### National Institutes of Health

#### Electric and Magnetic Fields Research and Public Information Dissemination Program (EMFRAPID Program)

**AGENCY:** Environmental Toxicology Program, Office of Special Programs, National Institute of Environmental Health Sciences, National Institutes of Health.

**Notice:** Release of NIEHS Report on Electric and Magnetic Fields.

#### Background

The National Institute of Environmental Health Sciences (NIEHS) and the Department of Energy (DOE) coordinated implementation of the

Electric and Magnetic Fields Research and Public Information Dissemination Program (EMFRAPID Program). This six-year program was mandated in the 1992 Energy Policy Act (PL 102-486, section 2118) and is designed to determine the potential effects on human disease from exposure to 60 Hz electric and magnetic fields (EMF). These fields are invisible lines of force that surround any wire or device that uses electricity. Additional details about the EMFRAPID Program are found in **Federal Register**, December 16, 1997 (Volume 62, No. 241, pp. 65814-65815).

Under this program, the NIEHS conducted a two-year review and analysis of the existing scientific data on EMF and prepared a report for the U.S. Congress that contains its conclusions from the health assessment. This assessment included an evaluation of the evidence by scientists both within and outside the field of EMF research as well as an opportunity for public comment through sponsorship of public meetings and solicitation written comments. The NIEHS report was released on June 15, 1999 and is available free-of-charge to the public and other interested parties.

The report is available in both PDF and HTML formats at the EMFRAPID Program world wide website, [www.niehs.nih.gov/emfrapid/home.htm](http://www.niehs.nih.gov/emfrapid/home.htm). Copies of the report can also be obtained by sending a request by fax: 919-541-0144 or mail: EMF-RAPID Program, NIEHS/NIH, P.O. Box 12233 MD EC-16, Research Triangle Park, NC 27709; or by calling 919-541-7534.

**AGENCY:** Office of the Assistant Secretary for Community Planning and Development, HUD.

**ACTION:** Notice.

**SUMMARY:** This Notice identifies unutilized, underutilized, excess, and surplus Federal property reviewed by HUD for suitability for possible use to assist the homeless.

#### SUPPLEMENTARY INFORMATION:

In accordance with 24 CFR part 581 and section 501 of the Stewart B. McKinney Homeless Assistance Act (42 U.S.C. 11411), as amended, HUD is publishing this Notice to identify Federal buildings and other real property that HUD has reviewed for suitability for use to assist the homeless. The properties were reviewed using information provided to HUD by Federal landholding agencies regarding unutilized and underutilized buildings and real property controlled by such agencies or by GSA regarding its inventory of excess or surplus Federal property. This Notice is also published in order to comply with the December 12, 1998 Court Order in *National Coalition for the Homeless v. Veterans Administration*, No. 88-2503-OG (D.D.C.).

Properties reviewed are listed in this Notice according to the following categories: Suitable/available, suitable/

unavailable, suitable/to be excess, and unsuitable. The properties listed in the three suitable categories have been reviewed by the landholding agencies, and each agency has transmitted to HUD: (1) Its intention to make the property available for use to assist the homeless, (2) its intention to declare the property excess to the agency's needs, or (3) a statement of the reasons that the property cannot be declared excess or made available for use as facilities to assist the homeless.

Properties listed as suitable/available will be available exclusively for homeless use for a period of 60 days from the date of this Notice. Homeless assistance providers interested in any such property should send a written expression of interest to HHS, addressed to Brian Rooney, Division of Property Management, Program Support Center, HHS, room 5B-41, 5600 Fishers Lane, Rockville, MD 20857; (301) 443-2265. (This is not a toll-free number.) HHS will mail to the interested provider an application packet, which will include instructions for completing the application. In order to maximize the opportunity to utilize a suitable property, providers should submit their written expressions of interest as soon as possible. For complete details concerning the processing of applications, the reader is encouraged to refer to the interim rule governing this program, 24 CFR part 581.

For properties listed as suitable/to be excess, that property may, if subsequently accepted as excess by GSA, be made available for use by the homeless in accordance with applicable law, subject to screening for other Federal use. At the appropriate time, HUD will publish the property in a Notice showing it as either suitable/available or suitable/unavailable.

For properties listed as suitable/unavailable, the landholding agency has decided that the property cannot be declared excess or made available for use to assist the homeless, and the property will not be available.

Properties listed as unsuitable will not be made available for any other purpose for 20 days from the date of this notice. Homeless assistance providers interested in a review by HUD of the determination of unsuitability should call the toll free information line at 1-800-927-7588 for detailed instructions or write a letter to Mark Johnston at the address listed at the beginning of this Notice. Included in the request for review should be the property address (including zip code), the date of publication in the **Federal Register**, the landholding agency, and the property number.
