ENVIRONMENTAL PROTECTION AGENCY

[FRL-6218-4]

Proposed Administrative Order on Consent; Portland Cement Site, Salt Lake County, Utah

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice; proposed landowner and prospective purchaser settlements.

SUMMARY: Notice is hereby given of three proposed Settlement Agreements under the Comprehensive Environmental Response, Compensation and Liability Act, 42 U.S.C. 9601 *et seq.*, and the inherent authority of the Attorney General of the United States concerning the Portland Cement Site in Salt Lake County, Utah ("Site"). The first proposed Settlement Agreement requires the settling parties (L. Clair Williamsen, Larry D. Williamsen, Shirley Williamsen and Southwest Investment Company, collectively) to pay \$30,000 to resolve certain claims of the United States Environmental Protection Agency ("EPA") in connection with the remediation of the Site and \$4,000 to the United States Department of Interior ("DOI") to resolve certain claims for natural resources affected by the contamination at the Site. In addition, the said collective parties will implement specific institutional controls to assure that the remediation performed at the Site is effective and permanent. The second proposed Settlement Agreement requires the settling party, Williamsen Investment Company, to pay \$30,000 to resolve certain claims of EPA in connection with the remediation of the Site and \$3,000 to DOI to resolve certain claims for damages to natural resources affected by contamination at the Site. In addition, Williamsen Investment Company will implement specific institutional controls to assure that the remediation performed at the Site is

effective and permanent. The third proposed Settlement Agreement requires the settling party, BTL D Group LLC, to pay \$30,000 to resolve certain claims of EPA in connection with the remediation of the Site and \$3,000 to DOI to resolve certain claims for damages to natural resources effected by contamination at the Site.

DATES: Comments must be submitted to EPA on or before February 12, 1999.

ADDRESSES: Comments should be addressed to Matthew Cohn (8ENF-L), Senior Enforcement Attorney, U.S. Environmental Protection Agency, Region VIII, 999 18th Street, Suite 500, Denver, CO 80202-2466 and should refer to: "In the Matter of Portland Cement Williamsen-BTL D Settlement Agreements."

FOR FURTHER INFORMATION CONTACT:

Matthew Cohn (8ENF-L), Senior Enforcement Attorney, U.S. Environmental Protection Agency, Region VIII, 999 18th Street, Suite 500, Denver, CO 80202-2466 or phone 303-312-6853.

SUPPLEMENTARY INFORMATION: Copies of the proposed Settlement Agreements may be obtained in person or by mail from Sharon Abendschan, Enforcement Specialist (8ENF-T), U.S. Environmental Protection Agency, Region VIII, 999 18th Street, Suite 500, Denver, CO 80202-2466 or phone 303-312-6957.

Dated: January 9, 1999.

Elisabeth Evans,

Acting Assistant Regional Administrator, Office of Enforcement, Compliance and Environmental Justice, Region 8.

ENVIRONMENTAL PROTECTION AGENCY

[OPPTS-51921; FRL-6055-5]

Certain Chemicals; Premanufacture Notices

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: Section 5 of the Toxic Substances Control Act (TSCA) requires any person who intends to manufacture or import a new chemical to notify EPA and comply with the statutory provisions pertaining to the manufacture or import of substances not on the TSCA Inventory. Section 5 of TSCA also requires EPA to publish receipt and status information in the **Federal Register** each month reporting premanufacture notices (PMN) and test

marketing exemption (TME) application requests received, both pending and expired. The information in this document contains notices received from December 7, 1998 to December 16, 1998.

ADDRESSES: Written comments, identified by the document control number "[OPPTS-51921]" and the specific PMN number, if appropriate, should be sent to: Document Control Office (7407), Office of Pollution Prevention and Toxics, Environmental Protection Agency, 401 M St., SW., Rm. ETG-099 Washington, DC 20460.

Comments and data may also be submitted electronically by sending electronic mail (e-mail) to: oppt.ncic@epamail.epa.gov. Electronic comments must be submitted as an ASCII file avoiding the use of special characters and any form of encryption. Comments and data will also be accepted on disks in WordPerfect in 5.1/6.1 file format or ASCII file format. All comments and data in electronic form must be identified by the docket number [OPPTS-51921]. No Confidential Business Information (CBI) should be submitted through e-mail. Electronic comments on this notice may be filed online at many Federal Depository Libraries. Additional information on electronic submissions can be found under "SUPPLEMENTARY INFORMATION" of this document.

FOR FURTHER INFORMATION CONTACT:

Susan B. Hazen, Director, Environmental Assistance Division (7408), Office of Pollution Prevention and Toxics, Environmental Protection Agency, Rm. E-531, 401 M St., SW., Washington, DC, 20460, (202) 554-1404, TDD (202) 554-0551; e-mail: TSCA-Hotline@epamail.epa.gov.

SUPPLEMENTARY INFORMATION: Under the provisions of TSCA, EPA is required to publish notice of receipt and status reports of chemicals subject to section 5 reporting requirements. The notice requirements are provided in TSCA sections 5(d)(2) and 5(d)(3). Specifically, EPA is required to provide notice of receipt of PMNs and TME application requests received. EPA also is required to identify those chemical submissions for which data has been received, the uses or intended uses of such chemicals, and the nature of any test data which may have been developed. Lastly, EPA is required to provide periodic status reports of all chemical substances undergoing review and receipt of notices of commencement.

A record has been established for this notice under docket number "[OPPTS-51921]" (including comments and data submitted electronically as described

below). A public version of this record, including printed, paper versions of electronic comments, which does not include any information claimed as CBI, is available for inspection from 12 noon to 3 p.m., Monday through Friday, excluding legal holidays. The public record is located in the TSCA Nonconfidential Information Center (NCIC), Rm. NEM-B607, 401 M St., SW., Washington, DC 20460.

Electronic comments can be sent directly to EPA at:
oppt.ncic@epamail.epa.gov

Electronic comments must be submitted as an ASCII file avoiding the use of special characters and any form of encryption.

The official record for this notice, as well as the public version, as described above will be kept in paper form. Accordingly, EPA will transfer all comments received electronically into printed, paper form as they are received and will place the paper copies in the official record which will also include all comments submitted directly in writing. The official record is the paper record maintained at the address in "ADDRESSES" at the beginning of this document.

In the past, EPA has published individual notices reflecting the status of section 5 filings received, pending or expired, as well as notices reflecting receipt of notices of commencement. In

an effort to become more responsive to the regulated community, the users of this information and the general public, to comply with the requirements of TSCA, to conserve EPA resources, and to streamline the process and make it more timely, EPA is consolidating these separate notices into one comprehensive notice that will be issued at regular intervals.

In this notice, EPA shall provide a consolidated report in the **Federal Register** reflecting the dates PMN requests were received, the projected notice end date, the manufacturer or importer identity, to the extent that such information is not claimed as confidential and chemical identity, either specific or generic depending on whether chemical identity has been claimed confidential. Additionally, in this same report, EPA shall provide a listing of receipt of new notices of commencement.

EPA believes the new format of the notice will be easier to understand by the interested public, and provides the information that is of greatest interest to the public users. Certain information provided in the earlier notices will not be provided under the new format. The status reports of substances under review, potential production volume, and summaries of health and safety data will not be provided in the new notices.

EPA is not providing production volume information in the consolidated

notice since such information is generally claimed as confidential. For this reason, there is no substantive loss to the public in not publishing the data. Health and safety data are not summarized in the notice since it is recognized as impossible, given the format of this notice, as well as the previous style of notices, to provide meaningful information on the subject. In those submissions where health and safety data were received by the Agency, a footnote is included by the Manufacturer/Importer identity to indicate its existence. As stated below, interested persons may contact EPA directly to secure information on such studies.

For persons who are interested in data not included in this notice, access can be secured at EPA Headquarters in the NCIC at the address provided above. Additionally, interested parties may telephone the Document Control Office at (202) 260-1532, TDD (202) 554-0551, for generic use information, health and safety data not claimed as confidential or status reports on section 5 filings.

Send all comments to the address listed above. All comments received will be reviewed and appropriate amendments will be made as deemed necessary.

This notice will identify: (I) PMNs received; and (II) Notices of Commencement to manufacture/import.
