## FEDERAL COMMUNICATIONS COMMISSION

### Public Information Collections Approved by Office of Management and Budget

May 21, 1999.

The Federal Communications Commission (FCC) has received Office of Management and Budget (OMB) approval for the following public information collections pursuant to the Paperwork Reduction Act of 1995, Public Law 104-13. An agency may not conduct or sponsor and a person is not required to respond to a collection of information unless it displays a currently valid control number. For further information contact Shoko B. Hair, Federal Communications Commission, (202) 418-1379.

#### Federal Communications Commission

*OMB Control No.:* 3060-0848.

*Expiration Date:* 11/30/99.

*Title:* Deployment of Wireline Services Offering Advanced Telecommunications Capability, CC Docket No. 98-147, FCC 99-48, First Report and Order and Further Notice of Proposed Rulemaking (FNPRM).

*Form No.:* N/A.

*Respondents:* Business or other for-profit.

*Estimated Annual Burden:* 1400 respondents; 4.5 hours per response (avg.); 6300 total annual burden hours for all collections.

*Estimated Annual Reporting and Recordkeeping Cost Burden:* \$0.

*Frequency of Response:* On occasion; third party disclosures.

*Description:* In the First Report and Order and Further Notice of Proposed Rulemaking, issued in CC Docket No. 98-147, Deployment of Wireline Services Offering Advanced Telecommunications Capability, released March 31, 1999, the Commission seeks to implement Congress's goal of promoting innovation and investment by all participating in the telecommunications marketplace, in order to stimulate competition for all services, including advanced services.

In fulfillment of this goal, the Commission imposes certain collections of information on all incumbent local exchange carriers (incumbent LECs): (a) List of Equipment, Affidavit—Whenever an incumbent LEC objects to collocation of equipment by a requesting telecommunications carrier for the purposes within the scope of section 251(c)(6) of the Act, the incumbent LEC shall prove to the state commission that the equipment will not be actually used by the telecommunications carrier for the purpose of obtaining interconnection or access to unbundled network elements. An incumbent LEC that denies collocation of a competitor's equipment, citing safety standards, must provide to the competitive LEC within five business days a list of all equipment that the incumbent LEC locates within the premises in question, together with an affidavit attesting that all of that equipment meets or exceeds the safety standard that the incumbent LEC contends the competitor's equipment fails to meet. See 47 CFR 51.323(b). (No. of respondents: 1400; hours per response: 1 hour; total annual burden: 1400 hours). (b) Space Limitation Documentation—An incumbent LEC shall submit to the state commission, subject to any protective order as the state commission may deem necessary, detailed floor plans or diagrams of any premises where the incumbent LEC claims that physical collocation is not practical because of space limitations. An incumbent LEC that contends space for physical collocation is not available in an incumbent LEC premises must also allow the requesting carrier to tour the entire premises in question, not just the room in which space was denied, without charge, within ten days of the receipt of the incumbent LEC's denial of space. Section 51.321(f) is currently approved by OMB under OMB control number 3060-0710. The Commission has amended the rule section to require that ILECs allow CLECs to tour their facility. However, no new or modified paperwork requirements are made. See 47 CFR 51.321(f). (c) Report of Available Collocation Space—Upon request, an incumbent LEC must submit to the requesting carrier within ten days of the submission of the request a report indicating the incumbent LEC's available collocation space in a particular LEC premises. This report must specify the amount of collocation space available at each requested premises, the number of collocators, and any modifications in the use of the space since the last report. The incumbent LEC must maintain a publicly available document, posted for

viewing on the Internet, indicating all premises that are full, and must update such a document within ten days of the date at which a premises runs out of physical collocation space. See 47 CFR 51.321(h). (No. of respondents: 1400; hours per response: 1 hour; total annual burden: 1400 hours). (d) Information on Security Training—An incumbent LEC must provide information to competitive LECs on the specific type of security training a competitive LEC's employees must complete in order for the incumbent LEC to maintain reasonable security measures for its equipment and networks. See 47 CFR Section 51.323(i)(3). (No. of respondents: 1400; hours per response: 30 minutes; total annual burden: 700 hours). (e) Access to Spectrum Management Procedures and Policies—An incumbent LEC must provide competitive LECs with nondiscriminatory access to the incumbent LEC's spectrum management procedures and policies. See 1st Report and Order, para. 72. (No. of respondents: 1400; hours per response: 30 minutes; total annual burden: 700 hours). (f) Rejection and Loop Information—An incumbent LEC must disclose to requesting carriers information with respect to the rejection of the requesting carrier's provision of advanced services, together with the specific reason for the rejection. An incumbent LEC must also disclose to requesting carriers information with respect to the number of loops using advanced services technology within the binder and type of technology deployed on those loops. See 1st Report and Order, para. 73. (No. of respondents: 1400 hours; hours per response: 1 hour; total annual burden: 1400 hours). (g) Notification of Performance Degradation—If a carrier claims a service is significantly degrading the performance of other advanced services or traditional voice band services, then that carrier must notify the causing carrier and allow that carrier a reasonable opportunity to correct the problem. Any claims of network harm must be supported with specific and verifiable supporting information. See 1st Report and Order, para. 75. (No. of respondents: 1400; hours per response: 1 hour; total annual burden: 1400 hours). All of the collections will be used by the Commission and by competitive carriers to facilitate the deployment of advanced data services and to implement section 706 of the Communications Act of 1934, as amended. Obligation to respond: Mandatory.

OMB Control No.: 3060-0804.

*Expiration Date:* 05/31/2002.

*Title:* Universal Service: Health Care providers Universal Service Program.  
*Form No.:* FCC Forms 465, 466, 467 and 468.

*Respondents:* Not for profit institutions; business or other for-profit.

*Estimated Annual Burden:* 18,400 respondents; 6.6 hours per response (avg.); 121,500 total annual burden hours for all collections.

*Estimated Annual Reporting and Recordkeeping Cost Burden:* \$0.

*Frequency of Response:* On occasion.

*Description:* The Commission has adopted rules providing support for all telecommunications services, Internet access, and internal connections for all eligible health care providers pursuant to authority stemming from the Telecommunications Act of 1996. The Universal Service Administrative Company administers the telecommunications universal service programs. Health care providers who want to participate in the universal service program must file the following forms with USAC's Rural Health Care Division (RHCD). (a) FCC Form 465—Description of Services Requested and Certification. All health care providers requesting services eligible for universal service support must file a Description of Services and Certification form with the RHCD. By filing this form, health care providers certify that they meet the eligibility criteria and indicate the telecommunications services they would like to purchase at supported rates. The RHCD posts a description of the services sought on a website for all potential competing telecommunications carriers to see and respond to as if they were requests for proposals (RFPs). 47 C.F.R. 54.603(b)(2), 47 C.F.R. 54.615(c). (No. of respondents: 12,000; hours per response: 2.5 hours; total annual burden: 30,000). (b) FCC Form 466—Services Ordered and Certification. All health care providers ordering services that are eligible for universal service support must file a Services Ordered and Certification form with the RHCD. 47 C.F.R. 54.603(b)(4). FCC Form 466—Services Ordered and Certification is the means by which a health care provider informs the RHCD that it has entered an agreement with a telecommunications service provider to purchase supported services. FCC Form 466 will also be used to ensure health care providers have selected the most cost-effective method of providing the requested services as set forth in 47 C.F.R. 54.603(b)(4). The RHCD must receive this form before it can commit universal service monies to support the telecommunications services the health care provider has agreed to purchase.

(No. of respondents: 12,000; hours per response: 1.5 hours; total annual burden: 18,000 hours). (c) FCC Form 467—Confirmation of Service Commencement or Notification of Disconnection of Service. First, a health care provider that is receiving supported telecommunications service must file this form to inform the RHCD that it is receiving the services identified in FCC Form 466. The RHCD will not permit support to be disbursed to the telecommunications carrier pursuant to 47 C.F.R. 54.611 prior to receiving FCC Form 467. Second, a health care provider receiving supported telecommunications service must file FCC Form 467 when it stops receiving these services. This action is necessary to ensure that no universal service support is distributed after a telecommunications carrier stops providing the supported service. (No. of respondents: 15,000; hours per response: 1.5 hours; total annual burden: 22,500 hours). (d) FCC Form 468—Telecommunications Carriers Support. All telecommunications carriers seeking universal service support for providing telecommunications services to health care providers must file this form. The data in the report will be used to ensure that the appropriate amount of universal service support is allocated for each service purchased, as set forth in 47 C.F.R. 54.609(b). Telecommunications carriers must provide specific information on Form 468, such as the circuit distance for the services they are providing and the estimated amount of support that should be allocated to these services. Telecommunications carriers return the completed FCC Form 468 to the health care provider, which is responsible for filing both FCC Form 468 and FCC Form 466 with the RHCD at the same time. (No. of respondents: 3400; hours per response: 1.5 hours; total annual burden: 51,000. It is estimated a telecommunications carrier will submit FCC Form 468 about ten times a year).

Submission of FCC Form 465, Description of Services Requested and Certification, is the means by which a health care provider: (1) requests specific services from telecommunications carriers; and (2) certifies that it is eligible to receive telecommunications services that are supported by universal service mechanisms. Posting a health care provider's FCC Form 465 allows telecommunications carriers to identify which health care providers in their service area are asking for specific services. Health care providers use FCC

Form 466 to inform the RHCD that they have agreed to purchase supportable services from a telecommunications carrier. FCC Form 466 is also used to ensure health care providers have selected the most cost-effective method of providing the requested services as set forth in 47 C.F.R. 54.603(b)(4). The RHCD must receive this form before it can commit universal service funds to support the services the health care provider has agreed to purchase. FCC Form 467 also requires health care provider to inform the RHCD that it has stopped receiving supported service. FCC Form 468 is the means by which a telecommunications carrier that has agreed to provide supported services to a health care providers submits specific information to the RHCD about the amount of support that should be allocated for the telecommunications service. Obligation to respond: Required to obtain or retain benefits. Call RHCD at 800-229-5476 for questions concerning or copies of FCC Forms 465, 466, 467 and 468.

*OMB Control No.:* 3060-0856.

*Expiration Date:* 05/31/2002.

*Title:* Universal Service, Schools and Libraries Universal Service Program—Reimbursement Forms.

*Form No.:* FCC Forms 472, 473, and 474.

*Respondents:* Not-for-profit institutions; business or other for-profit.

*Estimated Annual Burden:* 61,800 respondents; 1.4 hours per response (avg.); 88,050 total annual burden hours for all collections.

*Estimated Annual Reporting and Recordkeeping Cost Burden:* \$0.

*Frequency of Response:* On occasion.

*Description:* The Commission has adopted rules discounts on all telecommunications services, Internet access, and internal connections for all eligible schools and libraries pursuant to the Telecommunications Act of 1996. The Universal Service Administrative Company (USAC) administers the telecommunications universal service programs. The following forms are necessary to enable USAC's Schools and Libraries Division (SLD), to pay universal service support to service providers who provide discounted service to eligible schools, libraries, and consortia of those entities. FCC Form 472—Billed Entity Applicant Reimbursement Form—The information collected in the Billed Entity Applicant Reimbursement Form is necessary to enable the fund administrator, the SLD, to pay universal service support to service providers who provide discounted services to eligible schools, libraries, and consortia of those entities.

The information is to be collected from each Form 471 Billed Entity Applicant (Applicant) that received a funding Commitment Decisions Letter from the administrator and filed a Form 486 to indicate the applicant intended to prepare and submit to the SLD an invoice for reimbursement. The information collected on the Billed Entity Applicant Reimbursement Form should be completed by an applicant to seek reimbursement for payments on approved services and/or products delivered to the applicant from the actual service start date, as reported in the applicant's Form 486 Column (E). This information is necessary to identify the amount of the discounts due and owing from the service provider to the applicant, so that the service provider may reimburse this amount to the applicant. The fund administrator will notify the service provider of the amount of the approved reimbursement, and the service provider shall then reimburse the amount to the applicant. The fund administrator will then reimburse the service provider for the amount of approved discounts paid on a Billed Entity Reimbursement Form. The Telecommunications Act of 1996 contemplates that discounts on eligible services shall be provided by service providers, and the service providers shall seek reimbursement for the amount of the discounts. The fund administrator will disburse universal service support payments to service providers than directly to applicants. In preparing and submitting its Billed Entity Applicant Reimbursement Form, the applicant must provide a copy of the completed form to the service provider and obtain the written acknowledgement of the service provider to confirm that the service provider understands its obligation to provide the approved discount to the applicant, once the fund administrator processes the Billed Entity Reimbursement Form. The service provider must also acknowledge that under no circumstances may it make use of a reimbursement paid from the fund administrator to the service provider before the service provider issues the approved discount to the applicant. (No. of respondents: 50,000; hours per response: 1.5 hours; total annual burden: 75,000 hours). (b) FCC Form 473—Service Provider Annual Certification Form—The Service Provider Annual Certification Form is to be submitted by each service provider or vendor, hereinafter collectively referred to as service providers, that was assigned a service provider identification number (SPIN) by the

Universal Service Administrative Company (USAC) and that participates in the universal service support mechanism for schools and libraries. The service provider or vendor will participate in the universal service support mechanism by providing discounted eligible services to eligible entities pursuant to a Fund Commitment Decisions Letter issued by the SLD. The purpose of the Annual Certification Form is to confirm that, for each Invoice Form submitted by the service provider, the Invoice form is in compliance with the FCC's rules governing the schools and libraries universal service support mechanism, and the Invoice Form is true, accurate and complete. (No. of respondents: 9300; hours per response: 1 hour; total annual burden: 9300 hours). (c) FCC Form 474—Service Provider Invoice Form—The Service Provider Invoice Form is to be used by all service providers or vendors, hereinafter collectively referred to as service providers, who were assigned a SPIN by the USAC and participate in the universal service support mechanism for schools and libraries. The service provider or vendor will participate in the universal service support mechanism by providing discounted eligible services to eligible entities pursuant to a Fund Commitment Decisions Letter issued by the fund administrator, the Schools and Libraries Division (SLD). The purpose of the Invoice Form is for the service provider/vendor to seek reimbursement for the cost of discounts. The information to be collected on the Service Provider Invoice Form must be received by the SLD before a service provider participating the universal service program for schools and libraries can receive payment for the discounted portion of its bill for eligible services to eligible entities. Subsequent to receipt and review of the Service Provider Invoice, the SLD will authorize USAC to disburse payment on the invoice. (No. of respondents: 2500; hours per response: 1.5 hours; total annual burden: 3,750 hours).

The purpose of FCC Form 472, Billed Entity Applicant Reimbursement Form is to establish the process and procedure for an eligible entity to seek reimbursement from the service provider for the discounts on services paid in full since the actual service start date of the discounts as reported in the applicant's Form 486 Receipt of Services Confirmation Form, Column (E) of Block 2. Once the fund administrator processes the Billed Entity Applicant Reimbursement Form,

a notification will be sent to the service provider and applicant advising them of the approved amount of discounts. The service provider must then provide the discount amount to the applicant and the fund administrator will reimburse the service provider. The purpose of FCC Form 473, Service Provider Annual Certification Form is to establish the process and procedure for a service provider to confirm the accuracy of their Invoice Forms. This form is part of the procedure established to enable service providers to seek reimbursement for the costs of discounts they provided to eligible entities on eligible services as defined under the FCC's rules governing the schools and libraries universal service support mechanism pursuant to the Telecommunications Act of 1996. The purpose of FCC Form 474, is to establish the processing and procedure for a service provider to seek reimbursement for the costs of discounts it provided to eligible entities on eligible services as defined under the FCC's rules governing the schools and libraries universal service support mechanism pursuant to the Telecommunications Act of 1996. The Service Provider Invoice Form is also used by the fund administrator, the SLD, to assure that the dollars paid out by the fund administrator on a funding request number (FRN) do not exceed that FRN.

All of the requirements contained herein are necessary to implement the congressional mandate for universal service. Obligation to respond: Required to obtain or retain benefits. Call SLD at 888-203-8100 for questions concerning or copies of FCC Forms 472, 473, and 474.

Public reporting burden for the collections of information is as noted above. Send comments regarding the burden estimate or any other aspect of the collections of information, including suggestions for reducing the burden to Performance Evaluation and Records Management, Washington, D.C. 20554. Federal Communications Commission.

**Magalie Roman Salas,**  
Secretary.

## FEDERAL DEPOSIT INSURANCE CORPORATION

### Sunshine Act Meeting

Pursuant to the provisions of the "Government in the Sunshine Act" (5 U.S.C. 552b), notice is hereby given that at 2:05 p.m. on Tuesday, May 25, 1999,

the Board of Directors of the Federal Deposit Insurance Corporation met in closed session to consider (1) matters relating to the Corporation's supervisory, corporate, and liquidation activities, and (2) matters relating to an administrative enforcement proceeding.

In calling the meeting, the Board determined, on motion of Director Ellen S. Seidman (Director, Office of Thrift Supervision), seconded by Vice Chairman Andrew C. Hove, Jr., concurred in by Director John D. Hawke, Jr. (Comptroller of the Currency), and Chairman Donna Tanoue, that Corporation business required its consideration of the matters on less than seven days' notice to the public; that no earlier notice of the meeting was practicable; that the public interest did not require consideration of the matters in a meeting open to public observation; and that the matters could be considered in a closed meeting by authority of subsections (c)(2), (c)(4), (c)(6), (c)(8), (c)(9)(A)(ii), and (c)(9)(B) of the "Government in the Sunshine Act" (5 U.S.C. 552b(c)(2), (c)(4), (c)(6), (c)(8), (c)(9)(A)(ii), and (c)(9)(B)).

The meeting was held in the Board Room of the FDIC Building located at 550-17th Street, N.W., Washington, D.C.

Dated: May 26, 1999.

Federal Deposit Insurance Corporation.
