

licensee or vendor analysis methods. Therefore, it is anticipated that this topic will be addressed at a future date.

Comment: APS considers an appropriate set of benchmark data to include other acknowledged industry standard data or criteria.

Response: The examples of appropriate benchmark data has been expanded to include APS' suggestions.

Comment: APS suggests that Section 2.5 be revised to allow a provision for evaluating vendor updates and implementing those updates, if applicable.

Response: The proposed rewording has been incorporated into Section 2.5.

Centerior Energy

Comment: The guidance should be explicit enough to allow for utilities to reference topical reports submitted by non-NSSS vendors.

Response: Utilities have been added to the example of organizations that develop methods.

Comment: The proposed guidance should be sufficiently flexible to allow substitution of computer codes within an approved analytical methodology.

Response: The Application Procedures have been modified to allow this, but should contain proper controls

to preclude misapplications or inappropriate use of an application.

Comment: NRC should maintain a listing of the codes or methods it has approved.

Response: The NRC is currently developing a data base of approved codes as a separate action.

Comment: NRC should define the point at which reapproval of updates is necessary.

Response: What constitutes a significant code or methodology update that must be reviewed by the NRC is too complex a topic to fully address in generic terms at this time. However, as mentioned in the **Federal Register** notice (60 FR 54712; October 25, 1995), the NRC is also investigating modified procedures for reducing the resource effort for acceptance of new or revised licensee or vendor analysis methods. Therefore, it is anticipated that this topic will be addressed at a future date.

For the Nuclear Regulatory Commission.

Dated at Rockville, Maryland, this 24th day of June, 1999.

James E. Lyons,

Deputy Chief, Events Assessment, Generic Communications and Non-Power Reactors Branch, Division of Regulatory Improvement Programs.

NUCLEAR REGULATORY COMMISSION

Governors' Designees Receiving Advance Notification of Transportation of Nuclear Waste

On January 6, 1982 (47 FR 596 and 47 FR 600), the Nuclear Regulatory Commission (NRC) published in the **Federal Register** final amendments to 10 CFR Parts 71 and 73 (effective July 6, 1982), that require advance notification to Governors or their designees by NRC licensees prior to transportation of certain shipments of nuclear waste and spent fuel. The advance notification covered in Part 73 is for spent nuclear reactor fuel shipments and the notification for Part 71 is for large quantity shipments of radioactive waste (and of spent nuclear reactor fuel not covered under the final amendment to 10 CFR Part 73).

The following list updates the names, addresses and telephone numbers of those individuals in each State who are responsible for receiving information on nuclear waste shipments. The list will be published annually in the **Federal Register** on or about June 30, to reflect any changes in information.

NUCLEAR REGULATORY COMMISSION

Biweekly Notice; Applications and Amendments to Facility Operating Licenses Involving No Significant Hazards Considerations

I. Background

Pursuant to Pub. L. 97-415, the U.S. Nuclear Regulatory Commission (the Commission or NRC staff) is publishing this regular biweekly notice. Public Law 97-415 revised section 189 of the Atomic Energy Act of 1954, as amended (the Act), to require the Commission to publish notice of any amendments

issued, or proposed to be issued, under a new provision of section 189 of the Act. This provision grants the Commission the authority to issue and make immediately effective any amendment to an operating license upon a determination by the Commission that such amendment involves no significant hazards consideration, notwithstanding the pendency before the Commission of a request for a hearing from any person.

This biweekly notice includes all notices of amendments issued, or proposed to be issued from June 5, 1999, through June 18, 1999. The last
