[Docket No. GT99-4-000]

#### Tennessee Gas Pipeline Company; Notice of Tariff Filing

November 3, 1998.

Take notice that on October 29, 1998, Tennessee Gas Pipeline Company (Tennessee), filed the following: (1) a Blanket Authorization Agreement among Tennessee, Boston Gas Company

("Boston Gas") and Enron Capital & Trade Resources Corporation ("Enron"); (2) a Blanket Authorization Agreement among Tennessee, Boston Gas and El Paso Energy Marketing Company ("El Paso Marketing"); (3) a Blanket Authorization Agreement among Tennessee, Essex County Gas Company ("Essex") and Enron; (4) a Blanket Authorization Agreement among Tennessee, Essex and El Paso Marketing; (5) First Revised Sheet No. 413 of Tennessee's FERC Gas Tariff, Fifth Revised Volume No. 1 ("Volume No. 1 Tariff"); and (6) Alternate First Revised Sheet No. 413 of Tennessee's Volume No. 1 Tariff.

Tennessee states that the four Blanket Authorization Agreements are being submitted for Commission approval because the Blanket Authorization Agreements contain language which differs from Pro Forma Blanket Authorization Agreement contained in Tennessee's Volume No. 1 Tariff. Tennessee further states that, pursuant to Section 154.112(b) of the Commission's regulations, it is submitting First Revised Sheet No. 413 with an effective date of December 1, 1998. However, Boston Gas and Essex strongly desire that they be able to effectuate the terms of the four Blanket Authorization Agreements by November 1, 1998. Therefore, at their behest, Tennessee is also submitting with this filing Alternate First Revised Sheet No. 413 with an effective date of November 1, 1998 in the event that the Commission approves these customers' deemed request for a waiver of the 30-day notice requirement of the Commission's regulations.

Tennessee submits that the four Blanket Authorization Agreements contain provisions which differ from the Pro Forma Blanket Authorization Agreement in several respects. First, the Blanket Authorization Agreements allow Boston Gas and Essex (the "Contract Holders"), to delegate agency authority to both Enron and El Paso Marketing (the "Blanket Agents"), rather than to a single agent. Second, the Blanket Authorization Agreements allow the Contract Holders to delegate only some of the Contract Holders' service agreements on the Tennessee's system and for specified contract quantities for each agreement. Third, the term provisions of the Blanket Authorization Agreements have been modified to reflect an automatic termination of the Blanket Authorization Agreements on March 31, 1999. Finally, the term provision of the Blanket Authorization Agreements has also been modified to allow any Party to terminate the Blanket Authorization

Agreements upon twenty-four hours written notice to the other parties, such termination to be effective upon receipt of the termination notice.

Any person desiring to be heard or to protest said filing should file a motion to intervene or a protest with the Federal Energy Regulatory Commission, 888 First Street, N.E., Washington, D.C. 20426, in accordance with Sections 385.214 or 385.211 of the Commission's Rules and Regulations. All such motions or protests must be filed on or before November 10, 1998. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceedings. Any person wishing to become a party must file a motion to intervene. Copies of this filing are on file with the Commission and are available for public inspection in the Public Reference Room.

Tennessee states that this filing proposes to implement a new tariff provision which would allow shippers to "check the appropriate box" on their monthly invoices and submit with their monthly payments voluntary contributions to the Gas Research Institute (GRI). Tennessee further states that the proposed tariff provision is consistent with the Stipulation and Agreement approved by the Commission in Gas Research Institute, 83 FERC (¶ 61,093 (1998)), order on rehearing, 83 FERC (¶ 61,331 (1998)), in which signatory pipelines agreed to be voluntary collection agents for GRI.

Any person desiring to be heard or to protest said filing should file a motion to intervene or a protest with the Federal Energy Regulatory Commission, 888 First Street, N.E., Washington, D.C. 20426, in accordance with Sections

#### Transcontinental Gas Pipe Line Corporation; Notice of Proposed Changes in FERC Gas Tariff

November 3, 1998.

Take notice on October 29, 1998, Transcontinental Gas Pipe Line Corporation (Transco) tendered for filing certain revised tariff sheets to its FERC Gas Tariff, Third Revised Volume

No. 1, which tariff sheets are enumerated in the filing. The proposed effective date for the tariff sheets is November 2, 1998.

Transco states that the purpose of the instant filing is to comply with the Commission's letter order issued on October 14, 1998, as modified by the Commission's October 19, 1998 "Notice of Extension of Time," (October 14 Order). The October 14 Order directed Transco to file revised tariff sheets to rectify exceptions found in Transco's September 18, 1998 filing made to comply with the Commission's Order No. 587-H issued July 15, 1998. Specifically, the revised tariff sheets include bumping notice procedures consistent with those in Transco's OFO procedures, and remove the phrase "in advance of each day" from all its Part 284 and Part 157 rate schedules in order to make these rate schedules consistent with the intra-day procedures adopted by Order No. 587-H.

In addition, Transco states that the instant filing contains revised tariff language to clarify that Transco does not propose to limit shippers to one intraday nomination per nomination cycle per contract. Transco further states that no waivers of non-critical daily penalties are required as Transco's tariff contains no non-critical daily penalties that would apply to an interruptible transportation shipper whose scheduled volumes are bumped by a firm intra-day nomination.

Transco requests a waiver of Section 154.203(b) of the Commission's regulations in order that the conforming revisions to Transco's services performed under Part 157 of the Commission's regulations, as described in the filing, may be included in the instant filing.

Transco is serving copies of the instant filing to customers, State Commissions and other interested parties.

Any person desiring to protest this filing should file a protest with the Federal Energy Regulatory Commission, 888 First Street, N.E., Washington, D.C. 20426, in accordance with Section 385.211 of the Commission's Rules and Regulations. All such protests must be filed as provided in Section 154.210 of the Commission's Regulations. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceedings. Copies of this filing are on file with the Commission and are available for public
