Background

On November 30, 1998, the Department initiated an administrative review of the countervailing duty order on certain iron metal castings from India, covering the period January 1, 1997, through December 31, 1997 (63 FR 65748). In our notice of initiation, we stated our intention to issue the final results of this review no later than October 31, 1999. The preliminary results of review are currently due no later than July 5, 1999. Due to the number of producers/exporters of the subject merchandise covered by this review, the Department has determined that it is not practicable to complete this review within the time limits mandated by the Act (19 U.S.C. 1675 (a)(3)(A)).

Postponement of Preliminary Results of Review

Section 751(a)(3)(A) of the Act requires the Department to make a preliminary determination within 245 days after the last day of the anniversary month of an order/finding for which a review is requested and a final determination within 120 days after the date on which the preliminary determination is published. However, if it is not practicable to complete the review within the time period, section 751(a)(3)(A) allows the Department to extend this time period to a maximum of 365 days and 180 days, respectively.

We determine that it is not practicable to complete the preliminary results of this review within the original time frame. See Memorandum from Bernard

Carreau to Robert S. LaRussa, "Extension of Preliminary Results: Certain Iron Metal Castings from India (C-533-063)," dated April 27, 1999.

The deadline for issuing the preliminary results of this review is now no later than November 2, 1999, which is the full amount of time the Department can extend the preliminary results under section 751(a)(3)(A) of the Act.

This extension is in accordance with section 751(a)(3)(A) of the Act (19 U.S.C. 1675 (a)(3)(A)).

Dated: April 28, 1999.

Bernard Carreau,

Deputy Assistant Secretary for Import Administration, Group II.
