#### Agency Information Collection Activities: Proposed Collection: Comment Request

In compliance with the requirement for opportunity for public comment on proposed data collection projects (section 3506(c)(2)(A) of Title 44, United States Code, as amended by the Paperwork Reduction Act of 1995, Public Law 104-13), the Health Resources and Services Administration (HRSA) publishes periodic summaries of proposed projects being developed for submission to OMB under the Paperwork Reduction Act of 1995. To request more information on the

proposed project or to obtain a copy of the data collection plans and draft instruments, call the HRSA Reports Clearance Officer on (301) 443-1891.

Comments are invited on: (a) Whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information shall have practical utility; (b) the accuracy of the agency's estimate of the burden of the proposed collection of information; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or other forms of information technology.

#### Proposed Project: Progress Reports for Continuation Training Grants (OMB No. 0915-0061)—Extension

The HRSA Progress Reports for Continuation Training Grants are used for the preparation and submission of continuation applications for Title VII and VIII health professions and nursing education and training programs. The Uniform Progress Report measures grantee success in meeting (1) the objectives of the grant project and (2) the cross-cutting outcomes developed for the Bureau's education and training programs. The first part of the progress report is designed to collect information to determine whether sufficient progress

has been made on the approved project objectives, as grantees must demonstrate satisfactory progress to warrant continuation of funding. The second part of the progress report contains selected tables from the Comprehensive Performance Management System (CPMS) reflecting the seven indicators that have been identified. Progress will be measured based on the objectives of the grant project and outcome measures and indicators developed by the Bureau to meet requirements of the Government Performance and Results Act (GPRA).

To respond to the requirements of GPRA, the Bureau developed goals, outcomes and indicators that provide a framework for collection of outcome data for its Titles VII and VIII programs. An outcome based performance system is critical for measuring whether program support is meeting national health workforce objectives. At the core of the performance measurement system are found cross-cutting goals with respect to workforce quality, supply, diversity and distribution of the health professions workforce. A demonstration project to assess availability of the data needed to support the indicators was conducted, and data from this project are currently being analyzed.

The progress report will be completely automated in fiscal year 2000, allowing the grantees to obtain, complete, and submit the report electronically.

The burden estimate is as follows:

Form	Number of respondents	Response per respondent	Total responses	Hours per response	Total burden hours
Progress Report .....	800	1	800	20	16,000

#### **Proposed Project: Health Professions Student Loan (HPSL) and Nursing Student Loan (NSL) Programs: Forms (OMB No. 0915-0044)—Revision**

The HPSL Program provides long-term, low-interest loans to students

attending schools of medicine, osteopathic medicine, dentistry, veterinary medicine, optometry, podiatric medicine, and pharmacy. The NSL Program provides long-term, low-interest loans to students who attend eligible schools of nursing in programs leading to a diploma in nursing, an associate degree, a baccalaureate degree, or a graduate degree in nursing. Participating HPSL and NSL schools are responsible for determining eligibility of applicants, making loans, and collecting monies owed by borrowers on their outstanding loans. The deferment form (HRSA form 519) provides the schools with documentation of a borrower's eligibility for deferment. The Annual Operating Report (AOR—HRSA form 501) provides the Federal Government with information from participating and non-participating schools (schools that are no longer granting loans but are required to report and maintain program records, student records, and repayment records until all student loans are repaid in full and all monies due the Federal Government are returned) relating to HPSL and NSL program operations and financial activities.

The estimated annual response burden is as follows:

Form	Number of responses	Responses per respondent	Total responses	Hours per respondent	Total burden hours
Deferment 519 .....	10,358	1	10,358	10 minutes ..	1,726
AOR 501 .....	1,302	1	1,302	4 .....	5,208
Total .....	.....	.....	11,660	.....	6,934

#### **Proposed Project: Faculty Loan Repayment Program (FLRP) Application (OMB No. 0915-0150)—Extension**

Under the Health Resources and Services Administration Faculty Loan Repayment Program, disadvantaged graduates from certain health professions schools may enter into a contract under which HRSA, with the Department of Health and Human Services, will make payments on eligible graduate educational loans in exchange for a minimum of two years of service as a full-time or part-time faculty member of a health professions school. Applicants must complete an application and provide information on all eligible education loans. Upon selection of participants, HRSA will
