

Final Results of Review

We determine that a margin of 0.00 percent exists for HSI for the period June 1, 1997 through May 31, 1998. We will disclose calculations performed in connection with these final results of review within 5 days after the date of any public announcement, or, if there is no public announcement, within 5 days of publication of this notice.

We will instruct the U.S. Customs Service not to assess antidumping duties on entries of the subject merchandise from HSI for the period of review.

Furthermore, the following deposit requirements shall be required for all shipments of PET film from the Republic of Korea entered, or withdrawn from warehouse, for consumption on or after the publication date of these final results of this new shipper review, as provided by section 751(a)(1) of the Act: (1) No cash deposit shall be required for HSI; (2) for merchandise exported by manufacturers or exporters not covered in this review but covered in the less-than-fair-value (LTFV) investigation or a previous review, the cash deposit will continue to be the most recent rate published in the final determination or final results for which the manufacturer or exporter received a company-specific rate; (3) if the exporter is not a firm covered in this review or the original investigation, but the manufacturer is, the cash deposit rate will be that established for the manufacturer of the merchandise in the final results of this review or the LTFV investigation; and (4) if neither the exporter nor the manufacturer is, a firm covered in this or any previous reviews, the cash deposit rate will be 21.5%, the "all others" rate established in the LTFV investigation.

This notice serves as the final reminder to importers of their responsibility under 19 CFR 351.402(f) to file a certificate regarding the reimbursement of antidumping duties prior to liquidation of the relevant entries during this review period. Failure to comply with this requirement could result in the Secretary's presumption that reimbursement of antidumping duties occurred and the subsequent assessment of double antidumping duties.

This notice also serves as a reminder to parties subject to administrative protective orders (APOs) of their responsibility concerning the disposition of proprietary information disclosed under APO in accordance with 19 CFR 353.305(a). Timely written notification of the return/destruction of APO materials or conversion to judicial

protective order is hereby requested. Failure to comply with the regulations and terms of an APO is a sanctionable violation.

This new shipper review and notice are in accordance with section 751(a)(2)(B) of the Act and 19 CFR 351.214(d).

Revocation of Antidumping Finding: Roller Chain From Japan

AGENCY: Import Administration, International Trade Administration, Department of Commerce.

ACTION: Notice of revocation of antidumping finding: roller chain from Japan.

SUMMARY: Pursuant to section 751(c) of the Tariff Act from 1930, as amended ("the Act"), the United States International Trade Commission ("the Commission") determined that revocation of the antidumping finding on roller chain from Japan is not likely to lead to continuation or recurrence of material injury to an industry in the United States within a reasonably foreseeable time (64 FR 36920 (July 8, 1999)). Therefore, pursuant to 19 CFR 351.222(i)(1), the Department of Commerce ("the Department") is revoking the antidumping finding on roller chain from Japan. Pursuant to section 751(c)(6)(A)(iv) of the Act, the effective date of revocation is January 1, 2000.

FOR FURTHER INFORMATION CONTACT: Scott E. Smith or Melissa G. Skinner, Office of Policy for Import Administration, International Trade Administration, US Department of Commerce, 14th and Constitution Ave., NW, Washington, DC 20230; telephone: (202) 482-6397 or (202) 482-1560, respectively.

EFFECTIVE DATE: January 1, 2000.

Background

On July 6, 1998, the Department initiated, and the Commission instituted, a sunset review (63 FR 26389 and 63 FR 36440, respectively) of the antidumping finding on roller chain from Japan pursuant to section 751(c) of

the Act. As a result of the review, the Department found that revocation of the antidumping finding would likely lead to continuation or recurrence of dumping and notified the Commission of the magnitude of the margin likely to prevail were the finding to be revoked (*see Final Results of Expedited Sunset Review: Roller Chain from Japan*, 63 FR 63026 (November 10, 1998), as amended 63 FR 69262 (December 16, 1998)).

On July 8, 1999, the Commission determined, pursuant to section 751(c) of the Act, that revocation of the antidumping finding on roller chain would not be likely to lead to continuation or recurrence of material injury to an industry in the United States within a reasonably foreseeable time (*see Roller Chain from Japan*, 64 FR 36920 (July 8, 1999) and USITC Pub. 3203, Inv. No. AA1921-111 (Review) (July 1999)).

Scope

The merchandise covered by this determination is roller chain, other than bicycle, from Japan. The term "roller chain, other than bicycle," includes chain, with or without attachments, whether or not plated or coated, and whether or not manufactured to American or British standards, which is used for power transmissions and/or conveyance. This chain consists of a series of alternately-assembled roller links and pin links in which the pins articulate inside from the bushings and the rollers are free to turn on the bushings. Pins and bushings are press fit in their respective link plates. Chain may be single strand, having one row of roller links, or multiple strand, having more than one row of roller links. The center-plates are located between the strands of roller links. Such chain may be either single or double pitch and may be used as power transmission or conveyor chain. This order also covers leaf chain, which consists of a series of link plates alternately assembled with pins in such a way that the joint is free to articulate between adjoining pitches. Roller chain is currently classified under the Harmonized Tariff Schedule of the United States (HTSUS) subheadings 7315.11.00 through 7619.90.00. Although the HTSUS subheadings are provided for convenience and customs purposes, the written description remains dispositive.

Determination

As a result of the determination by the Commission that revocation of this antidumping finding is not likely to lead to continuation or recurrence of material injury to an industry in the United States, the Department, pursuant to

section 751(d)(2) of the Act, will revoke the antidumping finding on roller chain from Japan. Pursuant to section 751(c)(6)(A)(iv) of the Act, this revocation is effective January 1, 2000. The Department will instruct the U.S. Customs Service to discontinue suspension of liquidation and collection of cash deposit rates on entries of the subject merchandise entered or withdrawn from warehouse on or after January 1, 2000 (the effective date). The Department will complete any pending administrative reviews of this order and will conduct administrative reviews of subject merchandise entered prior to the effective date of revocation in response to appropriately filed requests for review.

Tapered Roller Bearings, 4 Inches and Under From Japan, et al.; Extension of Time Limit for Final Results of Five-Year Reviews

AGENCY: Import Administration, International Trade Administration, Department of Commerce.

ACTION: Notice of extension of time limit for final results of five-year ("Sunset") reviews.

SUMMARY: The Department of Commerce ("the Department") is extending the time limit for the final results of the sunset reviews on the antidumping duty orders on tapered roller bearings, 4 inches and under from Japan, tapered roller bearings from Hungary, tapered roller bearings from Romania, tapered roller bearings, over 4 inches from Japan, cylindrical roller bearings from France, ball bearings from France, spherical plain bearings from France, spherical plain bearings from Germany, cylindrical roller bearings from Germany, ball bearings from Germany, ball bearings from Italy, cylindrical roller bearings from Italy, cylindrical roller bearings from Japan, spherical plain bearings from Japan, ball bearings from Japan, ball bearings from Romania,

ball bearings from Singapore, ball bearings from Sweden, cylindrical roller bearings from Sweden, cylindrical roller bearings from the United Kingdom, ball bearings from the United Kingdom. Based on adequate responses from domestic interested parties and inadequate responses from respondent interested parties, the Department is conducting expedited sunset reviews to determine whether revocation of the antidumping duty orders would be likely to lead to continuation or recurrence of dumping. As a result of this extension, the Department intends to issue its final results not later than October 28, 1999.

EFFECTIVE DATE: August 5, 1999.

Extension of Final Results

The Department has determined that the sunset reviews of the antidumping duty orders on tapered roller bearings, 4 inches and under from Japan, tapered roller bearings from Hungary, tapered roller bearings from Romania, tapered roller bearings, over 4 inches from Japan, cylindrical roller bearings from France, ball bearings from France, spherical plain bearings from France, spherical plain bearings from Germany, cylindrical roller bearings from Germany, ball bearings from Germany, ball bearings from Italy, cylindrical roller bearings from Italy, cylindrical roller bearings from Japan, spherical plain bearings from Japan, ball bearings from Japan, ball bearings from Romania, ball bearings from Singapore, ball bearings from Sweden, cylindrical roller bearings from Sweden, cylindrical roller bearings from the United Kingdom, ball bearings from the United Kingdom are extraordinarily complicated. In accordance with section 751(c)(5)(C)(v) of the Tariff Act of 1930, as amended ("the Act"), the Department may treat a review as extraordinarily complicated if it is a review of a transition order (*i.e.*, an order in effect on January 1, 1995). See section 751(c)(6)(C) of the Act. The Department is extending the time limit for completion of the final results of these reviews until not later than October 28, 1999, in accordance with section 751(c)(5)(B) of the Act.

Dated: July 30, 1999.

Final Results of Expedited Sunset Review: Cotton Shop Towels From Pakistan

AGENCY: Import Administration, International Trade Administration, U.S. Department of Commerce.

ACTION: Notice of final results of expedited sunset review: cotton shop towels from Pakistan.

SUMMARY: On January 4, 1999, the Department of Commerce ("the Department") initiated a sunset review of the countervailing duty order on cotton shop towels from Pakistan pursuant to section 751(c) of the Tariff Act of 1930, as amended ("the Act"). On the basis of a notice of intent to participate and an adequate substantive response filed on behalf of the domestic party, and inadequate response (in this case, no response) from respondent interested parties, the Department determined to conduct an expedited review. As a result of this review, the Department finds that revocation of the countervailing duty order would be likely to lead to continuation or recurrence of a countervailing subsidy. The net countervailable subsidy and the nature of the subsidy are identified in the Final Results of Review section to this notice.
