Notice of Inventory Completion for Native American Human Remains and Associated Funerary Objects in the Possession of the Oregon State Museum of Anthropology, University of Oregon, Eugene, OR

AGENCY: National Park Service

ACTION: Notice

Notice is hereby given in accordance with provisions of the Native American Graves Protection and Repatriation Act (NAGPRA), 43 CFR 10.9, of the completion of an inventory of human remains and associated funerary objects in the possession of the Oregon State Museum of Anthropology, University of Oregon, Eugene, OR.

A detailed assessment of the human remains was made by Oregon State Museum of Anthropology (OSMA) professional staff in consultation with representatives of the Shoalwater Bay Tribe of the Shoalwater Bay Indian Reservation, the Confederated Tribes of Grand Ronde, the Confederated Tribes of Siletz Indians, Confederated Tribes of Coos, Lower Umpqua, and Siuslaw Indians of Oregon, the Coquille Tribe of Oregon, the Klamath Indian Tribe of Oregon, and the Quartz Valley Indian Community of the Quartz Valley Reservation.

In 1935, human remains representing two individuals were recovered from Ecola Park near Indian Beach, Clatsop County, OR by a trail building crew and donated to OSMA by a donor whose name is withheld by OSMA. No known individuals were identified. No associated funerary objects are present.

Based on archeological context and skeletal morphology, these individuals have been determined to be Native American. Historic documents, ethnographic sources, and oral history indicate that Nehalem and Clatsop peoples have occupied the northern Oregon coast area since precontact times.
