Draft Toxicological Review of Cadmium and Compounds and IRIS Summaries for Cadmium and Compounds

AGENCY: Environmental Protection Agency.

ACTION: Notice of peer-review panel workshop and public comment period.

SUMMARY: The U.S. Environmental Protection Agency (EPA) is announcing an external peer-review workshop to review the external review draft document entitled, Toxicological Review of Cadmium and Compounds (CAS No. 7440-43-9) (NCEA-99-0734), and the companion draft IRIS (Integrated Risk Information System) Summaries for Cadmium and Compounds. The peer-review workshop will be organized, convened, and conducted by the Syracuse Research Corporation, an EPA contractor for external scientific peer review.

The EPA is also announcing a thirty-day public comment period for these same documents. The documents were prepared by the EPA's National Center for Environmental Assessment—Research Triangle Park, NC, Office (NCEA-RTP) within the Office of Research and Development. NCEA-RTP will consider the peer-review advice and public comment submissions in revising all of the documents.

DATES: The peer-review panel workshop will begin on Tuesday, August 3, 1999, at 8:30 a.m. and end at 5:30 p.m. Members of the public may attend as observers, and there will be a limited time for comments from the public in the afternoon. The thirty-day public comment period begins July 27, 1999, and ends August 27, 1999.

ADDRESSES: The external peer-review panel workshop will be held in Classroom #3 at the EPA's Environmental Research Center, 86 T.W. Alexander Drive, Research Triangle Park, NC. The Syracuse Research Corporation, an EPA contractor, is organizing, convening, and conducting the peer-review workshop. To attend the workshop, register by July 29, 1999, by calling Tara Childs, Syracuse Research Corporation, 1215 Jefferson Davis Highway, Arlington, VA 22202 at 703-413-9364, or send a facsimile to 703-418-1044. Space is limited, and reservations will be accepted on a first-come, first-served basis. Please inform Syracuse Research Corporation if you wish to make comments during the designated time in the afternoon.

The draft Toxicological Review and draft IRIS Summaries are available on the Internet at <http://www.epa.gov/ncea/> under the "What's New" and "Publications" menus. The documents are identified as "Cadmium and Compounds External Review Draft" and consist of two groups of files, downloadable in .pdf format. The first group contains only the Toxicological Review, while the second group contains this document and the IRIS Summaries in five files. A limited number of paper copies are available by writing to the Technical Information Manager, U.S. Environmental Protection Agency, National Center for Environmental Assessment—RTP Office, MD-52, Research Triangle Park, NC 27711. The facsimile number is 919-541-1818. Or, you may send an e-mail to ray.diane@epa.gov. Regardless of the method you choose to request a paper copy, please provide your name, mailing address, and the document titles, Toxicological Review of Cadmium and Compounds and IRIS Summaries for Cadmium and Compounds.

Comments may be mailed to the Project Manager for Cadmium, U.S. Environmental Protection Agency, National Center for Environmental Assessment, MD-52, Research Triangle Park, NC 27711. Comments should be in writing and must be postmarked by August 27, 1999. Please submit one unbound original with pages numbered consecutively, and three copies of the comments. For attachments, provide an index, number pages consecutively with the comments, and submit an unbound original and three copies. Electronic comments may be sent by e-mail to fourman.gary@epa.gov.

Please note that all technical comments received in response to this notice will be placed in a public record. For that reason, commenters should not submit personal information (such as medical data or home addresses), Confidential Business Information, or information protected by copyright. Due to limited resources, acknowledgments will not be sent.

FOR FURTHER INFORMATION CONTACT: For workshop information, registration, and logistics, contact Tara Childs, Syracuse Research Corporation, 1215 Jefferson Davis Highway, Arlington, VA 22202; telephone: 703-413-9364; facsimile: 703-418-1044.

For further information on the public comment period, contact Gary L. Fourman, NCEA-RTP, telephone: 919-541-1183; facsimile: 919-541-1818; or send an e-mail to: fourman.gary@epa.gov.

SUPPLEMENTARY INFORMATION: The Toxicological Review for Cadmium and Compounds will provide the scientific basis for classifying the weight-of-evidence for the carcinogenicity of cadmium, deriving a potency cancer estimate for the inhalation route, and deriving the IRIS Summaries for the non-cancer health risk from exposure to cadmium including an oral reference dose (RfD) and an inhalation reference concentration (RfC).

Dated: July 21, 1999.

William H. Farland,

Director, National Center for Environmental Assessment.

Certain Chemicals; Completion of Comment Period for Reregistration Eligibility Decision Documents

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: This notice, pursuant to section 4(g)(2) of the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA), concludes the comment period for the Reregistration Eligibility Decision (RED) documents for several chemical cases.

FOR FURTHER INFORMATION CONTACT: Technical questions on the RED documents should be directed to the appropriate Chemical Review Managers listed in the table under "SUPPLEMENTARY INFORMATION."

SUPPLEMENTARY INFORMATION:

I. General Information

A. Does this Notice Apply to Me

This notice is directed to the public in general. As such, the Agency has not attempted to describe all the specific entities that may be affected by this action. If you have any questions regarding the information in this notice, consult the appropriate chemical review manager listed in the table in Unit II. of this document.

B. How Can I Get Additional Information, Including Copies of this Document and the REDs?

You may obtain copies of this document from the EPA Internet Home Page at <http://www.epa.gov/>. On the Home Page select "Laws and Regulations" and then look up the entry for this document under the "Federal Register - Environmental Documents." You can also go directly to the "Federal Register" listings at <http://www.epa.gov/fedrgstr/>.

Copies of these REDs are available from the National Technical Information Service (NTIS), 5285 Port Royal Road, Springfield, VA 22161, ATTN: Order Desk; telephone number 1-800-553-6847. To obtain copies you must

provide the publication number that has been assigned to the RED listed in the table in Unit II. of this document.

Electronic copies of the REDs and RED Fact sheets can be downloaded from the internet via EPA's website at: <http://www.epa.gov/oppsrrd1/REDs>.

II. Background

During fiscal years 1990-1998, EPA published Notices in the **Federal Register** announcing the availability of RED documents for the listed pesticide active ingredients. These REDs were issued as final documents, with a 60-day comment period. In these REDs, EPA provided its regulatory position on the current registered uses of these pesticides and set forth certain requirements for product reregistration eligibility. No comments were submitted for the following REDs: Acetic acid and salts, aliphatic alcohols, fosetyl-al, asulam, bis(trichloromethyl)sulfon, M-cresol, dacthal, difenzoquat, ethalfluralin, fosamine ammonium, HPMTS, methomyl, Na and Ca hypochlorites, terbuthylazine, thiodicarb, and triclopyr. Comments were submitted for the following RED documents but did not significantly affect EPA's regulatory position: Furanone, hexazinone, methylisothiazolinone, metribuzin, telone, propachlor, and terbacil.

The NTIS publication number for the REDs subject to this notice are presented below.
