FEDERAL COMMUNICATIONS COMMISSION

Public Information Collections Approved by Office of Management and Budget

May 24, 1999.

The Federal Communications Commission (FCC) has received Office of Management and Budget (OMB) approval for the following public information collections pursuant to the Paperwork Reduction Act of 1995, Public Law 104-13. An agency may not conduct or sponsor and a person is not required to respond to a collection of information unless it displays a currently valid control number. For further information contact Shoko B. Hair, Federal Communications Commission, (202) 418-1379.

Federal Communications Commission

OMB Control No.: 3060-0817.

Expiration Date: 11/30/99.

Title: Computer III Further Remand Proceedings: BOC Provision of Enhanced Services (ONA Requirements), CC Docket No. 95-20.

Form No.: N/A.

Respondents: Business or other for-profit.

Estimated Annual Burden: 500 respondents; 72.5 hours per response

(avg.); 36,250 total annual burden hours for all collections.

Estimated Annual Reporting and Recordkeeping Cost Burden: \$0.

Frequency of Response: On occasion; third party disclosures.

Description: In the Report and Order issued in CC Docket No. 95-20, released March 10, 1998, the Commission eliminates outdated, unnecessary regulations, while continuing to protect against potential anticompetitive behavior by the Bell Operating Companies (BOCs) in the provision of information services. The Commission has established the following collections of information: (a) The Commission no longer requires BOCs to file their Comparably Efficient Interconnection (CEI) plans with the Commission and to obtain pre-approval of CEI plans and amendments before initiating or altering an intraLATA information service. Instead, we require BOCs to post their CEI plans and plan amendments on their publicly accessible Internet sites linked to and searchable from the BOC's main Internet page, and to notify the Common Carrier Bureau at the time of the posting. The substance of the notification may be limited to the Internet address and path to the relevant CEI plan or amended plan; the form may consist of a letter to the Secretary with a copy to the Bureau. The requirement extends to CEI plans for new or modified telemessaging or alarm monitoring services, and for new or amended payphone services. In addition, if the BOC receives a good faith request for a plan from someone who does not have internet access, the BOC must notify that person where a paper copy of the plan is available for public inspection. (No. of respondents: 5; hours per respondent: 50 hours; total annual burden: 250 hours). (b) The Commission removes the Computer II network disclosure rules for BOCs providing information through a Computer II separate subsidiary, the Computer II all-carrier rule, and the Computer III network disclosure rules. The Commission extends the disclosure requirements in section 51.325(a) of its rules to require incumbent LECs to provide public notice of any network changes that will affect the manner in which Customer Premises Equipment (CPE) is attached to the network. (No. of respondents: 500; hours per response: 72 hours; total annual burden: 36,000 hours. See also OMB control number 3060-0741. Note that burden estimate for 47 CFR Section 51.35(a) is approved under OMB control number 3060-0741). The collections of information relating to CEI plans will be used to ensure that BOCs comply with Commission policies

and regulations safeguarding against potential anticompetitive behavior by the BOCs in the provision of information services. The disclosure of CPE is necessary to encourage competition in the telecommunications services market by lifting operations barriers to entry. Obligation to comply: Mandatory.

OMB Control No.: 3060-0687.

Expiration Date: 05/31/2002.

Title: Access to Telecommunications Equipment and Services by Persons with Disabilities—CC Docket No. 87-124.

Form No.: N/A.

Respondents: Business or other for-profit.

Estimated Annual Burden: 806,100 respondents; 1.2 hours per response (avg.); 991,000 total annual burden hours for all collections.

Estimated Annual Reporting and Recordkeeping Cost Burden: \$638,000.

Frequency of Response: On occasion; third party disclosures.

Description: Title II of the Communications Act of 1934, as amended, 47 U.S.C. section 201 *et al.*, provides the statutory authority for the Commission to promulgate the rules and regulations contained in part 68 of FCC Rules, 47 CFR Part 68. Requirements in part 68 are necessary to prevent degradation of the telephone network. The following collections are necessary to inform consumers who purchase and/or use telephone equipment to determine whether the telephone is hearing aid compatible. a. section 68.300(c) Equipment Labeling Requirements. Pursuant to Section 68.300(c), all registered telephone manufactured in the U.S. or imported for use in the U.S. that are hearing aid compatible must be stamped with the letters HAC. The provision applies to all telephones manufactured or imported as of March 1, 1997 for use in the United States. The provision excludes telephones used with public mobile services or private radio services, and secure telephones. (No. of respondents: 1100; hours per response: 11.36; total annual burden: 12,500). b. Section 68.112(b)(3)(E) to designate emergency telephones. Section 68.112(b)(3)(E) requires that employers with fifteen or more employees provide emergency telephones for use by employees with hearing disabilities, and that the employers "designate" such telephones for emergency use. The "designation" might be a sign or a written notice to employees, or some other means of designation. The type of designation is left up to the employer. (No. of respondents: 805,000; hours per response 1.2; total annual burden:

966,000). c. Section 68.224 Equipment packaging. Section 68.224(a) requires a notice to be contained on the surface of the packaging of a non-hearing aid compatible telephone that the telephone contained therein is not hearing aid compatible, as defined in Sections 68.4(a)(3) and 68.316, or if offered for sale without a surrounding package, shall be fixed with a written statement that the telephone is not hearing aid-compatible, as defined by sections 68.4(a)(3) and 68.316. Section 68.224(b) also requires that the telephone equipment be accompanied by instructions in accordance with § 68.218(b)(5) of the rules. (No. of respondents: 1100; hours per respondent: 11.36; total annual burden: 12,500 hours). The collections are third party disclosure requirements. They are useful primarily to consumers who purchase and or use telephone equipment to determine whether the telephone is hearing aid compatible. Obligation to respond: Mandatory.

OMB Control No.: 3060-0859.

Expiration Date: 8/31/99.

Title: Suggested Guidelines for Petitions for Ruling Under Section 253 of the Communications Act.

Form No.: N/A.

Respondents: Business or other for-profit.

Estimated Annual Burden: 80 respondents; 78.5 hours per response (avg.); 6280 total annual burden hours for all collections.

Estimated Annual Reporting and Recordkeeping Cost Burden: \$0.

Frequency of Response: On occasion.

Description: Section 253 of the Communications Act of 1934, as amended requires the Commission, with certain important exceptions, to preempt the enforcement of any state or local statute or regulation, or other state or local legal requirement (to the extent necessary) that prohibits or has the effect prohibiting the ability of any entity to provide any interstate or intrastate telecommunications service. The Commission's consideration of preemption begins with the filing of a petition by an aggrieved party. The petition is placed on public notice and commented on by others. The Commission issued a Public Notice that establishes guidelines relating to its consideration of preemption petitions. The Commission expects petitioners and commenters to provide it with relevant information sufficient to describe the legal regime involved in the controversy and to establish the factual basis necessary for decision. Factual assertions should be supported by credible evidence, including affidavits,

and, where appropriate, studies or other descriptions of the economic effects flowing from the legal requirement that is the subject of the petition. The Commission identifies specific issues that petitioners are expected to include when addressing whether a legal requirement materially inhibits or limits the ability of any competitor or potential competitor to compete in a fair and balanced legal and regulatory environment in a particular market. The Commission will use the information to discharge its statutory mandate relating to the preemption of state or local statutes or other state or local legal requirements. Obligation to comply: Voluntary. Public reporting burden for the collections of information is as noted above. Send comments regarding the burden estimate or any other aspect of the collections of information, including suggestions for reducing the burden to Performance Evaluation and Records Management, Washington, D.C. 20554.

Federal Communications Commission.

Secretary.
