### Federal Energy Regulatory Commission

[Docket No. CP98-740-000]

#### National Fuel Gas Supply Corporation; Notice of Request Under Blanket Authorization

August 31, 1998.

Take notice that on August 24, 1998, National Fuel Gas Supply Corporation (National fuel), 10 Lafayette Square, Buffalo, New York 14203, filed a request with the Commission in Docket No. CP98-740-000, pursuant to Sections 157.205 and 157.211 of the Commission's Regulations under the Natural Gas Act (NGA) for authorization to construct and operate a new residential sales tap authorized in blanket certificate issued in Docket No. CP83-4-000, all as more fully set forth in the request on file with the Commission and open to public inspection.

National Fuel proposes to construct and operate a sales tap for delivery of approximately 1,200 Mcf of gas annually to National Fuel Gas Distribution Corporation. National Fuel states that the proposed sales tap would be located on its Line 5-3 in Clarion County, Pennsylvania. National Fuel estimates that the cost of construction would be \$1,500 for which National Fuel would be reimbursed.

Any person or the Commission's staff may, within 45 days after the Commission has issued this notice, file pursuant to Rule 214 of the Commission's Procedural Rules (18 CFR 385.214) a motion to intervene or notice of intervention and pursuant to Section 157.205 of the Regulations under the

NGA (18 CFR 157.205) a protest to the request. If no protest is filed within the allowed time, the proposed activity shall be deemed to be authorized effective the day after the time allowed for filing a protest. If a protest is filed and not withdrawn within 30 days after the time allowed for filing a protest, the instant request shall be treated as an application for authorization pursuant to Section 7 of the NGA.

### Federal Energy Regulatory Commission

[Project No. 9985-024]

#### Rivers Electric Company, Inc.; Notice of Availability of Final Environmental Assessment

August 31, 1998.

A final environmental assessment (FEA) is available for public review. The FEA is for an application to increase the elevation of the dam and replace the existing flashboards with pneumatically-operated crest gates. The proposed action would result in an operating capacity of 950 kW, which is within the licensed capacity of 1050 kW. A draft environmental assessment (DEA) of this application and Notice of Availability of the DEA were issued by the Commission on May 6, 1998. The FEA, like the DEA, finds that approval of the amendment application, with identified environmental protection measures, would not constitute a major Federal action significantly affecting the quality of the human environment.

The FEA was written by staff in the Office of Hydropower Licensing, Federal Energy Regulatory Commission. Copies of the FEA can be obtained by calling the Commission's Public Reference room at (202) 208-1371.
