## DEPARTMENT OF HEALTH AND HUMAN SERVICES

### Public Health Service

#### 42 CFR Part 36

##### RIN 0917-AA02

### Indian Child Protection and Family Violence Prevention Act Minimum Standards of Character

**AGENCY:** Indian Health Service, Public Health Service, HHS.

**ACTION:** Notice of proposed rulemaking; extension of comment period.

**SUMMARY:** The Indian Health Service (IHS) is extending the comment period for the notice of proposed rulemaking implementing section 408 of the Indian Child Protection and Family Violence Prevention Act Minimum Standards of Character (Published March 25, 1999, 64 FR 14560) from May 24, 1999, to July 26, 1999, in response to tribal requests for more time to analyze the proposed rule and to prepare their comments.

**DATES:** Comments must be received on or before July 26, 1999.

**ADDRESSES:** Written comments may be sent to Betty J. Penn, Regulations Officer, Indian Health Service, Twinbrook Metro Plaza, Suite 450, 12300 Twinbrook Parkway, Rockville, Maryland 20852. Comments will be made available for public inspection at

this address from 8:30 a.m. to 5:00 p.m., Monday–Friday.

**FOR FURTHER INFORMATION CONTACT:**

Ramona Williams, Child Protection Coordinator, Office of Mental Health/Social Services, Indian Health Service, 5300 Homestead Road, N.E., Albuquerque, New Mexico 87110, (505) 248–4245. (This is not a toll-free number.)

**SUPPLEMENTARY INFORMATION:** In the **Federal Register** of March 25, 1999, the IHS published proposed regulations to implement section 408 of Pub. L. 101–630, the Indian Child Protection and Family Violence Prevention Act. The Act requires that tribes or tribal organizations who receive funds under the Indian Self-Determination and Education Assistance Act, Pub. L. 93–638, employ individuals in positions involving regular contact with or control over Indian children only if the individuals meet standards of character no less stringent than those prescribed under these regulations. Comments have been received on behalf of a number of tribes requesting an extension of the comment period for the proposed regulation ranging from 30 days to 2 months. For example, some of the tribes are currently engaged in contract/compact negotiations and need additional time to fully study the proposed regulations and consult with their tribal councils before submitting written comments. Some tribes have already adopted their detailed policies on this subject and need time to compare the proposed regulations to their policies. The IHS has considered these requests and determined that an additional 60 days would accommodate the need for additional time and be consistent with its policy of consultation with tribes.

All comments received during the public comment period will be given full consideration in the development of the final regulations.

Dated: May 21, 1999.

**Robert G. McSwain,**

*Acting Director.*

BILLING CODE 4160–16–M

**DEPARTMENT OF THE INTERIOR**

**Fish and Wildlife Service**

**50 CFR Part 17**

**RIN 1018–AE92**

**Endangered and Threatened Wildlife and Plants; Proposed Establishment of Nonessential Experimental Population Status for Sixteen Freshwater Mussels (Alabama Lampmussel, Birdwing Pearlymussel, Clubshell, Cracking Pearlymussel, Cumberland Bean Pearlymussel, Cumberlandian Combshell, Cumberland Monkeyface Pearlymussel, Dromedary Pearlymussel, Fine-Rayed Pigtoe, Oyster Mussel, Purple Cat's Paw Pearlymussel, Shiny Pigtoe, Tubercled-blossom Pearlymussel, Turgid-blossom Pearlymussel, Winged Mapleleaf Mussel, and Yellow-blossom Pearlymussel) and One Freshwater Snail (Anthony's Riversnail) in the Free-flowing Reach of the Tennessee River below the Wilson Dam, Colbert and Lauderdale Counties, Alabama**

**AGENCY:** Fish and Wildlife Service, Interior.

**ACTION:** Proposed rule.

**SUMMARY:** The Fish and Wildlife Service (Service; also, “we”, “us”, “our”) proposes to reintroduce 16 federally listed endangered mussels (Alabama lampmussel (*Lampsilis virescens*), birdwing pearlymussel (*Conradilla caelata*), clubshell (*Pleurobema clava*), cracking pearlymussel (*Hemistena lata*), Cumberland bean pearlymussel (*Villosa trabalis*), Cumberlandian combshell (*Epioblasma brevidens*), Cumberland monkeyface pearlymussel (*Quadrula intermedia*), dromedary pearlymussel (*Dromus dromas*), fine-rayed pigtoe (*Fusconaia cuneolus*), oyster mussel (*Epioblasma capsaeformis*), purple cat's paw pearlymussel (*Epioblasma obliquata obliquata*), shiny pigtoe (*Fusconaia cor*), tubercled-blossom pearlymussel (*Epioblasma torulosa torulosa*), turgid-blossom pearlymussel (*Epioblasma turgidula*), winged mapleleaf mussel (*Quadrula fragosa*), and yellow-blossom pearlymussel (*Epioblasma florentina florentina*)) and 1 federally listed endangered aquatic snail (Anthony's riversnail (*Athearnia anthonyi*)) into historic habitat in the free-flowing reach of the Tennessee River from about 1.4 river miles (RM) (2.2 kilometers [km]) below Wilson Dam to the backwaters of Pickwick Reservoir (RM 258.0 [412.8 km]) to (RM 246.0 [393.6 km]) in Colbert and Lauderdale counties, Alabama. These reintroduced populations are proposed to be

classified as nonessential experimental populations (NEP) under section 10(j) of the Endangered Species Act of 1973, as amended (Act). Based on the evaluation of species experts and the State, none of these species are currently known to exist in this river reach or its tributaries. Ongoing surveys conducted by the Tennessee Valley Authority (TVA) and the State of Alabama over the past 20 years have failed to locate any individuals of the species proposed for NEP status under this rule.

To ensure that any reintroduced species that move upstream to Wilson Dam or into the tributaries are covered by these NEP designations, we propose that the geographic boundaries of the NEPs extend from the base of the Wilson Dam (RM 259.4 [414.0 km]) to the backwaters of the Pickwick Reservoir (RM 246.0 [393.6 km]) and include the lower 5 RM (8 km) of all tributaries that enter the Wilson Dam tailwater. In the future, if any of the aforementioned mollusks are found upstream beyond the lower 5 RM (8 km) of these tributaries, the animals will be presumed to have come from the reintroduced NEP, and the boundaries of the NEP will be enlarged to include the entire range of the expanded population. No designation of critical habitat will be made for any of these NEPs. Additionally, we do not intend to change these NEPs from “nonessential” to “essential” or to “threatened” or “endangered” without the full cooperation of the State of Alabama and other affected parties within the NEP areas. These proposed reintroductions are recovery actions and part of a series of reintroductions and other recovery actions the Service, Federal and State agencies, and other partners are considering and conducting throughout the species' historic ranges. The only change to the NEPs we foresee would be elimination of the designations if the species are recovered and removed from the Act's protection. This proposed rule sets forth a plan for establishing the nonessential experimental population and provides for limited allowable legal take of the aforementioned mollusks within the defined NEP areas.

**DATES:** Comments from all interested parties must be submitted on or before July 26, 1999.

**ADDRESSES:** Send comments and material concerning this proposal to the State Supervisor, Asheville Field Office, U.S. Fish and Wildlife Service, 160 Zillicoa Street, Asheville, North Carolina 28801. Comments and material received will be available for public inspection, by appointment, during
