BILLING CODE 6802-ET-P

NATIONAL LABOR RELATIONS BOARD

Privacy Act of 1974; Publication of Revised System of Records Notice

AGENCY: National Labor Relations Board (NLRB).

ACTION: Revised publication of System of Records Notice NLRB-2, Applicant Files for Attorney and Field Examiner Positions.

SUMMARY: The Privacy Act of 1974, as amended, requires that each agency publish a notice of a proposed new System of Records, as well as proposals to revise existing Systems of Records. This notice alters an existing Privacy Act System of Records Notice NLRB-2, Applicant Files for Attorney and Field Examiner Positions, by deleting two routine uses, dividing one routine use into two distinct uses for purposes of clarity, amending the language of four routine uses, updating the addresses of system locations, and updating the citations referring to 29 CFR 102.117; as well as making several insignificant administrative language revisions.

All persons are advised that in the absence of submitted comments, views, or arguments considered by the NLRB as warranting modification of the notice as herewith to be published, it is the intention of the NLRB that the notice shall be effective upon expiration of the comment period without further action by this Agency.

DATES: The amended System of Records Notice will become effective without further notice 30 days from the date of this publication (June 1, 1999) unless comments are received on or before that date which result in a contrary determination.

ADDRESSES: All persons who desire to submit written comments, views, or arguments for consideration by the NLRB in connection with the proposed revised System of Records Notice shall file them with the Executive Secretary, National Labor Relations Board, 1099 14th Street, NW, Room 11600, Washington, DC 20570-0001.

Copies of all such communications will be available for examination by

interested persons during normal business hours in the Office of the Executive Secretary, National Labor Relations Board, 1099 14th Street, NW, Room 11600, Washington, DC 20570-0001.

FOR FURTHER INFORMATION CONTACT: John J. Toner, Executive Secretary, National Labor Relations Board, 1099 14th Street, NW, Room 11600, Washington, DC 20570-0001.

SUPPLEMENTARY INFORMATION: The following changes have been made to the existing NLRB System of Records Notice NLRB-2, Applicant Files for Attorney and Field Examiner Positions.

1. Routine uses 1 and 2 have been deleted because the specified "need to know" in them is authorized by 5 U.S.C. 552a(b)(1) and (5). Routine use 3 has been renumbered 1.

2. The language of routine use 4 has been amended to specify that on disclosure to an inquiring congressional office, the subject individual must be a constituent about whom the records are maintained. Routine use 4 has been renumbered 2.

3. Routine use 5 has been divided into two distinct uses 3 and 4 for purposes of clarity, one dealing solely with arbitrators and the other with officials of labor organizations. The language has been amended to conform to the intent of routine use (e) in the Government-wide System of Records OPM/GOVT-2, Employee Performance File System Records, to eliminate the NLRB requirement that the information that may be disclosed to a labor organization "shall be furnished in depersonalized form, i.e., without personal identifiers." Routine use (e) is a Government-wide System of Records OPM/GOVT-2 which provides that the information will be "disclosed to an arbitrator to resolve disputes under a negotiated grievance procedure or to officials of labor organizations under 5 U.S.C. Chapter 71 when relevant and necessary to their duties of exclusive representation." The NLRB is deleting the requirement that "[W]henever feasible and consistent with the responsibilities under the Act, such information shall be furnished in depersonalized form, i.e., without personal identifiers," a requirement not contained in OPM-GOVT-2 routine use (e).

4. Routine use 7 has been amended by changing reference from "Agency" to "NLRB" for more specificity. Routine use 7 has been renumbered 6.

5. Routine use 8 is amended to specify more exactly the information that may be disclosed to a court or an adjudicative body in the course of presenting evidence or argument

including disclosure to opposing counsel or witnesses in the course of civil discovery. Routine use 8 has been renumbered 7.

6. The address of system locations and manages in NLRB-2 has been changed from "NLRB, 1717 Pennsylvania Avenue, NW, Washington, DC 20570-0001" to "NLRB, 1099 14th Street, NW, Washington, DC 20570-0001."

7. Reference to 29 CFR 102.117 citations have been changed to read as follows for the paragraphs in Notifications Procedures, 29 CFR 102.117(f); Records Access Procedures, 29 CFR 102.117(g) and (h); and Contesting Records Procedures, 29 CFR 102.117(i).

A report of the proposal to revise this system of records was filed pursuant to 5 U.S.C. 552(r) with Congress and the Office of Management and Budget.

Dated: Washington, DC, April 21, 1999.

NUCLEAR REGULATORY COMMISSION

[Docket Number 40-3453]

Atlas Corporation; Notice of Availability of Supplement to the Final Technical Evaluation Report for the Proposed Revised Reclamation Plan for the Atlas Corporation Moab Mill

AGENCY: Nuclear Regulatory Commission.

SUMMARY: Notice is hereby given that the U.S. Nuclear Regulatory Commission (NRC) announces the availability of a Supplement to the Final Technical Evaluation Report for the Proposed Revised Reclamation Plan for the Atlas Corporation Moab Mill.

FOR FURTHER INFORMATION CONTACT: Dr. Myron Fliegel, Uranium Recovery and Low-Level Waste Branch, Division of Waste Management, U.S. Nuclear Regulatory Commission, Washington, DC 20555. Telephone (301) 415-6629.

SUPPLEMENTARY INFORMATION: A Supplement to the Final Technical Evaluation Report (FTER), which provides updated information developed at the Atlas Moab Mill since the publication of the FTER in March 1997, is being made available for public inspection at NRC's Public Document Room at 2120 L Street, NW (Lower Level), Washington, DC 20555.

The Supplement to the FTER, pertaining to the proposed revised reclamation plan submitted by Atlas Corporation, summarizes NRC staff's review of additional site data developed for the U.S. Fish and Wildlife Service (FWS), as a part of the Section 7 Endangered Species Act (ESA) consultation process, and additional analyses performed by the Center for Nuclear Waste Regulatory Analyses (CNWRA) regarding performance of the proposed reclamation. The additional data was developed by the FWS in order for it to issue a Final Biological Opinion in accordance with the ESA. The results and conclusions of the Section 7 consultation are presented in the Final Environmental Impact Statement (FEIS). The FTER was issued in March 1997 and contained staff's analysis and conclusions that the proposed on-site reclamation of the existing uranium mill tailings pile complies with the requirements contained in Title 10 Code of Federal Regulations (CFR) part 40. The additional data and analyses did not conflict with staff's analysis or conclusion of acceptability contained in the FTER; however, a supplement is needed to update the information contained in the FTER.

Dated at Rockville, Maryland, this 26th day of April, 1999.

For the Nuclear Regulatory Commission.

N. King Stablein,

Acting Chief, Uranium Recovery and Low-Level Waste Branch, Division of Waste Management, Office of Nuclear Material Safety and Safeguards.

NUCLEAR REGULATORY COMMISSION

[Docket No. 50-309]

Maine Yankee Atomic Power Company, Maine Yankee Atomic Power Station; Environmental Assessment and Finding of No Significant Impact

The U.S. Nuclear Regulatory Commission (the Commission) is considering issuance of an amendment to the Appendix A Technical Specifications (TS) to Facility Operating

License No. DPR-36, a license held by the Maine Yankee Atomic Power Company (MYAPCo or the licensee). The amendment would apply to the Maine Yankee Atomic Power Station (Maine Yankee), a permanently shutdown plant located at the MYAPCo site in Lincoln County, Maine.

Environmental Assessment

Identification of Proposed Action

The proposed action would change the liquid and gaseous release rate limits included in the Radioactive Effluent Control Program portion of the TS to reflect revisions to 10 CFR part 20, "Standards for Protection Against Radiation." The proposed action is in accordance with the licensee's application dated July 14, 1998.

The Need for the Proposed Action

The proposed action is needed to update the license to incorporate revised requirements of 10 CFR Part 20 (i.e., the need for the proposed action was created by a change in the regulatory requirements).

Environmental Impact of the Proposed Action

The Commission has completed its evaluation of the proposed amendment to the Maine Yankee TS and concludes that issuance of the proposed amendment will not cause an increase in individual or cumulative occupational radiation exposures. The proposed change in TS effluent release rates will allow the licensee to retain operational flexibility consistent with the design objectives for radioactive effluent releases in Appendix I to 10 CFR Part 50 and will not have a negative impact on the licensee's ability to continue to operate within as low as reasonably achievable (ALARA) criteria.

The proposed action will not increase the probability or consequences of accidents, no changes are being made in the types of any effluents that may be released off site, and there is no significant increase in occupational or public radiation exposure. Therefore, there are no significant radiological environmental impacts associated with the proposed action.

With regard to potential non-radiological impacts, the proposed action does not involve any historic sites. It does not affect non-radiological plant effluents and has no other environmental impact. Therefore, there are no significant non-radiological environmental impacts associated with the proposed action.

Accordingly, the Commission concludes that there are no significant
