

tolerances were originally established. These feeding studies used exaggerated amounts of the compound (10x the dietary burden) and did not show measurable residues of the pesticides tested. Additionally, EPA has determined that fenthion no longer bears a use that could result in residues in poultry. Because there is no reasonable expectation of finite residues, these 80 tolerances are not

required under the FFDCA and can be revoked. The Agency considers these 80 tolerances as reassessed and are counted in this document toward meeting the tolerance reassessment requirements listed in FFDCA section 408(q). EPA will propose a rule to revoke these 80 reassessed MMPE tolerances in a subsequent **Federal Register** notice.

Additionally, because there are no registered uses, EPA has previously

revoked 25 of these OP tolerances: 4 coumaphos tolerances (64 FR 39072, July 21, 1999) (FRL-6093-6), 20 isofenphos tolerances and 1 sulprofos tolerance (63 FR 57067, October 26, 1998) (FRL-6035-6). These are also listed on the attached table as having no reasonable expectations of finite residues. These 25 tolerances have already been counted toward tolerance reassessment.

TSCA Chemical Testing; Receipt of Test Data

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: This notice announces EPA's receipt of test data on Phenol (CAS No. 108-95-2) and 1,6-Hexamethylene Diisocyanate (HDI) (CAS No. 822-06-0).

These data were submitted pursuant to enforceable testing consent agreements/orders issued by EPA under section 4 of the Toxic Substances Control Act (TSCA). Publication of this notice is in compliance with section 4(d) of TSCA.

FOR FURTHER INFORMATION CONTACT:

Christine Augustyniak, Associate Director, Environmental Assistance Division (7408), Office of Pollution Prevention and Toxics, Environmental Protection Agency, Rm. E-543B, 401 M St., SW., Washington, DC 20460, (202) 554-1404, TDD (202) 554-0551, e-mail: TSCA-Hotline@epa.gov.

SUPPLEMENTARY INFORMATION: Under 40 CFR 790.60, all TSCA section 4 enforceable consent agreements/orders must contain a statement that results of testing conducted pursuant to enforceable consent agreements/orders will be announced to the public in accordance with procedures specified in section 4(d) of TSCA.

I. General Information

A. Does this action apply to me?

This action applies to the public in general. As such, the Agency has not

attempted to specifically describe all the entities potentially affected by this notice. If you have any questions regarding the applicability of this notice to a particular entity, consult the person listed in the "FOR FURTHER INFORMATION CONTACT" section.

B. How can I get additional information or copies of this document?

1. *Electronically.* You may obtain electronic copies of this document from the EPA Internet Home Page at the **Federal Register**-Environmental Documents entry for this document under "Laws and Regulations" (<http://www.epa.gov/fedrgstr/>).

2. *In person, by phone, fax, or e-mail.* EPA has established a public record for this TSCA section 4(d) receipt of test data notice (docket number OPPTS-44652). This record includes copies of the studies reported in this notice. The record, excluding Confidential Business Information (CBI), is available for inspection in the TSCA Nonconfidential Information Center, Rm. NE B-607, 401 M St., SW., Washington, DC, from 12 noon to 4 p.m., Monday through Friday, excluding legal holidays. Requests for

documents should be sent in writing to: Environmental Protection Agency, TSCA Nonconfidential Information Center (7405), 401 M St., SW., Washington, DC 20460 or fax: (202) 260-5069 or e-mail: oppt.ncic@epa.gov.

II. What are the details of the test data submissions

Test data for phenol were submitted by the Phenol Regulatory Panel of the Chemical Manufacturers Association (CMA) on behalf of its test sponsor companies: Allied Signal Inc.; Aristech Chemical Corporation; Dakota Gasification Company; Dow Chemical Company; Georgia Gulf Corporation; General Electric Corporation; GIRSA, Inc.; JLM Industries, Inc.; Kalama Chemical, Inc.; Merichem Company; Mitsubishi Chemical Company; Mitsui Co. (U.S.A.), Inc.; Shell Chemical Company; and Texaco Refining Marketing. The report was submitted pursuant to a TSCA section 4 enforceable testing consent agreement/order and was received by EPA on June 17, 1999. The submission includes a final report entitled "Two-Generation Oral (Drinking Water) Reproductive Toxicity Study of Phenol in Rats." This chemical is produced in substantial quantities and is used in numerous consumer products.

Test data for HDI were submitted by The Chemical Manufacturers Association (CMA) on behalf of the Hexamethylene Diisocyanate Test Sponsors: Lyondell Chemical Company (formerly ARCO chemical Company), Newtown Square, PA; Bayer Corporation, Pittsburgh, PA; and Rhodia Inc. (formerly Rhone-Poulenc Inc.), Raleigh, NC. The reports were submitted in accordance with a TSCA section 4 enforceable testing consent agreement/order and were received by EPA on June 22, 1999. The submission includes two final reports entitled: (1) "A Developmental Toxicity Study with 1,6-Hexamethylene Diisocyanate (HDI) in the Sprague-Dawley Rat" and (2) "A Combined Repeated Dose Toxicity Study with the Reproduction/Developmental Toxicity Screening Test using 1,6-Hexamethylene Diisocyanate (HDI) in the Sprague-Dawley Rat." This chemical is used in the manufacture of higher molecular weight biuret polyisocyanate resins and trimer polyisocyanate resins. HDI biuret polyisocyanate resins and trimers are mainly used as reactive components of two part polyurethane paint systems for automobile refinishing, industrial maintenance, marine coatings, and other high performance coating systems. For example, the civilian and military aircraft industry uses aliphatic

diisocyanate containing paint almost exclusively because of its stability in ultraviolet light. Other consumer uses of HDI are not known at this time.

EPA has initiated its review and evaluation process for these data submissions. At this time, the Agency is unable to provide any determination as to the completeness of the submissions.

Lead; Requirements for Lead-Based Paint Activities in Target Housing and Child-Occupied Facilities; State of Texas's Authorization Application; Correction

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice; correction.

SUMMARY: In the **Federal Register** of April 16, 1999 (64 FR 18906) (FRL-6073-6), EPA announced that the State of Texas had submitted an application for EPA approval to administer and enforce training and certification requirements, training program accreditation requirements, and work practice standards for lead-based paint activities in target housing and child-occupied facilities under section 402 of the Toxic Substances Control Act (TSCA). The notice also announced a 45-day public comment period and an opportunity to request a public hearing on the application. The document incorrectly listed a certification requirement. This notice corrects that error. In FR Doc. 99-9607, on page 18907, third column, first full paragraph, the second sentence, which reads "The appropriate certification exam must be taken every 3 years for certain disciplines." is hereby removed.
