SUPPLEMENTARY INFORMATION:

OMB Approval Number: 3060-0767.

Title: Auction Forms and License Transfer Disclosures—Supplement for the Second R & O, Order on Reconsideration, and Fifth NPRM in CC Docket No. 92-297.

Form Number: N/A.

Type of Review: Extension of a currently approved collection.

Respondents: Business and other for-profit entities; State, Local or Tribal Government.

Number of Respondents: 44,000 (180,000 annual responses).

Estimated Time Per Response: 0.5-4.0 hours.

Frequency of Response: Recordkeeping; On occasion reporting requirements.

Total Annual Burden: 773,000 hours.

Cost to Respondents: \$47,452,000.

Needs and Uses: The auction rules, among other things, require small business applicants to submit ownership information and gross revenue calculations, and all applicants to submit terms of joint bidding agreements (if any). Furthermore, in case a licensee defaults or loses its license, the Commission retains the discretion to reaucton such licenses. If licenses are reauctoned, the new license winner would be required at the close of the reauction, to comply with the same disclosure requirements. Finally, licensees who transfer licenses within three years will be required to maintain certain information to ensure compliance with Commission rules.

Specifically: (1) Small business license winners (and their successors in interest as licensees) will be required to maintain a file over the license term containing ownership and gross revenues information, necessary to determine their business eligibility as a small business and (2) licensees who transfer licenses within three years are required to maintain a file of all documents and contracts pertaining to the transfer. Applicants that do not obtain the license(s) for which they applied shall maintain such files until the grant of such license(s) is final, or one year from the date of the filing of their short-form, application (FCC Form 175), whichever is earlier.

The Commission also adopted rules to determine the amount of unjust enrichment payments to be assessed upon assignment, transfer, partitioning and disaggregation of licenses. This

rule, applicable to all current and future licensees, is based upon the unjust enrichment of rule currently applicable to broadband PCS licensees.

Additionally, the Commission amended its general anticollusion rules, permitting the holder of a non-controlling attributable interest in an applicant to obtain an ownership interest in or enter into a consortium arrangement with another applicant for a license in the same geographic area provided that the original applicant has withdrawn from the auction, is no longer placing bids, and has no further eligibility. To meet the requirements of the exception, the attributable interest holder will be required to certify to the Commission that it did not communicate with the new applicant prior to the date the original applicant withdrew from the auction, and that it will not convey bidding information, or otherwise serve as a nexus between the previous and the new applicant.

I have determined that the damage in certain areas of the State of Wisconsin, resulting from severe storms and flooding beginning on August 5, 1998, and continuing is of sufficient severity and magnitude to warrant a major disaster declaration under the Robert T. Consistent with the requirement that Federal assistance be supplemental, any Federal funds provided under the Stafford Act for Hazard Mitigation will be limited to 75 percent of the total eligible costs. If Public Assistance is later warranted, Federal funds provided under

that program will also be limited to 75 percent of the total eligible costs.

The time period prescribed for the implementation of section 310(a), Priority to Certain Applications for Public Facility and Public Housing Assistance, 42 U.S.C. 5153, shall be for a period not to exceed six months after the date of this declaration.
