

beyond those currently in place or in coordination at VAFB and CCAS. No significant new circumstances or information relevant to environmental concerns associated with the launch vehicle have been identified which would affect the earlier findings. As specific spacecraft and missions are fully defined, they will be reviewed in light of the NMP PEA. If NASA determines that future payloads have the potential for substantially different environmental impacts, further NEPA reviews will be conducted and documented, as appropriate.

On the basis of the NMP PEA, NASA has determined that the environmental impacts associated with the NMP and the specified missions identified as within the scope of the PEA would not individually or cumulatively have a significant impact on the quality of the human environment. NASA will take no final action prior to the expiration of the 30-day comment period.
