NUCLEAR REGULATORY COMMISSION

[Dockets 70-7001 and 70-7002]

Notice of Renewal for Certificates of Compliance GDP-1 and GDP-2 for the U.S. Enrichment Corporation, Paducah and Portsmouth Gaseous Diffusion Plants, Paducah, Kentucky, and Portsmouth, Ohio

The U.S. Nuclear Regulatory Commission (NRC) is issuing a certification decision for the United States Enrichment Corporation (USEC) to allow continued operation of the two gaseous diffusion plants (GDPs) located near Paducah, Kentucky, and Piketon,

Ohio. The Director's Decision is to issue renewed Certificates of Compliance for the GDPs that cover a five-year period. USEC submitted its renewal applications on April 15, 1998. Notice of Receipt of the applications appeared in the **Federal Register** (63 FR 24832) on May 5, 1998, allowing a 45-day public comment period on the applications. As required by the Energy Policy Act, NRC consulted with the U.S. Environmental Protection Agency (EPA) about certification. EPA did not identify any significant compliance issues.

The NRC staff has reviewed the certificate renewal applications for the gaseous diffusion plants located near Paducah, Kentucky, and Piketon, Ohio, and concluded that in combination with certificate conditions, they provide reasonable assurance of adequate safety, safeguards, and security, and compliance with NRC requirements. Therefore, the Director, Office of Nuclear Material Safety and Safeguards, is prepared to issue a renewed Certificate of Compliance for each plant. The staff has prepared Compliance Evaluation Reports which provide details of the staff's evaluations.

The NRC staff has determined that the renewals satisfy the criteria for a categorical exclusion in accordance with 10 CFR 51.22(c)(19). Therefore, pursuant to 10 CFR 51.22(b), no environmental impact statement or environmental assessment need be prepared for the renewal.

USEC or any person whose interest may be affected and who submitted written comments in response to the **Federal Register** Notice on the renewal application under Section 76.37 may file a petition, not exceeding 30 pages, requesting review of the Director's Decision. The petition must be filed with the Commission not later than 15 days after publication of this **Federal Register** Notice. A petition for review of the Director's Decision shall set forth with particularity the interest of the petitioner and how that interest may be affected by the results of the decision. The petition should specifically explain the reasons why review of the Decision should be permitted with particular reference to the following factors: (1) The interest of the petitioner; (2) how that interest may be affected by the Decision, including the reasons why the petitioner should be permitted a review of the Decision; and (3) the petitioner's areas of concern about the activity that is the subject matter of the Decision. Any person described in this paragraph (USEC or any person who filed a petition) may file a response to any petition for review, not to exceed 30 pages, within 10 days after filing of the

petition. If no petition is received within the designated 15-day period, the Director will issue the final amendment to the Certificate of Compliance without further delay. If a petition for review is received, the decision on the amendment application will become final in 60 days, unless the Commission grants the petition for review or otherwise acts within 60 days after publication of this **Federal Register** Notice.

A petition for review must be filed with the Secretary, U.S. Nuclear Regulatory Commission, Washington, DC 20555-0001, Attention: Rulemakings and Adjudications Staff, or may be delivered to the Commission's Public Document Room, the Gelman Building, 2120 L Street, NW, Washington, DC, by the above date.

For further details with respect to the action see (1) the applications for renewal and (2) the Commission's Compliance Evaluation Reports. These items (except for classified and proprietary portions which are withheld in accordance with 10 CFR 2.790, "Availability of Public Records") are available for public inspection at the Commission's Public Document Room, the Gelman Building, 2120 L Street, NW, Washington, DC, and at the Local Public Document Rooms established for these facilities.

Date of renewal requests: April 15, 1998.

Brief description of renewal applications: USEC did not request any changes to the existing documentation; previous applications, statements, and reports are incorporated by reference into the renewal application. These include the Technical Safety Requirements, Safety Analysis Report, Compliance Plan, Quality Assurance Program, Emergency Plan, Security and Safeguards Plans, Waste Management Program, and Decommissioning Funding Program, etc. Certificate of Compliance GDP-1 for the Paducah GDP and Certificate of Compliance GDP-2 for the Portsmouth GDP will be renewed for a 5-year period. This will allow continued operation of the GDPs.

Effective date: The renewal of Certificates of Compliance GDP-1 and GDP-2 becomes effective immediately after being signed by the Director, Office of Nuclear Material Safety and Safeguards.

Local Public Document Room locations: Paducah Public Library, 555 Washington Street, Paducah, Kentucky 42003 and Portsmouth Public Library, 1220 Gallia Street, Portsmouth, Ohio 45662.
