**ASSASSINATION RECORDS REVIEW BOARD****Sunshine Act Meeting**

**DATE:** September 22-23, 1998.

**PLACE:** ARRB, 600 E Street, NW,  
Washington, DC.

**STATUS:** Closed.

**MATTERS TO BE CONSIDERED:**

1. Review and Accept Minutes of Closed Meeting.
2. Review of Assassination Records.
3. Other Business.

**CONTACT PERSON FOR MORE INFORMATION:**

Eileen Sullivan, Press Officer, 600 E Street, NW, Second Floor, Washington, DC 20530. Telephone: (202) 724-0088; Fax: (202) 724-0457.

**DEPARTMENT OF COMMERCE****Bureau of the Census****Address Listing for the American Community Survey Area Frame**

**ACTION:** Proposed collection; comment request.

**SUMMARY:** The Department of Commerce, as part of its continuing effort to reduce paperwork and respondent burden, invites the general public and other Federal agencies to take this opportunity to comment on proposed and/or continuing information collections, as required by the

Paperwork Reduction Act of 1995, Pub. L. 104-13 (44 U.S.C. 3506(c)(2)(A)).

**DATES:** Written comments must be submitted on or before November 16, 1998.

**ADDRESSES:** Direct all written comments to Linda Engelmeier, Departmental Forms Clearance Officer, Department of Commerce, Room 5327, 14th and Constitution Avenue, NW, Washington, DC 20230.

**FOR FURTHER INFORMATION CONTACT:**

Requests for additional information or copies of the information collection instruments and instructions should be directed to Cynthia Taeuber, Bureau of the Census, Demographic Statistical Methods Division, Washington, DC 20233. Her telephone number is 301-457-2899.

**SUPPLEMENTARY INFORMATION:****I. Abstract**

The Census Bureau is developing a methodology to produce data on a continual basis, rather than only once every ten years during the decennial census. This methodology is referred to as Continuous Measurement, and the vehicle for collecting the data is a monthly household survey called the American Community Survey (ACS). The Census Bureau began the ACS in late 1995 in four test sites and has expanded the program every year since. The Census Bureau plans to continue expanding the ACS, and put the ACS fully in place nationally in 2003.

For the ACS, we select most of the survey sample addresses from the Census Bureau's Master Address File (MAF). The MAF is a list of addresses that the Bureau is compiling for use during the decennial census in 2000. There are some areas for which a MAF will not be created until the time of the decennial census. These areas are list/enumerate areas, meaning that Bureau staff will list addresses at the time of the decennial enumeration. These types of areas will be in the ACS for the first time in 2000. In order to conduct the ACS in 2000-2002 for these areas, we will have Census Bureau employees called "listers" compile a list of address in a sample of blocks in the list/enumerate areas of counties we have selected for the 2000-2002 ACS. Most of the listing activities will be completed during 1999, but there may be some areas which will require listing in 2000 and 2001.

Address listing will be conducted in approximately 1,200 blocks. Listers will canvass (walk or drive) each of these blocks, identifying each structure where people live or could live, including housing units and group quarters. They

will record the block number and each physical location address or description on an Area Segment Listing Sheet. For each living quarters, the lister will attempt to conduct an interview to collect the mailing address, occupant name or group quarters contact person name, and telephone number. If no one is at home, the lister will attempt to interview a neighbor to obtain this information. If unable to obtain the information, the lister will make up to three personal and two telephone callbacks to obtain the information. The lister will also spot the location of the living quarters on a Block Map and update the Block Maps by adding missing roads, road names, or other map features as necessary, and deleting roads that no longer exist. The address information and map spots will be directly used to mail ACS Questionnaires to sample addresses, and to locate addresses for non-response follow-up in the ACS, should that become necessary.

**II. Method of Collection**

The primary method of data collection for all operations will be personal interview by listers using the operation's listing form. In some cases, the interview could be by telephone callback if no one was home on the initial visit.

**III. Data**

*OMB Number:* Not available.

*Form Number:* We have not yet assigned a form number to the ACS Area Segment Listing Sheet.

*Type of Review:* Regular submission.

*Affected Public:* Individuals or households.

*Estimated Number of respondents:* 6,000.

*Estimated Time per Response:* 2 Minutes.

*Estimated Total Annual Burden Hours:* 200.

*Estimated Total Annual Cost:* The only cost to respondents is that of their time to respond.

*Respondent's Obligation:* Mandatory.

*Legal Authority:* Title 13, United States Code, Section 182.

**IV. Request for Comments**

*Comments are invited on:* (a) Whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information shall have practical utility; (b) the accuracy of the agency's estimate of the burden (including hours and cost) of the proposed collection of information; (c) ways to enhance the quality, utility, and clarity of the information to be

collected; and (d) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or other forms of information technology.

Comments submitted in response to this notice will be summarized and/or included in the request for OMB approval of this information collection; they also will become a matter of public record.

Dated: September 8, 1998.

**Linda Engelmeier,**

*Departmental Forms Clearance Officer, Office of the Chief Information Officer.*

## DEPARTMENT OF COMMERCE

### International Trade Administration

[A-475-820]

#### Notice of Antidumping Duty Order: Stainless Steel Wire Rod From Italy

**AGENCY:** Import Administration, International Trade Administration, Department of Commerce.

**EFFECTIVE DATE:** September 15, 1998.

**FOR FURTHER INFORMATION CONTACT:** Shawn Thompson or Irina Itkin, Import Administration, International Trade Administration, U.S. Department of Commerce, 14th Street and Constitution Avenue, NW, Washington, DC 20230; telephone: (202) 482-1776 or (202) 482-0656, respectively.

#### The Applicable Statute

Unless otherwise indicated, all citations to the Tariff Act of 1930, as amended (the Act), are references to the provisions effective January 1, 1995, the effective date of the amendments made to the Act by the Uruguay Round Agreements Act (URAA). In addition, unless otherwise indicated, all citations to the Department's regulations are to the regulations at 19 CFR part 351, 62 FR 27296 (May 19, 1997).

#### Scope of Order

For purposes of this order, stainless steel wire rod (SSWR) comprises products that are hot-rolled or hot-rolled annealed and/or pickled and/or descaled rounds, squares, octagons, hexagons or other shapes, in coils, that may also be coated with a lubricant containing copper, lime or oxalate. SSWR is made of alloy steels containing, by weight, 1.2 percent or less of carbon and 10.5 percent or more of chromium, with or without other elements. These products are

manufactured only by hot-rolling or hot-rolling, annealing, and/or pickling and/or descaling, are normally sold in coiled form, and are of solid cross-section. The majority of SSWR sold in the United States is round in cross-sectional shape, annealed and pickled, and later cold-finished into stainless steel wire or small-diameter bar.

The most common size for such products is 5.5 millimeters or 0.217 inches in diameter, which represents the smallest size that normally is produced on a rolling mill and is the size that most wire-drawing machines are set up to draw. The range of SSWR sizes normally sold in the United States is between 0.20 inches and 1.312 inches diameter. Two stainless steel grades, SF20T and K-M35FL, are excluded from the scope of the order. The chemical makeup for the excluded grades is as follows:

#### SF20T

Carbon—0.05 max  
Manganese—2.00 max  
Phosphorous—0.05 max  
Sulfur—0.15 max  
Silicon—1.00 max  
Chromium—19.00/21.00  
Molybdenum—1.50/2.50  
Lead—added (0.10/0.30)  
Tellurium—added (0.03 min)

#### K-M35FL

Carbon—0.015 max  
Silicon—0.70/1.00  
Manganese—0.40 max  
Phosphorous—0.04 max  
Sulfur—0.03 max  
Nickel—0.30 max  
Chromium—12.50/14.00  
Lead—0.10/0.30  
Aluminum—0.20/0.35

The products subject to this order are currently classifiable under subheadings 7221.00.0005, 7221.00.0015, 7221.00.0030, 7221.00.0045, and 7221.00.0075 of the Harmonized Tariff Schedule of the United States (HTSUS). Although the HTSUS subheadings are provided for convenience and customs purposes, the written description of the merchandise is dispositive.

#### Antidumping Order

In accordance with section 735(a) of the Act, on July 20, 1998, the Department made its final determination that SSWR from Italy, is being, or is likely to be, sold in the United States at less than fair value (63 FR 40422 (July 29, 1998)). On September 8, 1998, in accordance with section 735(d) of the Act, the U.S. International Trade Commission (ITC) notified the Department of its final determination, pursuant to section

735(b)(1)(A)(i) of the Act, that a U.S. industry is materially injured by reason of imports of stainless steel wire rod from Italy.

In accordance with section 736(a)(1) of the Act, the Department will direct Customs officers to assess, upon further advice by the administering authority, antidumping duties equal to the amount by which the normal value of the merchandise exceeds the export price of the merchandise for all relevant entries of stainless steel wire rod from Italy, except for imports manufactured and exported by Acciaierie Valbruna S.r.l. or its subsidiary Acciaierie di Bolzano SpA. For all other manufacturers/exporters, antidumping duties will be assessed on all unliquidated entries of stainless steel wire rod from Italy entered, or withdrawn from warehouse, for consumption on or after March 5, 1998, the date on which the Department published its preliminary determination notice in the **Federal Register** (63 FR 10831).

On or after the date of publication of this notice in the **Federal Register**, Customs officers must require, at the same time as importers would normally deposit estimated duties, the following cash deposits for the subject merchandise:

Manufacturer/producer/exporter	Cash deposit rate
Cogne Acciai Speciali S.r.l. ....	12.73
All Others .....	12.73

The "All Others" rate applies to all manufacturers/exporters of stainless steel wire rod not specifically listed above, except for Acciaierie Valbruna S.r.l. and Acciaierie di Bolzano SpA.

Article VI (5) of the General Agreement on Tariffs and Trade (1947) prohibits assessing dumping duties on the portion of the margin attributable to an export subsidy. In this case, the product under investigation is subject to a countervailing duty investigation (see *Final Affirmative Countervailing Duty Determination: Certain Stainless Steel Wire Rod From Italy*, 63 FR 40474 (July 29, 1998)). Therefore, for all entries of SSWR from Italy, entered or withdrawn from warehouse for consumption on or after the date on which the order in the companion countervailing duty investigation is published in the **Federal Register**, we will request for duty deposit purposes that the Customs Service deduct the portion of the margin attributable to export subsidies from the countervailing duty investigation. The antidumping cash deposit rates, as adjusted for export subsidies, are as follows:
