Title: Section 43.61—Reports of Overseas Telecommunications Traffic.

Form Number: N/A.

Total Annual Burden: 21,070 hours.

The collection of Section 43.61 overseas telecommunications traffic data is necessary for the Commission to fulfill its regulatory responsibilities under the Communications Act of 1934, as amended, 47 U.S.C. Sections 151-614 (1996). The collected data are essential to both the Commission and carriers for international facilities planning, facility authorization, monitoring emerging developments in communications services, analyzing market structures, tracking the balance of payments in international communications services, and market analysis purposes. Subject carriers are required to submit their annual reports no later than July 31 of each year for the preceding period of January through December. A revised report must be submitted for inaccuracies exceeding five percent of the reported figure by October 31, pursuant to Section 43.61(a)(2).

OMB Control Number: 3060-0817.

Title: Computer III Further Remand Proceedings: BOC Provision of Enhanced Services (ONA Requirements), CC Docket No. 95-20.

Form Number: N/A.

Type of Review: Extension.

Respondents: Business or other for-profit entities.

Number of Respondents: 500 respondents.

Estimated Time Per Response: 72.5 hours per response (avg.).

Total Annual Burden: 36,250 hours.

Estimated Annual Reporting and Recordkeeping Cost Burden: \$0.

Frequency of Response: On occasion; third party disclosures.

Needs and Uses: In the Report and Order issued in CC Docket No. 95–20, released March 10, 1998, the Commission eliminates outdated, unnecessary regulations, while continuing to protect against potential anticompetitive behavior by the Bell Operating Companies (BOCs) in the provision of information services. The Commission established several collections of information: (1) The Commission no longer requires BOCs to file their Comparably Efficient Interconnection (CEI) plans with the Commission and to obtain pre-approval of CEI plans and amendments before initiating or altering an intraLATA information service. Instead, we require BOCs to post their CEI plans and plan amendments on their publicly accessible Internet sites linked to and searchable from the BOC's main Internet page, and to notify the Common Carrier Bureau at the time of the posting. The substance of the notification may be limited to the Internet address and path to the relevant CEI plan or amended plan; the form may consist of a letter to the Secretary with a copy to the Bureau. The requirement extends to CEI plans for new or modified telemessaging or alarm monitoring services, and for new or amended payphone services. In addition, if the BOC receives a good faith request for a plan from someone who does not have Internet access, the BOC must notify that person where a paper copy of the plan is available for public inspection. (2) The Commission removes the Computer II network disclosure rules for BOCs providing information through a Compute II separate subsidiary, the Computer II carrier rule, and the Computer III network disclosure rules. The Commission extends the disclosure requirements in Section 51.325(a) of its rules to require incumbent LECs to provide public notice of any network changes that will affect the manner in which CPE is attached to the network. The collections relating to CEI plans will be used to ensure that BOCs comply with Commission policies and regulations safeguarding against potential anticompetitive behavior by the BOCs in the provision of information services. The disclosure of CPE is necessary to encourage competition in the telecommunications services market by lifting operations barriers to entry.
