

criminal activity in the maritime context, along with a general description of the typical roles played in this connection by State and local agencies and the private sector; conduct an assessment of the nature and effectiveness of coordination among Federal, State and local government agencies, including intelligence efforts; and provide recommendations for improving the response of Federal, State and local governments to the problem of serious crime, including resource requirements and mandatory crime reporting.

## 2. *Terrorism, Threats, and Environmental Crime*

The Commission will: Assess the threat of terrorism in the maritime context, both from domestic and foreign sources; identify major vulnerabilities to terrorist activity at U.S. seaports, in the transportation of cargo to and from ports, and at foreign ports where cargo is loaded aboard ships bound for the U.S.; and recommend improvements in overall seaport security intended to make ports less susceptible to terrorist acts.

Also, the Commission will focus on potential threats of environmental terrorism and negligence in and around the nation's seaports, including the risk of marine accidents and pollution occasioned by, among other things, hazardous commodities such as petroleum; assess environmental consequences and vulnerabilities in this area; and make recommendations for improvements in environmental protection and safety at seaports and on coastal and inland waterways.

## 3. *Security and Prevention*

The Commission will evaluate the overall state of security existing at U.S. seaports, including measures for controlling access to ports, safeguarding passengers and cargo, and ensuring the security of possible military mobilization operations (at selected seaports); the Commission will develop recommendations, including identifying new techniques, on enhancing seaport security standards, and on whether such standards should be mandatory or voluntary.

## 4. *Cargo Control*

The Commission will analyze the effectiveness and integrity of cargo control mechanisms at U.S. seaports that deal, for example, with false manifesting and the diversion of cargo (inbound, outbound, and in-bond); and make recommendations on how cargo control procedures may be improved.

## 5. *Technology*

The Commission will seek to identify and recommend state-of-the-art technology for use in combating crime and bolstering security at seaports.

## 6. *Legislation/Regulation/Funding*

The Commission will identify, and develop recommendations for appropriate changes in, Federal laws and regulations pertaining to seaport crime, terrorism and security. Furthermore, the Commission will seek to identify potential sources of funding, as necessary to implement its recommendations in all areas.

## Input From Private Sector Requested

The issues involving U.S. seaport security affect many different private sector interests in a variety of ways. Accordingly, the Commission hereby invites, and will take full account of, the views and expertise of interested members of the private sector in addressing the issues of serious crime and overall security in U.S. seaports. All comments in this matter are welcome. In concert with the subject areas generally outlined above, the Commission believes input as to the following would be most helpful:

- (1) Describing particular problems that need to be solved concerning crime, terrorism and security in seaports;
- (2) Proposals for new laws or regulations, programs or other courses of action to combat crime and terrorism and increase security in seaports;
- (3) Suggested methods for ensuring better reporting and more accurate collection of data on crime in relation to the maritime context; and
- (4) Possible ways to improve coordination and cooperation among Federal, State and local government agencies, in combating criminal activity and fostering greater security in seaports.

The Commission believes that the experience and knowledge that members of the private sector can bring to this undertaking will enable the Commission to conduct its evaluation of seaport crime and security in a more effective and reliable manner, and help ensure that the Commission's report contains recommendations that are realistic and that can be effectively implemented.

 Administrative Reviews**

 Department of Commerce.

**EFFECTIVE DATE:** June 16, 1999.

**FOR FURTHER INFORMATION CONTACT:** John Brinkmann, Import Administration, International Trade Administration, U.S. Department of Commerce, 14th Street and Constitution Avenue, N.W., Washington, DC 20230; telephone (202) 482-5288.

**SUPPLEMENTARY INFORMATION:**

**Postponement of Preliminary Results**

On August 27, 1998, the Department of Commerce ("the Department") initiated the second administrative reviews of the antidumping duty orders on certain pasta from Italy and Turkey, covering the period July 1, 1997 through June 30, 1998 (63 FR 45796). Section 751(a)(3)(A) of the Tariff Act of 1930, as amended by the Uruguay Round Agreements Act ("the Act"), requires the Department to make a preliminary determination in an administrative review within 245 days after the last day of the anniversary month of an order for which a review is requested. However, if it is not practicable to complete the reviews within the time period, section 751(a)(3)(A) of the Act allows the Department to extend this time period to up to 365 days. Accordingly, on March 12, 1999, the Department extended the time limit for completion of the preliminary results of the administrative review by 90 days (64 FR 12287). We have now concluded, however, that the full 120-day extension is necessary. Accordingly, the Department is extending the time limit for completion of the preliminary results of these administrative reviews by the full 120 days, or until August 2, 1999. We plan to issue the final results of these administrative reviews within 120 days after publication of the preliminary results.

These extensions are in accordance with section 751(a)(3)(A) of the Act.

Dated: June 4, 1999.
