According to the plan, Connecticut will utilize the recovered Chapter 1 Handicapped Program funds to enhance transition services for secondary age youth with disabilities. This program will benefit a similar population (secondary age youth with disabilities) to the population that was affected by the misexpenditures that resulted in the recovery of funds. Specifically, 30 students with disabilities will be selected to participate in a program that is designed to provide work experience opportunities for young adults with disabilities to assist them in defining appropriate career directions. These funds will be expended consistent with the requirements of Part B of the IDEA, this supplemental program will serve the population of students that was eligible for services under the Chapter 1 Handicapped Program.

D. The Assistant Secretaries' Determinations

The Assistant Secretaries have carefully reviewed the application and plan that Connecticut submitted. Based upon that review, the Assistant Secretaries have determined that the conditions set forth in GEPA have been met. These determinations are based upon the best information available to the Assistant Secretaries at the present time. If this information is not accurate or complete, the Assistant Secretaries may take other appropriate administrative action. In finding that the conditions of section 459 of GEPA have been met, the Assistant Secretaries make no determination concerning any pending audit recommendations or final audit determinations.
