DEPARTMENT OF ENERGY

Southwestern Power Administration

Proposed Robert D. Willis Power Rate Change

AGENCY: Southwestern Power Administration, DOE.

ACTION: Notice of public review and comment period.

SUMMARY: The Administrator, Southwestern, has prepared current and revised 1999 Power Repayment Studies for the Robert D. Willis (Willis) project which show the need for an increase in annual revenues required to meet cost recovery criteria. The increase in the revenues required is the result of an increase in the amount of large maintenance items within the Operations and Maintenance costs

estimated by Corps of Engineers. The Administrator has also developed a proposed rate schedule for the isolated Willis project to recover the required revenues. The proposed rate for the Willis project would increase annual revenues approximately 11.5 percent from \$302,928 to \$337,932 beginning October 1, 1999.

DATES: Southwestern is conducting this 30 day public notice and comment period as prescribed by 10 CFR 903.14(d). The consultation and comment period will begin on the date of publication of this **Federal Register** and will end August 11, 1999. The Public Information Forum will be held (if requested) on July 20, 1999, 1:00 p.m., Central Daylight Time in Southwestern's offices, Williams Center Tower I, One West Third Street, Tulsa, Oklahoma 74103.

ADDRESSES: Ten copies of any written comments should be submitted to: Mr. Forrest E. Reeves, Assistant Administrator, Office of Corporate Operations, Southwestern Power Administration, U.S. Department of Energy, P.O. Box 1619, Tulsa, Oklahoma 74101.

FOR FURTHER INFORMATION CONTACT: Mr. Forrest E. Reeves, Assistant Administrator, (918) 595-6696, reeves@swpa.gov.

SUPPLEMENTARY INFORMATION: The U.S. Department of Energy was created by an Act of the U.S. Congress, through the Department of Energy Organization Act, P.L. 95-91, dated August 4, 1977, and Southwestern Power Administration's power marketing activities were transferred from the Department of the Interior to the Department of Energy, effective October 1, 1977.

Southwestern markets power from 24 multiple-purpose reservoir projects with power facilities constructed and operated by the U.S. Army Corps of Engineers. These projects are located in the States of Arkansas, Missouri, Oklahoma and Texas. Southwestern's marketing area includes these states plus Kansas and Louisiana. Of the total, 22 projects comprise an Integrated System and are interconnected through Southwestern's transmission system and exchange agreements with other utilities. The Sam Rayburn Dam project, located in eastern Texas, is not interconnected with Southwestern's Integrated System hydraulically, electrically, or financially. Instead, the power produced by the Sam Rayburn Dam project is marketed by Southwestern as an isolated project under a contract through which the customer purchases the entire power output of the project at the dam. The
