SUPPLEMENTARY INFORMATION:

Technology Transfer Network (TTN)

The TTN is one of the EPA's electronic bulletin boards.

The TTN can be accessed through the Internet at:

WWW: http://www.epa.gov/ttn
FTP: ttnftp.rtpnc.epa.gov

When accessing the WWW site, select Directory of TTN Sites, then select ICCR—Industrial Combustion Coordinated Rulemaking from the Directory of TNN Sites.

Access to the TTN through FTP is a streamlined approach for downloading files, but is only useful, if the desired filenames are known.

If more information on the TTN is needed, call the help desk at (919) 541–5384.

Meetings of the ICCR Coordinating Committee and Work Groups are open to the public. All Coordinating Committee meetings will be announced in the **Federal Register** and on the TTN. Work Group meetings will be announced on the TTN and in the **Federal Register**, when possible.

The next meeting of the Coordinating Committee will be held February 24–25, 1998 at the Adam's Mark Hotel Winston Plaza, 425 North Cherry Street, Winston-Salem, NC, from about 8:00 a.m. to about 6:00 p.m. The agenda for this meeting will include reports from the Work Groups on their progress, testing needs and prioritization issues, discussion of data gathering efforts to support the ICCR, and a discussion of direction and guidance from the Coordinating Committee to the Work Groups. An opportunity will be provided for the public to offer comments and address the Coordinating Committee.

Two copies of the ICCR Coordinating Committee charter are filed with appropriate committees of Congress and the Library of Congress and are available upon request to the Docket (ask for item #–B–1). The purpose of the ICCR Coordinating Committee is to assist EPA in the development of regulations to control emissions of air pollutants from industrial, commercial, and institutional combustion of fuels and non-hazardous solid wastes. The Coordinating Committee will attempt to develop recommendations for national emission standards for hazardous air pollutants (NESHAP) implementing section 112 and solid waste combustion regulations implementing section 129 of the Act, and may review and make recommendations for revising and developing new source performance standards (NSPS) under section 111 of the Act. The recommendations will cover boilers, process heaters, industrial/commercial and other incinerators, stationary internal combustion engines, and stationary combustion turbines.

Lists of Coordinating Committee and Work Group members are available from the TTN for the purpose of giving the public the opportunity to contact members to discuss concerns or information they would like to bring forward during the ICCR process.

It is anticipated that the next meeting of the Coordinating Committee, following the meeting in February, will be April 28–29, 1998 in Fort Collins, Colorado.
