

copies of their views to USDA/AMS/Dairy Programs, Order Formulation Branch, Room 2971, South Building, P.O. Box 96456, Washington, DC 20090-6456 by April 26, 1999. The period for filing comments is limited to 7 days because a longer period would not provide the time needed to complete the required procedures and include April in the temporary revision period.

All written submissions made pursuant to this notice will be made available for public inspection in the Dairy Programs offices during regular business hours (7 CFR 1.27(b)).

#### Statement of Consideration

The provision proposed to be revised is the percentage of a supply plant's receipts required to be shipped to pool distributing plants pursuant to § 1079.7(b) of the Iowa Federal milk marketing order (Order 79). As proposed, the percentage of a supply plant's receipts that must be shipped to pool distributing plants (fluid milk plants) if the supply plant is to be considered a pool plant would be decreased by the maximum allowable 10 percentage points, from 20 percent to 10 percent, for the period April 1, 1999, through August 31, 1999.

Section 1079.7(b)(1) of the Iowa milk marketing order allows the Deputy Administrator, Dairy Programs, to reduce or increase a pool supply plant's minimum shipping requirement by up to 10 percentage points to prevent uneconomic milk shipments or to assure an adequate supply of milk for fluid use.

Beatrice Cheese, Inc. (Beatrice), a proprietary manufacturer of dairy products in Fredericksburg, Iowa, is regulated under Order 79 as a pool supply plant. Beatrice requested that the shipping percentage be reduced by 10 percentage points for the months of April through August 1999. The handler's request states that this decrease is warranted due to the fact that current raw milk supplies available for fluid use from outside of Iowa's traditional procurement area exceed the needs of the fluid milk plants in Federal Order 79 and that these available supplies have replaced milk shipped to distributing plants by Beatrice. Beatrice states that if the pool supply shipping percentages remain unchanged, the milk of dairymen who historically have supplied the Iowa market will not be able to continue to be pooled under the Federal Order, and Beatrice will be forced to move milk uneconomically.

In view of the current supply and demand relationship, it may be necessary to decrease the shipping percentage requirements for pool supply plants as proposed to provide for the

efficient and economic marketing of milk during the months of April through August 1999.

#### 7 CFR Part 1205

[CN-99-002]

#### 1999 Proposed Amendment to Cotton Board Rules and Regulations Adjusting Supplemental Assessment on Imports

**AGENCY:** Agricultural Marketing Service, USDA.

**ACTION:** Proposed rule.

**SUMMARY:** The Agricultural Marketing Service (AMS) is proposing to amend the Cotton Board Rules and Regulations by lowering the value assigned to imported cotton for the purpose of calculating supplemental assessments collected for use by the Cotton Research and Promotion Program. This adjustment is required by this regulation on an annual basis to ensure that the assessments collected on imported cotton and the cotton content of imported products remain similar to those paid on domestically produced cotton.

**DATES:** Comments must be received on or before May 19, 1999.

**ADDRESSES:** Comments may be mailed to USDA, AMS Cotton Program, STOP 0224, 1400 Independence Avenue, SW, Washington, DC 20250-0224. All comments received will be available for public inspection at this address during the hours 8:00 a.m. to 4:00 p.m. Monday through Friday.

**FOR FURTHER INFORMATION CONTACT:** Whitney Rick, (202) 720-2259.

#### SUPPLEMENTARY INFORMATION:

#### Executive Order 12866

This proposed rule has been determined to be "not significant" for purposes of Executive Order 12866, and therefore, has not been reviewed by the Office of Management and Budget.

#### Executive Order 12988

This proposed rule has been reviewed under Executive Order 12988, Civil Justice Reform. It is not intended to have retroactive effect. This proposed rule would not preempt any state or local laws, regulations, or policies, unless they present an irreconcilable conflict with this rule.

The Cotton Research and Promotion Act provides that administrative proceedings must be exhausted before parties may file suit in court. Under Section 12 of the Act, any person subject to an order may file with the Secretary a petition stating that the order, any provision of the plan, or any obligation imposed in connection with the order is not in accordance with law and requesting a modification of the order or to be exempted therefrom. Such person is afforded the opportunity for a hearing on the petition. After the hearing, the Secretary would rule on the petition. The Act provides that the District Court of the United States in any district in which the person is an inhabitant, or has his principal place of business, has jurisdiction to review the Secretary's ruling, provided a complaint is filed within 20 days from the date of the entry of ruling.

#### Regulatory Flexibility Act

Pursuant to requirements set forth in the Regulatory Flexibility Act (RFA) (5 U.S.C. 601 *et seq.*) AMS has considered the economic impact of this action on small entities and has determined that its implementation will not have a significant economic impact on a substantial number of small businesses.

There are an estimated 16,000 importers who are presently subject to rules and regulations issued pursuant to the Cotton Research and Promotion Order. This proposed rule would affect importers of cotton and cotton-containing products. The majority of these importers are small businesses under the criteria established by the Small Business Administration. This proposed rule would lower the assessments paid by the importers under the Cotton Research and Promotion Order. Even though the assessment would be lowered, the decrease is small and will not significantly affect small businesses.

The current assessment on imported cotton is \$0.011850 per kilogram of imported cotton. The proposed assessment is \$0.011397, a decrease of \$0.000453 or a 3.8 percent decrease from the current assessment. From January through December 1998 approximately \$20.9 million was collected at the \$0.011850 per kilogram

rate. Should the volume of cotton products imported into the U.S. remain at the same level in 1999, one could expect the decreased assessment to generate \$20.1 million or a 3.8 percent decrease from 1998.

#### Paperwork Reduction

In compliance with Office of Management and Budget (OMB) regulations (5 CFR part 1320) which implement the Paperwork Reduction Act (PRA) (44 U.S.C. 3501 *et seq.*) the information collection requirements contained in the regulation to be amended have been previously approved by OMB and were assigned control number 0581-0093.

#### Background

The Cotton Research and Promotion Act Amendments of 1990 enacted by Congress under Subtitle G of Title XIX of the Food, Agriculture, Conservation and Trade Act of 1990 on November 28, 1990, contained two provisions that authorized changes in the funding procedures for the Cotton Research and Promotion Program.

These provisions are: (1) the assessment of imported cotton and cotton products; and (2) termination of the right of cotton producers to demand a refund of assessments.

An amended Cotton Research and Promotion Order was approved by producers and importers voting in a referendum held July 17-26, 1991 and the amended Order was published in the **Federal Register** on December 10, 1991, (56 FR 64470). Proposed rules implementing the amended Order were published in the **Federal Register** on December 17, 1991, (56 FR 65450). Implementing rules were published on July 1 and 2, 1992, (57 FR 29181) and (57 FR 29431), respectively.

This proposed rule would decrease the value assigned to imported cotton in the Cotton Board Rules and Regulations (7 CFR 1205.510(b)(2)). This value is used to calculate supplemental assessments on imported cotton and the cotton content of imported products. Supplemental assessments are the second part of a two-part assessment. The first part of the assessment is levied on the weight of cotton produced or imported at a rate of \$1 per bale of cotton which is equivalent to 500

pounds or \$1 per 226.8 kilograms of cotton.

Supplemental assessments are levied at a rate of five-tenths of one percent of the value of domestically produced cotton, imported cotton, and the cotton content of imported products. The agency has adopted the practice of assigning the calendar year weighted average price received by U.S. farmers for Upland cotton to represent the value of imported cotton. This is done so that the assessment on domestically produced cotton and the assessment on imported cotton and the cotton content of imported products remain similar. The source for the average price statistic is "Agricultural Prices", a publication of the National Agricultural Statistics Service (NASS) of the Department of Agriculture. Use of the weighted average price figure in the calculation of supplemental assessments on imported cotton and the cotton content of imported products yields an assessment that approximates assessments paid on domestically produced cotton in the prior calendar year.

The current value of imported cotton as published in the **Federal Register** (63 FR 27818) on May 21, 1998, for the purpose of calculating supplemental assessments on imported cotton is \$1.4881 per kilogram. This number was calculated using the annual weighted average price received by farmers for Upland cotton during the calendar year 1997 which was \$0.675 per pound and multiplying by the conversion factor 2.2046. Using the Average Weighted Price Received by U.S. farmers for Upland cotton for the calendar year 1998, which is \$0.634 per pound, the new value of imported cotton is \$1.3977 per kilogram. The amended value is \$0.0904 per kilogram less than the previous value.

An example of the complete assessment formula and how the various figures are obtained is as follows:

- One bale is equal to 500 pounds.
- One kilogram equals 2.2046 pounds.
- One pound equals 0.453597 kilograms.

#### *One Dollar Per Bale Assessment Converted to Kilograms*

A 500 pound bale equals 226.8 kg. (500×.453597).

\$1 per bale assessment equals \$0.002000 per pound (1÷500) or \$0.004409 per kg. (1÷226.8)

#### *Supplemental Assessment of 5/10 of One Percent of the Value of the Cotton Converted to Kilograms*

The 1998 calendar year weighted average price received by producers for Upland cotton is \$0.634 per pound or \$1.3977 per kg. (0.634×2.2046)=1.3977.

Five tenths of one percent of the average price in kg. equals \$0.006988 per kg. (1.3977×.005).

#### *Total Assessment*

The total assessment per kilogram of raw cotton is obtained by adding the \$1 per bale equivalent assessment of \$0.004409 per kg. and the supplemental assessment \$0.006988 per kg. which equals \$0.011397 per kg.

The current assessment on imported cotton is \$0.011850 per kilogram of imported cotton. The proposed assessment is \$0.011397, a decrease of \$0.000453 per kilogram. This decrease reflects the decrease in the Average Weighted Price of Upland Cotton Received by U.S. Farmers during the period January through December 1998.

Since the value of cotton is the basis of the supplemental assessment calculation and the figures shown in the right hand column of the Import Assessment Table 1205.510(b)(3) are a result of such a calculation, the figures in this table have been revised. These figures indicate the total assessment per kilogram due for each Harmonized Tariff Schedule (HTS) number subject to assessment.

One HTS number subject to assessment pursuant to this regulation and found in the assessment table has been changed. In order to maintain consistency between the HTS and the assessment table, the changes to this one number have been incorporated into the assessment table. The last two digits of this number were changed to provide for statistical reporting purposes and involve no physical change to the products they represent. Therefore, the assessment rate is not affected by the change. The assessment rate for the one number has been applied to each of the new replacement numbers in the assessment table. The following table represents the changes:

Old number	New number	Conversion factor	Assessment cents/kg.
6302100010 .....	6302100005	1.1689	1.3322
	6302100008	1.1689	1.3322
	6302100015	1.1689	1.3322

A thirty day period is provided to comment on the changes to the Cotton Board Rules and Regulations proposed herein. This period is deemed appropriate because this proposal would lower the assessments paid by importers under the Cotton Research and Promotion Order. Accordingly, the change proposed in this rule, if adopted, should be implemented as soon as possible.

#### List of Subjects in 7 CFR Part 1205

Advertising, Agricultural research, Cotton, Marketing agreements,

Reporting and recordkeeping requirements.

For the reasons set forth in the preamble, 7 CFR part 1205 is proposed to be amended as follows:

#### PART 1205—COTTON RESEARCH AND PROMOTION

1. The authority citation for part 1205 continues to read as follows:

**Authority:** 7 U.S.C. 2101–2118.

2. In § 1205.510, paragraph (b)(2) and the table in paragraph (b)(3)(ii) are revised to read as follows:

#### § 1205.510 Levy of assessments.

\* \* \* \* \*

(b) \* \* \*

(2) The 12-month average of monthly weighted average prices received by U.S. farmers will be calculated annually. Such weighted average will be used as the value of imported cotton for the purpose of levying the supplemental assessment on imported cotton and will be expressed in kilograms. The value of imported cotton for the purpose of levying this supplemental assessment is \$1.3977 per kilogram.

(3) \* \* \*

## NORTHEAST DAIRY COMPACT COMMISSION

### 7 CFR Parts 1306 and 1309

#### Over-Order Price Regulation

**AGENCY:** Northeast Dairy Compact Commission.

**ACTION:** Proposed rule; notice of hearing.

**SUMMARY:** The Northeast Dairy Compact Commission proposes to amend the over-order price regulation to establish a supply management program. The proposed program is an assessment/refund plan under which the Commission would withhold up to the sum of three million dollars per calendar year, at the rate of \$250,000 from each Compact monthly pool. At the end of the Commission's fiscal (calendar) year, the Commission would refund the withheld funds to compact eligible producers who had either reduced their production or only increased production at a rate of one percent or less, as compared to the prior calendar year's production. All eligible producers would receive a flat rate refund amount. In addition to the flat rate refund amount, eligible producers who decreased production would receive a refund based on the hundredweight of milk that the current year's production was less than the prior year's production.

**DATES:** A public hearing will be held on May 5, 1999 to commence at 9:00 a.m. and to conclude no later than 12:00 p.m. Sworn and notarized written testimony, comments and exhibits may be submitted until 5:00 p.m. on May 19, 1999.

**ADDRESSES:** The public hearing will be held at Wayfarer Inn, 121 S. River Road, U.S. Route 3, Bedford, New Hampshire. Mail, or deliver, sworn and notarized testimony, comments and exhibits to: Northeast Dairy Compact Commission, 34 Barre Street, Suite 2, Montpelier, Vermont 05602.

**FOR FURTHER INFORMATION CONTACT:** Kenneth M. Becker, Executive Director, Northeast Dairy Compact Commission at the above address or by telephone at (802) 229-1941, or by facsimile at (802) 229-2028.

**SUPPLEMENTARY INFORMATION:**

#### I. Background

The Northeast Dairy Compact Commission ("Commission") was established under authority of the Northeast Interstate Dairy Compact ("Compact"). The Compact was enacted into law by each of the six participating New England states as follows: Connecticut—Pub. L. 93-320; Maine—Pub. L. 89-437, as amended, Pub. L. 93-274; Massachusetts—Pub. L. 93-370; New Hampshire—Pub. L. 93-336; Rhode Island—Pub. L. 93-106; Vermont—Pub. L. 93-57. In accordance with Article I, Section 10 of the United States Constitution, Congress consented to the Compact in Pub. L. 104-127 (FAIR Act), Section 147, codified at 7 U.S.C. 7256. Subsequently, the United States Secretary of Agriculture, pursuant to 7 U.S.C. 7256(1), authorized implementation of the Compact.

Pursuant to its rulemaking authority under Article V, Section 11 of the Compact, the Commission concluded an informal rulemaking process and voted to adopt a compact over-order price regulation on May 30, 1997.<sup>1</sup> The Commission subsequently amended and extended the compact over-order price regulation.<sup>2</sup> In 1998, the Commission further amended specific provisions of the over-order price regulation.<sup>3</sup> The current compact over-order price regulation is codified at 7 CFR Chapter XIII.

On November 27, 1998, the Commission issued a notice of proposed rulemaking proceedings on several subjects and issues, including whether additional supply management policies and provisions should be incorporated into the over-order price regulation.<sup>4</sup> The Commission held a public hearing to receive testimony on December 11, 1998 in Boxborough, Massachusetts and comments were received until 5:00 p.m. on December 31, 1998.

On January 13, 1999, the Commission held its deliberative meeting, pursuant to 7 CFR 1361.8, to consider all oral and written comments received at the public hearing and the additional comments received by the Commission's published comment deadline of December 31, 1998, and to deliberate and act on the proposed subjects and issues rulemaking regarding whether additional supply management policies and provisions should be incorporated into the over-order price regulation.<sup>5</sup> At that meeting, the Commission referred

the supply management issue to its Committee on Regulations and Rulemaking for further study. The Committee was asked to report back to the full Commission no later than the May 1999 meeting with recommendations for addressing supply management and the requirement in Article IV, Section 9(f) of the Compact. That provision requires the Commission, when establishing a compact over-order price, to "take such action as necessary and feasible to ensure that the over-order price does not create an incentive for producers to generate additional supplies of milk."<sup>6</sup>

Since promulgation of the Compact Over-order Price Regulation in 1997, the Commission has closely monitored milk production levels in New England. One of the main goals in initially promulgating the Over-order Price Regulation was to at least stabilize the dairy industry supplying the New England consumer milk markets and to increase the local supply of milk.<sup>6</sup>

In the spring of 1998, the Commission recognized that production levels in New England had increased. The Commission's Committee on Regulations and Rulemaking held five public meetings around New England, to receive informal public comment on various supply management proposals and the Commission's responsibilities under Section 9(f) of the Compact. The Commission also conducted a comprehensive rulemaking proceeding beginning in June 1998, held public hearings in July and September 1998 and promulgated a rule in November to be effective January 1, 1999 which limits the payment of the Compact Over-order producer price to milk disposed of within the Compact regulated area, with a seasonally adjusted allowance for diverted and transferred milk.<sup>7</sup>

Also in 1998, the Commission paid 1.762 million dollars to the Commodity Credit Corporation (CCC), as required by condition 5 of the authorization of the Compact, 7 U.S.C. 7256(5). That provision requires the Commission to compensate the CCC for the cost of any purchases of milk and milk products that result from the projected rate of increase in milk production in the Compact regulated area in excess of the national average rate of the increase in milk production.<sup>8</sup> The Commission

<sup>1</sup> 62 FR 29626 (May 30, 1997); 62 FR 29635 (May 30, 1997); 62 FR 62814 (Nov. 25, 1997).

<sup>2</sup> 63 FR 65517 (Nov. 27, 1998).

<sup>3</sup> During federal fiscal year 1998, the Compact region enjoyed some of the best milk production conditions in many years, weather was warm and feed prices were low. Many other milk producing areas of the country experienced some of the worst
