#### Control of Air Pollution From Motor Vehicles and New Motor Vehicle Engines; Modification of Federal On-Board Diagnostic Regulations for Light-Duty Vehicles and Light-Duty Trucks; Notice of Document Availability

**AGENCY:** Environmental Protection Agency.

**ACTION:** Proposed rule; document availability.

**SUMMARY:** On May 28, 1997, the U.S. Environmental Protection Agency (EPA or Agency) published a Notice of Proposed Rulemaking (see 62 FR 28932) proposing changes to the federal on-board diagnostics program. One of the proposed changes to the federal OBD program was to indefinitely allow manufacturers to comply with EPA's regulations by demonstrating compliance with the exception of the CARB OBDII anti-tampering provisions and certain evaporative emission monitoring requirements. In that NPRM, the Agency also proposed to update the version of the California OBDII regulations which with manufacturers must comply to a more recently revised version. The NPRM noted that the current version of CARB's regulations were contained in Mail-Out #96-34. However, CARB Mail-Out #96-34 was intended primarily for public comment purposes. In the May 28, 1997 NPRM, the Agency went on to state that, after CARB finalized their regulatory revisions being developed via Mail-Out #96-34, the Agency would, in its final rule, allow compliance with that revised final version provided that relevant portions of that version were acceptable for federal OBD compliance demonstration. The Agency received comments during the public comment period following publication of the

NPRM that this approach of incorporating CARB OBDII regulations would not allow EPA enough time to analyze the final revised version of the CARB OBDII changes for appropriateness and applicability to the federal OBD program. The Agency is in the process of developing the final rulemaking. CARB recently finalized its OBDII changes in CARB Mail-Out #97-24. The Agency has analyzed CARB Mail-Out #97-24 and has determined that it is appropriate for federal OBD compliance and its use for federal OBD presents no regulatory process concerns. This analysis, as well as CARB Mail-Out #97-24 is available in EPA Air Docket A-96-32 (see ADDRESSES).

**DATES:** The Docket will remain open until March 23, 1998 for any parties wishing to submit comment on CARB Mail-Out #97-24.

**ADDRESSES:** Materials relevant to this rulemaking are contained in Docket No. A-96-32. The docket is located at The Air Docket, 401 M. Street, SW., Washington, DC 20460, and may be viewed in room M1500 between 8:00 a.m. and 5:30 p.m., Monday through Friday. The telephone number is (202) 260-7548 and the facsimile number is (202) 260-4400. A reasonable fee may be charged by EPA for copying docket material.

Comments must be submitted to Holly Pugliese, Vehicle Programs and Compliance Division, U.S. Environmental Protection Agency, 2565 Plymouth Road, Ann Arbor, Michigan 48105, or Internet e-mail at "pugliese.holly@epamail.epa.gov."

## LEGAL SERVICES CORPORATION

### 45 CFR Part 1644

#### Disclosure of Case Information

**AGENCY:** Legal Services Corporation.

**ACTION:** Proposed rule.

**SUMMARY:** This proposed rule is a new rule intended to implement a provision in the Legal Services Corporation's (LSC or Corporation) FY 1998 appropriations act which requires basic field recipients to disclose certain information to the public and to the Corporation regarding cases their attorneys file in court. The case information that is provided to the

Corporation will be subject to disclosure under the Freedom of Information Act.

**DATES:** Comments should be received on or before March 23, 1998.

**ADDRESSES:** Comments should be submitted to the Office of the General Counsel, Legal Services Corporation, 750 First St. NE., 11th Floor, Washington, DC 20002-4250.

**FOR FURTHER INFORMATION CONTACT:**

Office of the General Counsel, (202-336-8817).

**SUPPLEMENTARY INFORMATION:** This proposed new rule is intended to implement Section 505 of the Corporation's FY 1998 appropriations act, which requires basic field recipients to disclose certain information to the public and to the Corporation regarding cases filed in court by any attorney employed by a recipient. See Public Law 105-119, 111 Stat. 2440. The Corporation issued a program letter on December 9, 1997, providing recipients with guidance on compliance with Section 505 until such time as a rule could be promulgated by the Corporation. On February 6, 1998, the Corporation's Operations and Regulations Committee (Committee) of the Corporation's Board of Directors (Board) met to consider a draft proposed rule to implement the case disclosure requirement. After making some changes to the draft rule, the Committee adopted this proposed rule for publication for public comment. A section-by-section analysis follows.

#### Section-by-Section Analysis

##### Section 1644.1 Purpose

The purpose section states that the rule is intended to ensure that recipients disclose to the public and to the Corporation information required by the case disclosure requirement on cases filed in court by their attorneys.

##### Section 1644.2 Definitions

The case disclosure provision requires that recipients disclose certain information, including the cause of action, for each case filed in court by a recipient attorney. To clarify this requirement, this proposed rule includes three definitions.

First, paragraph (a) of § 1644.2 defines to disclose the cause of action. To disclose the cause of action means to provide a sufficient description of a particular case to indicate the principal nature of the case. Examples would include: "breach of warranty," "bankruptcy," "divorce," "domestic violence," "petition to quiet title," "action to recover property," and "employment discrimination action."
