

Section 6(c)(3)(B) of the Act⁸ provides, among other things, that a national securities exchange may examine and verify the qualifications of applicants who desire to become associated with a member and may require any person associated with a member to be registered with the exchange in accordance with established procedures. This section also provides that the exchange may bar a person from becoming a member if such person does not meet standards of training, experience, and competence as are prescribed by the rules of the exchange.

The Commission finds that the Series 25 Examination satisfies Section 6(c)(3)(B) because it provides the Exchange with a means to measure a Trading Assistant's ability and qualifications. The Exchange has the responsibility to ensure that its members and persons associated with members meet standards of training, experience, and competence. By requiring all current and potential Trading Assistants to pass the Series 25 Examination, the Exchange ensure that the Trading Assistants admitted to the Exchange's trading floor are duly trained and qualified to competently perform their duties and functions.

Moreover, the Commission finds that the proposal is consistent with the requirements of Section 6(b)(5) of the Act,⁹ which provides, among other things, that the rules of the Exchange be designed, in general, to protect investors and the public interest. The proposed rule change ensures that the Trading Assistants admitted to the Exchange trading floor are qualified to effectively perform in their positions. By ensuring the qualifications and abilities of trading assistants, the Commission believes that the integrity of the Exchange is maintained, which should protect investors and the public interest.

IV. Conclusion

It is therefore ordered, pursuant to Section 19(b)(2) of the Act,¹⁰ that the proposed rule change (SR-NYSE-98-36) is approved.

For the Commission, by the Division of Market Regulation, pursuant to delegated authority.¹¹

Margaret H. McFarland,
Deputy Secretary.
