SUPPLEMENTARY INFORMATION:

I. Abstract

This document requests comments on a number of collections-of information requirements for the Individual Fishing Quota (IFQ) Program for fixed gear Pacific halibut and sablefish fisheries off Alaska. The requirements described below have been in place without having obtained the necessary OMB approval, which will now be requested.

Request for Quota Share Application - Prior to the end of the application period to apply for IFQ Quota Shares(QS), the Application for QS was used to assess eligibility to receive QS. That application period ended on July 15, 1994. Applications for QS submitted after that date are categorically denied. An applicant denied for untimely submission of an application for QS may, however, file an appeal of that administrative decision. Hence, at this point in time, RAM facilitates such appeals by substituting the Request for Application for QS in place of the more extensive Application for QS itself. RAM determined that for purposes of categorically denying claims for QS the lengthy QS application is no longer necessary. The categorical denial then allows the applicant to enter the appeals process.

Vessel Clearance and Departure Reports - A vessel operator who intends to make an IFQ landing at a location other than in an IFQ regulatory area or in the State of Alaska must obtain pre-landing written clearance of the vessel from a clearing officer. If the pre-landing vessel clearance is to be obtained in Washington or another non-Alaska state, a departure report must be provided to NMFS Enforcement prior to departing the waters of the EEZ adjacent to the jurisdictional waters of the State of Alaska, the territorial sea of the State of Alaska, or the internal waters of the State of Alaska. Although these reports are currently cleared under OMB Control Number 0648-0272, some of the data elements in the reports were not
