

points generated by the vessel's landings during such time frame(s).

(i) *Ownership requirements and registration of Mau Zone limited access permits for use with other vessels.* (1) A Mau Zone permit may be held by an individual, partnership, or corporation. No more than 49 percent of the underlying ownership interest in a Mau Zone permit may be sold, leased, chartered, or otherwise transferred to another person or entity. If more than 49 percent of the underlying ownership of the permit passes to persons or entities other than those listed in the original permit application supplemental information sheet, then the permit expires and must be surrendered to the PIAO.

(2) A Mau Zone permit holder may apply under § 660.13 to the PIAO to register the permit for use with another vessel if that vessel is owned by the permit holder, and is no longer than 60 ft (18.3 m).

(3) If a Mau Zone permit holder sells the vessel, for which the permit is registered for use, the permit holder must within 12 months of the date of sale apply to the PIAO to register the permit for use with a vessel owned by the permit holder. If the permit holder has not applied to register a replacement vessel within 12 months, then the permit expires.

(4) If a permitted vessel owned by the permit holder is sold or becomes unseaworthy, the Mau Zone permit with which the vessel was registered may be registered for use with a leased or chartered vessel for a period not to exceed 12 months from the date of registration of the leased or chartered vessel. If by the end of that 12-month period the permit holder fails to apply to the PIAO to register the permit for use with a vessel owned by the permit holder, then the permit expires.

(j) *Mau Zone limited access permit renewal.* (1) A Mau Zone permit will be eligible for renewal if the vessel for which the permit is registered for use made at least five separate fishing trips with landings of at least 500 lb (227 kg) of bottomfish management unit species per trip during the calendar year. Only one landing of bottomfish management unit species per fishing trip to the Mau Zone will be counted toward the landing requirement.

(2) If the vessel for which the permit is registered for use fails to meet the landing requirement of paragraph (j)(1) of this section, the owner may apply to the Regional Administrator for a waiver of the landing requirement. Grounds for a waiver are limited to captain incapacitation, vessel breakdowns, and the loss of the vessel at sea if the event

prevented the vessel from meeting the landing requirement. Unprofitability is not sufficient for waiver of the landing requirement.

(3) Failure of the permit holder to register a vessel for use under the permit does not exempt a permit holder from the requirements specified in this paragraph.

(k) *Appeals of permit actions.* (1) Except as provided in subpart D of 15 CFR part 904, any applicant for a permit or a permit holder may appeal the granting, denial, or revocation of his or her permit to the Regional Administrator.

(2) In order to be considered by the Regional Administrator, such appeal must be in writing, must state the action appealed, and the reasons therefore, and must be submitted within 30 days of the appealed action. The appellant may request an informal hearing on the appeal.

(3) The Regional Administrator, in consultation with the Council, will decide the appeal in accordance with the FMP and implementing regulations and based upon information relative to the application on file at NMFS and the Council, the summary record kept of any hearing, the hearing officer's recommended decision, if any, and any other relevant information.

(4) If a hearing is requested, or if the Regional Administrator determines that one is appropriate, the Regional Administrator may grant an informal hearing before a hearing officer designated for that purpose. The applicant or permit holder may appear personally or be represented by counsel at the hearing and submit information and present arguments as determined appropriate by the hearing officer. Within 30 days of the last day of the hearing, the hearing officer shall recommend in writing a decision to the Regional Administrator.

(5) The Regional Administrator may adopt the hearing officer's recommended decision, in whole or in part, or may reject or modify it. The Regional Administrator's decision on the application is the final administrative decision of the Department of Commerce, and is effective on the date the Administrator signs the decision.

5. Section 660.62 is amended by revising paragraph (b), removing paragraph (c), and redesignating paragraphs (d) through (f) as paragraphs (c) through (e), respectively, to read as follows:

§ 660.62 Prohibitions.

* * * * *

(b) Fish for, or retain on board a vessel, bottomfish management unit species in the Ho'omalu Zone or Mau Zone without the appropriate permit, registered for use with that vessel, issued under § 660.13.

* * * * *

6. Section 660.67 is amended by removing paragraph (d)(3) and adding new paragraph (e) to read as follows:

§ 660.67 Framework for regulatory adjustments.

* * * * *

(e) *Five-year review.* The Council will conduct a comprehensive review on the effectiveness of the Mau Zone limited access program 5 years following implementation of the program. The Council will consider the extent to which the FMP objectives have been met and verify that the target number of vessels established for the fishery is appropriate for current fishing activity levels, catch rates, and biological condition of the stocks. The Council may establish a new target number based on the 5-year review.

[Docket No. 990304062-9062-01; I.D. 042399B]

Fisheries of the Economic Exclusive Zone Off Alaska; Groundfish Fisheries by Vessels using Hook-and-Line Gear in the Gulf of Alaska

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Closure.

SUMMARY: NMFS is prohibiting directed fishing for groundfish by vessels using hook-and-line gear in the Gulf of Alaska (GOA), except for sablefish or demersal shelf rockfish. This action is necessary because the first seasonal bycatch mortality allowance of Pacific halibut apportioned to hook-and-line gear targeting groundfish, other than sablefish or demersal shelf rockfish, in the GOA has been caught.

DATES: Effective 1200 hrs, Alaska local time (A.l.t.), April 24, 1999, until 1200 hrs, A.l.t., May 18, 1999.

FOR FURTHER INFORMATION CONTACT: Mary Furuness, 907-586-7228

SUPPLEMENTARY INFORMATION: NMFS manages the groundfish fishery in the GOA exclusive economic zone according to the Fishery Management Plan for Groundfish of the Gulf of Alaska (FMP) prepared by the North Pacific Fishery Management Council under authority of the Magnuson-Stevens Fishery Conservation and Management Act. Regulations governing fishing by U.S. vessels in accordance with the FMP appear at subpart H of 50 CFR part 600 and 50 CFR part 679.

The Final 1999 Harvest Specifications of Groundfish for the GOA (64 FR 12094, March 11, 1999) established the Pacific halibut bycatch mortality allowance for groundfish included in the other hook-and-line fishery, which is defined at § 679.21(d)(4)(iii)(C), for the first season, the period January 1, 1999, through May 17, 1999, as 250 metric tons. The other hook-and-line fishery includes all groundfish, except sablefish and demersal shelf rockfish.

In accordance with § 679.21(d)(7)(ii), the Administrator, Alaska Region, NMFS (Regional Administrator), has determined that the first seasonal apportionment of the 1999 Pacific halibut bycatch mortality allowance specified for the hook-and-line groundfish fisheries, other than sablefish or demersal shelf rockfish, in the GOA has been caught. Consequently, NMFS is prohibiting directed fishing for groundfish, other than sablefish or demersal shelf rockfish, by vessels using hook-and-line gear in the GOA.

Maximum retainable bycatch amounts may be found in the regulations at § 679.20(e) and (f).

Classification

This action responds to the best available information recently obtained from the fishery. It must be implemented immediately in order to prevent overharvesting the first seasonal apportionment of the 1999 Pacific halibut bycatch mortality allowance specified for the groundfish fisheries, other than sablefish or demersal shelf rockfish, by vessels using hook-and-line gear in the GOA. A delay in the effective date is impracticable and contrary to the public interest. The first seasonal bycatch mortality allowance of Pacific halibut apportioned to hook-and-line gear targeting groundfish, other than sablefish or demersal shelf rockfish, in the GOA has been caught. Further delay would only result in overharvest which would disrupt the FMP's objective of apportioning Pacific halibut bycatch allowances throughout the year. NMFS

finds for good cause that the implementation of this action can not be delayed for 30 days. Accordingly, under 5 U.S.C. 553(d), a delay in the effective date is hereby waived.

This action is required by § 679.21 and is exempt from review under E.O. 12866.

Authority: 16 U.S.C. 1801 *et seq.*

Dated: April 23, 1999.

Richard W. Surdi,

Acting Director, Office of Sustainable Fisheries, National Marine Fisheries Service.

[Docket No. 990304062-9062-01; I.D. 042399A]

Fisheries of the Exclusive Economic Zone Off Alaska; Deep-water Species Fishery by Vessels Using Trawl Gear in the Gulf of Alaska

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Closure.

SUMMARY: NMFS is prohibiting directed fishing for species that comprise the deep-water species fishery by vessels using trawl gear in the Gulf of Alaska (GOA). This action is necessary because the second seasonal apportionment of the 1999 Pacific halibut bycatch allowance specified to the deep-water species fishery in the GOA has been caught.

DATES: Effective 1200 hrs, Alaska local time (A.l.t.), April 25, 1999, until 1200 hrs, A.l.t., July 4, 1999.

FOR FURTHER INFORMATION CONTACT: Tom Pearson, 907-481-1780 or tom.pearson@noaa.gov.

SUPPLEMENTARY INFORMATION: NMFS manages the groundfish fishery in the GOA exclusive economic zone according to the Fishery Management Plan for Groundfish of the Gulf of Alaska (FMP) prepared by the North Pacific Fishery Management Council under authority of the Magnuson-Stevens Fishery Conservation and Management Act. Regulations governing fishing by U.S. vessels in accordance with the FMP appear at subpart H of 50 CFR part 600 and 50 CFR part 679.

The Final 1999 Harvest Specifications of Groundfish for the GOA (64 FR 12094, March 11, 1999) established the Pacific halibut bycatch allowance for the GOA trawl deep-water species fishery, which is defined at § 679.21(d)(3)(iii)(B), for the second season, the period April 1, 1999, through July 3, 1999, as 300 metric tons.

In accordance with § 679.21(d)(7)(i), the Administrator, Alaska Region, NMFS (Regional Administrator), has determined that the second seasonal apportionment of the 1999 Pacific halibut bycatch allowance specified for the trawl deep-water species fishery in the GOA has been caught. Consequently, NMFS is prohibiting directed fishing for the deep-water species fishery by vessels using trawl gear in the GOA. The species and species groups that comprise the deep-water species fishery are: All rockfish of the genera *Sebastes* and *Sebastolobus*, deep-water flatfish, rex sole, arrowtooth flounder, and sablefish.

Maximum retainable bycatch amounts may be found in the regulations at § 679.20(e) and (f).

Classification

This action responds to the best available information recently obtained from the fishery. It must be implemented immediately in order to prevent overharvesting the second seasonal apportionment of the 1999 Pacific halibut bycatch allowance specified for the trawl deep-water species fishery in the GOA. A delay in the effective date is impracticable and contrary to the public interest. The second seasonal apportionment of the Pacific halibut bycatch allowance has been caught. Further delay would only result in overharvest which would disrupt the FMP's objective of apportioning Pacific halibut mortality allowances throughout the year. NMFS finds for good cause that the implementation of this action can not be delayed for 30 days. Accordingly, under 5 U.S.C. 553(d), a delay in the effective date is hereby waived.

This action is required by § 679.21 and is exempt from review under E.O. 12866.
