New information provided by the State shows that some workers of Johnson & Johnson Medical, Inc. were leased from Kelly Services, Inc. to produce intravenous specialty catheters at the Menlo Park, California plant. Based on these findings, the Department is amending the certification to include leased workers from Kelly Services, Inc., Menlo Park, California.

The intent of the Department's certification is to include all workers of Johnson & Johnson Medical, Inc. adversely affected by imports.

The amended notice applicable to TA-W-34,749 is hereby issued as follows:

Martin Marietta Magnesia specialties Inc. Manistee, MI; Revised Determination on Reopening

By letter of June 18 the company official presented evidence not previously considered in the Department's determination. Accordingly, the Department reopened the petition investigation applicable to workers of the subject firm.

The initial investigation resulted in a negative determination issued on April 20, 1999, based on the finding that during the time period relevant to the petition investigation, customers of Martin Marietta Magnesia Specialties, Inc. did not increase reliance on imports of articles like or directly competitive

with refractory products produced at the Manistee, Michigan plant. Layoffs were attributable to the decline in demand for refractory products from the steel industry. The denial notice was published in the **Federal Register** on May 11, 1999 (64 FR 25371).

On reopening, further analysis was conducted regarding purchases of refractory products by the subject firm's major declining customers. New findings show that from 1997 to 1998 a major declining customer increased import purchases of refractory products while decreasing purchases from the Manistee, Michigan plant.

Sales, production and employment declined during the relevant period.

Conclusion

After careful review of the additional facts obtained on reopening, I conclude that increased imports of articles like or directly competitive with refractory products contributed importantly to the declines in sales or production and to the total or partial separation of workers of Martin Marietta Magnesia Specialties Inc., Michigan. In accordance with the provisions of the Act, I make the following certification:

All workers of Martin Marietta Magnesia Specialties Inc., Manistee, Michigan, who became totally or partially separated from employment on or after February 9, 1998, through two years from the date of this certification are eligible to apply for adjustment assistance under Section 223 of the Trade Act of 1974.

Dated: July 22, 1999.

Signed in Washington, D.C., this 20th day of July 1999.
