Federal Energy Regulatory Commission

[Docket Nos. CP99-541-000, CP99-542-000, and CP99-543-000]

Cotton Valley Compression, L.L.C.; Application

June 8, 1999.

Take notice that on June 1, 1999, Cotton Valley Compression, L.L.C. (CVC), 301 S.E. Adams Boulevard, Bartlesville, Oklahoma 74003 filed in Docket No. CP99-541-000, an application pursuant to Section 7(c) of the Natural Gas Act. CVC states its application is being filed at the direction of the Commission,¹ where the Commission found that CVC was engaged in interstate transportation of natural gas and directed CVC to file "an application for certificate authorization, under Section 7(c) of the NGA, and Part 157 of the Commission's regulations, to continue utilizing the facilities for the transportation of gas in interstate commerce, or to abandon those facilities."

In Docket No. CP99-542-000, CVC seeks a blanket certificate pursuant to Subpart G of Part 284 of the Commission's Regulations in order to provide open access transportation of natural gas for others. Finally, in Docket No. CP99-543-000, CVC requests a blanket certificate pursuant to Subpart F of Part 157 of the Commission's Regulations in order to perform certain routine activities and operations.

These requests are more fully set forth in the June 1st application which is on file with the Commission and open to public inspection. This filing may be viewed on the web at <http://www.ferc.fed.us/online/rims.htm> (call 202-208-2222 for assistance).

CVC states that the facilities to be certificated, all of which already exist in Washington County, Oklahoma, consist of approximately 700 feet of dual 4" diameter natural gas pipe, running between two different interstate pipelines (low pressure Hogshooter and high pressure Quapaw pipelines) of Williams Gas Pipelines Central, Inc. (Williams), 1,200 horsepower of leased compression at the downstream delivery point into Williams, and appurtenant facilities.

CVC requests authority to provide firm and interruptible transportation services on a non-discriminatory, open-access basis, consistent with the Commission's Part 284 policy. CVC's FT

Rate Schedule will consist of a monthly reservation charge of \$1.99 per Dth; its IT Rate Schedule rate is 6.5 cents per Dth; and the fuel retention is at 2%.

CVC states that based on upstream gas production increases projected by the five CVC producer-owners, CVC also requests that the Commission certificate, on a blanket basis, the net increase of 1,800 horsepower of compression, to add 18,000 Dth/d of delivery capacity into Williams' Quapaw pipeline, under specified conditions.

CVC has included a pro forma FERC Gas Tariff, proposing to rely in large part on the Williams' FERC Gas Tariff, with changes only to reflect CVC's circumstances. Within six months of certification, CVC proposes to operate a website on the Internet, which will contain three basis elements: (1) Printed text of the basic elements of a tariff specified in Part 154, Subpart B; (2) electronic "link" directly to FERC's FASTR website for Williams' General Terms and Conditions, which are incorporated by CVC; and (3) e-mail link directly to CVC for purposes of asking questions or relaying operational instructions.

CVC seeks waivers of various reporting and regulatory requirements, due to its small size and unique circumstances.

Any person desiring to be heard or to make any protest with reference to said application should on or before June 29, 1999, file with the Federal Energy Regulatory Commission, 888 First Street, NE, Washington, D.C. 20426, a motion to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 385.214 and 385.211) and the Regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. The Commission's rules require that protestors provide copies of their protests to the party or parties directly involved. Any person wishing to become a party in any proceeding herein must file a motion to intervene in accordance with the Commission's rules.

A person obtaining intervenor status will be placed on the service list maintained by the Secretary of the Commission and will receive copies of all documents filed by the applicant and by every one of the intervenors. An intervenor can file for rehearing of any Commission order and can petition for court review of any such order. However, an intervenor must submit copies of comments or any other filing
