[Docket No. RP99-376-000]

Venice Gathering System, L.L.C., Tariff Filing

July 7, 1999.

Take notice that on July 1, 1999, Venice Gathering System, L.L.C. (VGS), tendered for filing as part of its FERC Gas Tariff, Original Volume No. 1, the following tariff sheets:

Original Sheet No. 193

First Revised Sheet Nos. 48, 90, 104, 163, 178, 187, 192

Second Revised Sheet Nos. 49-42, 54, 56, 78, 83, 86, 196

VGS states that it is submitting these revised tariff sheets to incorporate these Industry Standards Board (GISB) standards adopted by Order No. 587-K in Docket No. RM96-1, et al. VGS proposes an August 1, 1999 effective date for these sheets.

Any person desiring to be heard or to protest said filing should file a motion to intervene or protest with the Federal Energy Regulatory Commission, 888 First Street, N.E., Washington, D.C. 20426 in accordance with Sections 385.214 or 385.211 of the Commission's Rules and Regulations. All such motions or protests must be filed in accordance with Section 154.210 of the Commission's Regulations. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a motion to intervene. Copies of this filing are on file with the Commission and are available for public inspection. This filing may be viewed on the web at <http://www.fere.fed.us/online/rims.htm> (call 202-2-208-2222 for assistance).

ENVIRONMENTAL PROTECTION AGENCY

[IL 192;FRL-6377-2]

Final Determination for Prevention of Significant Deterioration Air Quality Permit

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice of final action.

SUMMARY: The purpose of this document is to announce that on March 10, 1999, the EPA Environmental Appeals Board (EAB) issued a Remand Order finding that the West Suburban Recycling and

Energy Center, L.P. (WSREC), in the Village of Summit, Illinois, had failed to establish that the incinerator described in its prevention of significant deterioration (PSD) permit application is still viable, and concluded that no PSD permit to construct should be issued to WSREC under these circumstances. The EAB remanded the matter to the Illinois Environmental Protection Agency (Illinois EPA) to issue a final permit decision denying the federal PSD permit. On April 22, 1999, the Illinois EPA denied the WSREC application for a federal PSD permit.

DATES: Judicial review of the PSD permit denial is available pursuant to 307(b)(1) of the Clean Air Act and only by filing a petition for review in the United States Court of Appeals for the Seventh Circuit by September 13, 1999.

ADDRESSES: Documents relevant to the above action are available for public inspection during normal business hours at the following addresses:

Illinois Environmental Protection Agency, Bureau of Air, Permit Section, 1021 N. Grand Ave. East, Springfield, Illinois 62794
United States Environmental Protection Agency, Region 5, 77 West Jackson Blvd. (AR-18J), Chicago, IL 60604

FOR FURTHER INFORMATION CONTACT: Mr. Steve Marquardt, United States Environmental Protection Agency, Region 5, 77 West Jackson (AR-18J), Chicago, Illinois 60604. (312) 353-3214.

SUPPLEMENTARY INFORMATION: On November 4, 1998 the EAB issued an Order to Show Cause Why Appeal Should Not Be Dismissed As Moot ("Show Cause Order") in this case. The Show Cause Order directed the permittee/petitioner, WSREC, to "affirm that it is presently committed to construct the resource recovery facility" that is the subject of this appeal. Show Cause Order at 7. In particular, WSREC was to "demonstrate that it has the means to obtain control over the properties identified in its site plan for purposes of construction." *Id.* At 8. The purpose of the Show Cause Order was to give WSREC an opportunity to defend against the dismissal of this appeal on the ground that "WSREC does not intend, or is unable, to construct the facility identified in its permit application." *Id.*

In light of WSREC's failure to affirm that it intends to construct the facility described in its PSD permit application and the evidence of property transfers covering the proposed project site, the EAB concluded that there is no realistic prospect that construction will commence within the regulatory time frame specified in 40 CFR 52.21(r). Further, the EAB found that WSREC failed to show cause why this appeal should not be dismissed as moot. The appeal was dismissed by the EAB and the matter was remanded to the Illinois EPA for the purpose of issuing a final permit decision denying the permit. The EAB instructed that the Illinois EPA's final decision shall be considered final agency action for the purposes of judicial review.

RIN 2060-AG59

Consumer and Commercial Products: Wood Furniture, Aerospace, and Shipbuilding and Ship Repair Coatings: Control Techniques Guidelines in Lieu of Regulations

AGENCY: Environmental Protection Agency (EPA).

ACTION: Final determination.

SUMMARY: This final determination announces our final decision to list wood furniture manufacturing coatings, aerospace coatings, and shipbuilding and ship repair coatings for regulation in the first group of consumer and commercial product categories to be regulated under section 183(e) of the Clean Air Act (Act). We determined that emissions of volatile organic compounds (VOC) from these coatings have the potential to cause or contribute to ozone levels that violate the national ambient air quality standards (NAAQS) for ozone. Ozone is a major component of smog which causes negative health and environmental impacts when present in high concentrations at ground level.

This final determination also announces our determination under section 183(e) of the Act that control techniques guidelines (CTG) are substantially as effective as national regulations in reducing VOC emissions from wood furniture manufacturing coatings, aerospace coatings, and shipbuilding and ship repair coatings which contribute to violations of the NAAQS for ozone. With this final determination, we may issue CTG in lieu of national regulations for each of these specific categories.

We based our final determination on comparison of the effectiveness of VOC control in the wood furniture manufacturing CTG (61 FR 25223, May 20, 1996), the aerospace CTG (63 FR 15006, March 22, 1998), and the shipbuilding and ship repair CTG (61 FR 44050, August 27, 1996) with the estimated effectiveness of control possible from national regulations for these product categories.

EFFECTIVE DATE: July 13, 1999.

ADDRESSES: *Docket.* Docket No. A-96-23 contains supporting information for this final determination. You can inspect this docket and copy material between 8:30 a.m. and 5:30 p.m., Monday through Friday. The docket is located at our Air and Radiation Docket and Information Center, Waterside Mall, Room M1500, 1st Floor, 401 M Street, SW, Washington, DC 20460. SUPPLEMENTARY INFORMATION:

Whom does this action affect? Entities potentially affected by this action are those wood furniture manufacturing operations, aerospace manufacturing and rework operations, or shipbuilding and ship repair (surface coating) operations which are (or have the potential to become) "major" sources of VOC emissions and are located in certain ozone nonattainment areas. Potentially affected entities are included in the following table:

Category	Examples of potentially affected entities
Industry	Wood furniture or wood furniture component(s) manufacturing. (SIC Codes 2434, 2511, 2512, 2517, 2519, 2521, 2531, 2541, 2599, 5712). Any manufacturing, reworking, or repairing of aircraft such as airplanes, helicopters, missiles, rockets, and space vehicles. (SIC Codes 3720, 3721, 3724, 3728, 3760, 3761, 3764, 3765, and 4581).
