

1995 (44 U.S.C. Chapter 35) requires that the Office of Management and Budget (OMB) provide interested Federal agencies and the public an early opportunity to comment on information collection requests. OMB may amend or waive the requirement for public consultation to the extent that public participation in the approval process would defeat the purpose of the information collection, violate State or Federal law, or substantially interfere with any agency's ability to perform its statutory obligations. The Acting Leader, Information Management Group, Office of the Chief Information Officer, publishes that notice containing proposed information collection requests prior to submission of these requests to OMB. Each proposed information collection, grouped by office, contains the following: (1) Type of review requested, e.g. new, revision, extension, existing or reinstatement; (2) Title; (3) Summary of the collection; (4) Description of the need for, and proposed use of, the information; (5) Respondents and frequency of collection; and (6) Reporting and/or Recordkeeping burden. OMB invites public comment at the address specified above. Copies of the requests are available from Patrick J. Sherrill at the address specified above.

Florida Gas Transmission Co.; Notice of Request Under Blanket Authorization

April 22, 1999.

Take notice that on April 20, 1999, Florida Gas Transmission Company (FGT), 1400 Smith Street, Houston, Texas 77002, filed in Docket No. CP99-326-000 a request pursuant to Sections 157.205 and 157.212 of the Commission's Regulations under the Natural Gas Act (18 CFR 157.205 and 157.212) for authorization to construct and operate delivery facilities in St. Landry Parish, Louisiana to permit the delivery of gas to Riverside Pipeline Company (Riverside) for gas lift operations, under the blanket certificate issued in Docket No. CP82-553-000, pursuant to Section 7(c) of the Natural

Gas Act, all as more fully set forth in the request which is on file with the Commission and open to public inspection. This filing may be viewed on the web at <http://www.ferc.fed.us/online/rims.htm> (call 202-208-2222 for assistance).

FGT states that Riverside has requested a connection and measurement instrumentation for gas lift operations at an existing well connect, Vermilion Resources Meter Station. It is indicated that two check valves will be added to the existing flange on the riser to connect Riverside's 2-inch delivery meter to measure volumes into Riverside. FGT states that it would also install 15 feet of connecting pipe to be installed from the riser to Riverside's meter station. It is stated that the gas lift gas will fuel Riverside's compressors when their pressure is too low to deliver gas into FGT's system at the existing receipt point. It is further indicated that, when well pressure is high enough to allow gas to enter FGT's system, the proposed delivery point will close, allowing the delivery into the FGT system through the existing meter.

FGT indicates that it will be able to deliver to Riverside up to 250 Mcf per day. FGT estimates that the proposed facilities will cost \$30,000, which would be reimbursed by Riverside. FGT also states that the proposed delivery point is not prohibited by the existing tariff.

Any person or the Commission's staff may, within 45 days after issuance of the instant notice by the Commission, file pursuant to Rule 214 of the Commission's Procedural Rules (18 CFR 385.214) a motion to intervene or notice of intervention and pursuant to Section 157.205 of the Regulations under the Natural Gas Act (18 CFR 157.205) a protest to the request. If no protest is filed within the time allowed therefore, the proposed activity shall be deemed to be authorized effective the day after the time allowed for filing a protest. If a protest is filed and not withdrawn within 30 days after the time allowed for filing a protest, the instant request shall be treated as an application for authorization pursuant to Section 7 of the Natural Gas Act.
