National Oceanic and Atmospheric Administration

Federal Consistency Appeal by Jessie W. Taylor From an Objection by South Carolina

AGENCY: National Oceanic and
Atmospheric Administration,
Commerce.

ACTION: Notice of decision.

On December 28, 1998, the Secretary of Commerce (Secretary) issued a decision in the consistency appeal of Mr. Jessie W. Taylor (Appellant). The Appellant had applied to the U.S. Army Corps of Engineers (Corps) for a permit to fill wetlands to construct a commercial business on the property. In conjunction with the Federal permit application, the Appellant submitted to the Corps a certification that the proposed activity is consistent with the State's federally approved Coastal Management Program (CMP). The State of South Carolina's coastal management agency reviewed the certification pursuant to section 307(c)(3)(A) of the Coastal Zone Management Act of 1972, as amended (CZMA) 16 U.S.C. 1456(c)(3)(A).

On March 11, 1996, the State objected to the Appellant's consistency certification for the proposed project on the ground that the proposed project is not consistent with the enforceable policies contained in the State's coastal management program. Under CZMA section 307(c)(3)(A) and 15 CFR 930.131, the State's consistency objection precludes the Corps from issuing a permit for the activity unless the Secretary finds that the activity is either consistent with the objectives or purposes of the CZMA (Ground I) or necessary in the interest of national security (Ground II). The Appellant based his appeal on Ground I.

Upon consideration of the information submitted by the Appellant, the State and interested Federal agencies, the Secretary made the following findings pursuant to 15 CFR 930.121: First, the proposed project

further one or more of the competing national objectives or purposes of the CZMA by minimally contributing to the national interest in economic development of the coastal zone. Second, the proposed project, including the Appellant's mitigation measure, will have minimal individual and cumulative adverse effects on coastal wetlands. These minimal adverse coastal effects based on this record are not substantial enough to outweigh the activity's minimal contribution to the national interest in economic development of the coastal zone. Third, the proposed activity will not violate the requirements of the Clean Water Act or the Clean Air Act. Fourth, there is no reasonable alternative available to the Appellant that would permit the activity to be conducted in a manner consistent with the State's coastal management program. Accordingly, the proposed project is consistent with the objectives or purposes of the CZMA. Because the Appellant's proposed project satisfied all of the requirements of Ground I, the Secretary overrode the State's objection to the Appellant's consistency certification. Consequently, the proposed project may be permitted by Federal agencies. Copies of the decision may be obtained from the contact person listed below.

Karl Gleaves, Assistant General Counsel for Ocean Services, National Oceanic and Atmospheric Administration (NOAA), U.S. Department of Commerce, 1305 East-West Highway, Room 6111, Silver Spring, MD 20910, (301) 713-2967.

Dated: January 12, 1999.

Monica Medina,
General Counsel.
