**Affected entities:** Entities potentially affected by this action are States which administer elements of the construction grants program under a delegation agreement with EPA and municipalities which received construction grants from EPA.

**Title:** Construction Grants Delegation to States; OMB No. 2040 0095; EPA ICR No. 0909.06 expiring 12/31/99.

**Abstract:** The purpose of this ICR is to revise and extend the current clearance for the collection of information under the Construction Grants Program Delegation to States, 40 CFR part 35 Subpart J, and Title II of the Clean Water Act (CWA). While the Construction Grants Program is being phased out and replaced by the State Revolving Loan Fund (SRF) program, collection activities for the Construction Grants Program must continue until program completion. The program includes reporting, monitoring and program requirements for municipalities and delegated States.

The information collection activities described in this ICR are authorized

under section 205(g) of the Clean Water Act as amended, 33 U.S.C. 1251 *et seq.*, and under 40 CFR part 35 Subpart J. The requested information provides the minimum data necessary for the Federal government to maintain appropriate fiscal accountability for use of section 205(g) construction grant funds. The information is also needed to assure an adequate management overview of those State project review activities that are most important to fiscal and project integrity, design performance, Federal budget control, and attainment of national goals.

Managers at the State and Federal levels both rely on the information described in this ICR. State managers rely on the information for their own program and project administration. Federal managers rely on this information to assess, control, and predict the impacts of the construction grants program on the Federal Treasury and future budget requirements. Federal managers also use this information to respond to OMB and Congressional requests and to maintain fiscal accountability.

In addition, builders of wastewater treatment plants use the information discussed in this ICR. The builders of these plants assess and use the information in the Innovative/Alternative Technology Data Base File to obtain technical information on innovative or alternative wastewater treatment systems.

An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. The OMB control numbers for EPA's regulations are listed in 40 CFR part 9 and 48 CFR part 15.

The EPA would like to solicit comments to:

(i) Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;

(ii) evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;

(iii) enhance the quality, utility, and clarity of the information to be collected; and

(iv) minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses.

**Burden Statement:** Respondents: States and municipalities.

**Estimated Number of Respondents:** 31.

**Frequency of Response:** 91 per year.  
**Responses Per Respondent:** 3.0 per year.

**Estimated Total Annual Hour Burden:** 5,678 hours.

**Average Burden Hours Per Response:** 62.4.

**Estimated Total Annualized Cost Burden:** \$213,152.

Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

Dated: June 23, 1999.
