

amended (5 U.S.C. Appendix 2), notice is hereby given of a meeting of The Board of Scientific Counselors of the Warren Grant Magnuson Clinical Center.

The meeting will be closed to the public as indicated below in accordance with the provisions set forth in section 552b(c)(6), Title 5 U.S.C., as amended for the review, discussion, and evaluation of individual intramural programs and projects conducted by the Clinical Center, including consideration of personnel qualifications and performance, and the competence of individual investigators, the disclosure of which would constitute a clearly unwarranted invasion of personal privacy.

Name of Committee: The Board of Scientific Counselors of the Warren Grant Magnuson Clinical Center.

Date: June 21–22, 1999.

Time: 8:30 am to 5 pm.

Agenda: To review and evaluate personal qualifications and performance, and competence to individual investigators.

Place: National Institutes of Health, Clinical Center Medical Board Room, 2C116, 9000 Rockville Pike, Bethesda, MD 20892.

Contact Person: David K. Henderson, Deputy Director for Clinical Care, Office of the Director, Clinical Center, National Institutes of Health, Building 10, Room 2C146, Bethesda, MD 20892, 301/402–0244.

Dated: May 11, 1999.

LaVerne Y. Stringfield,

Committee Management Officer, National Institutes of Health.

Agency Information Collection Activities: Submission for OMB Review; Comment Request

Periodically, the Substance Abuse and Mental Health Services Administration (SAMHSA) will publish a list of information collection requests under OMB review, in compliance with the Paperwork Reduction Act (44 U.S.C. Chapter 35). To request a copy of these documents, call the SAMHSA Reports Clearance Officer on (301) 443–7978.

Persistent Effects of Treatment in Cuyahoga County, Ohio—New

The Center for Substance Abuse Treatment (CSAT) is undertaking a major initiative to study the long-term course of substance abuse within the context of receipt of substance abuse treatment. It has often been observed that success in treating substance abuse may require multiple episodes of treatment. The Persistent Effects of Treatment Studies (PETS) will be a family of studies structured to provide data on a wide range of populations and treatment approaches over a three-year period following admission to a substance abuse treatment program in a community setting. The family of studies will be built on existing studies currently being conducted by other

organizations (including Federal, State, and local governments) in order to minimize costs and response burden. Collectively, the PETS studies are expected to provide valuable insights into the factors that lead to long-term success in treatment of substance abuse.

Persistent Effects of Treatment in Cuyahoga County, Ohio, is the first of these studies. Under the aegis of an existing, CSAT-funded, Target Cities cooperative agreement, the county has built a strong substance abuse treatment information capability including standardized client intake assessment using the computerized Central Intake Assessment Instrument (CIAI–C), sound and comprehensive treatment information systems, and ongoing client follow-up at 6- and 12-months after treatment. This proposed project will build upon this foundation by conducting additional interviews at 24, 30, and 36 months after treatment admission using the computerized CIAI–C Followup version. At month 36, additional information needed to construct a natural history of substance use, treatment, criminal justice involvement, and employment for each subject over the previous 4-year period will be collected.

The estimated response burden over the three-year period of approval is summarized below.

	Number of respondents	Number of responses/ respondent	Average burden/ response	Total burden hours
CIAI–C Followup Interview: 24, 30 and 36 months	806	3	1.5	3,627
CIAI–C Followup Interview: 30 and 36 months	453	2	1.5	1,359
Natural History Interview	1,259	1	1.0	1,038
Total	1,259	6,245
3-year average	2,082

* The client cohort is comprised of 1,259 treatment clients. Some clients will have the 24-month interview conducted under Target Cities funding and some will be under PETS funding.

Written comments and recommendations concerning the proposed information collection should be sent within 30 days of this notice to: Daniel Chenok, Human Resources and Housing Branch, Office of Management and Budget, New Executive Office Building, Room 10235, Washington, D.C. 20503.

Dated: May 12, 1999.

Richard Kopanda,

Executive Officer, SAMHSA.

Substance Abuse and Mental Health Services Administration

Supplemental Grant Award to the Farm Resource Center (FRC) of Cairo, Illinois To Continue the Mental Health Outreach to Coal Miners, Farmers, and Their Families Program

AGENCY: Center for Mental Health Services (CMHS), Substance Abuse and

Mental Health Services Administration (SAMHSA), HHS

ACTION: Supplement to continue outreach services in Illinois and West Virginia and to expand activities into other areas of West Virginia and into western Pennsylvania.

SUMMARY: This notice is to inform the public that approximately \$600,000 will be available in FY 1999 to the Farmers Resource Center (FRC) of Cairo, Illinois to supplement their current grant award under the 1997 announcement *Mental Health Outreach to Coal Miners, Farmers, and Their Families*. Support will be provided for up to one year. The purpose of the award is to continue outreach activities that ameliorate stress associated with unemployment in rural communities and to increase access to, and utilization of, mental health and substance abuse services for coal miners, farmers, and their families in Illinois and West Virginia and to expand activities into additional areas of West Virginia and western Pennsylvania. This program is intended to address the needs of adults and their families in rural areas who have or may be at risk for developing a mental illness of substance abuse problem as well as their children who have or may be at risk for developing emotional or other behavioral problems. CMHS will make the awards based on the recommendations of the initial review group and the CMHS National Advisory Council.

This is not a request for applications. Eligibility for this grant award is limited to the currently funded Farm Resource Center (FRC) of Cairo, Illinois. The FRC has provided mental health and substance abuse outreach services in rural Illinois and parts of West Virginia. FRC has provided counseling to farmers, coal miners and their families, created a Statewide hotline, and utilized outreach counselors to work with rural families in their homes to address problems such as depression, alcoholism and domestic violence. The purpose of this supplemental award is to continue outreach activities in Illinois and parts of West Virginia and western Pennsylvania. The supplemental work is inextricably linked to the current activities the FRC is performing and the FRC is uniquely situated to provide services in western Pennsylvania and West Virginia in addition to Illinois. Therefore, the FRC is the only organization that may appropriately apply for this supplement to the existing award.

Authority: These supplemental awards will be made under the authority of section 520A of the Public Health Service Act, as

amended (42 U.S.C. 290bb-32). The Catalog of Federal Domestic Assistance (CFDA) number for this program is 93.125.

FOR FURTHER INFORMATION CONTACT: Mr. Santo (Buddy) Ruiz, Division of Knowledge Development and Systems Change, Center for Mental Health Services, Substance Abuse and Mental Health Services Administration, 5600 Fishers Lane, Room 11C-22, Rockville, Maryland 20857; 301-443-3653.

Dated: May 7, 1999.

Richard Kopanda,

Executive Officer, Substance Abuse and Mental Health Services Administration.
