-based sales tariff and all parties of record in Docket No. ER97-3561-000, and is otherwise posted as required by the Commission's Regulations.
