

order. Therefore, we find no reason to deviate from our policy of selecting margins from the original investigation as probative of the behavior of absent the discipline of the order.

With respect to the magnitude of the margin likely to prevail on exports by Kumho, we agree with Kumho. Although Kumho was not a participant in the original investigation, Kumho has participated in each of the administrative reviews of this order conducted by the Department. In each review, Kumho received a zero or *de minimis* margin. Although we acknowledge the Committee's assertion that the discipline of an order will, in many instances, lead to a zero or *de minimis* margin, we are not persuaded that Kumho is likely to begin dumping were the order revoked.

Based on the above analysis, we will report to the Commission the margins indicated in the Final Results of the Review section of this notice.

Final Results of Review

As a result of this review, the Department finds that revocation of the antidumping order would be likely to lead to continuation or recurrence of dumping at the margins listed below:

Manufacturers/exporters	Margin (percent)
Kumho Wire Rope Manufacturer Co., Ltd	0
All Korean Manufacturers/Exporters	1.51

In addition, as noted above, entries of steel wire rope produced and sold by Korean Iron & Steel Wire, Ltd. (KIS) were excluded from the scope of the order, as were entries produced by either Young Heung Iron & Steel Co., Ltd., (YHC) or Dae Heung Industrial Co., Ltd. and sold by YHC. Finally, the order has been revoked with respect to Manho Rope Mfg., Ltd.; Chun Kee Steel & Wire Rope Co., Ltd.; Chung Woo Rope Co., Ltd.; Ssang Yong Cable Manufacturing Co., Ltd.; and Sung Jin Co.

This notice serves as the only reminder to parties subject to administrative protective order (APO) of their responsibility concerning the disposition of proprietary information disclosed under APO in accordance with section 19 CFR 351.305 of the Department's regulation. Timely notification of return/destruction of APO materials or conversion to judicial protective order is hereby requested. Failure to comply with the regulations and the terms of an APO is sanctionable violation.

This five-year ("sunset") review and notice are published in accordance with sections 751(c) and 777(i)(1) of the Act.

Dated: August 2, 1999.

Joseph A. Spetrini,

Acting Assistant Secretary for Import Administration.

DATES: August 9, 1999.

SUMMARY: The International Trade Administration ("ITA") of the Department of Commerce announces an exhibition focusing on the importance of U.S. exports relating to biotechnology products and services. The exhibition will showcase U.S. biotechnology exports by displaying successfully exported products and services at ITA headquarters in Washington, DC, to highlight the benefits of exporting and the impact of these exports on the U.S. economy. Companies and trade associations are encouraged to express interest in providing exhibit material. The exhibition will be coordinated through the Chemicals, Pharmaceuticals and Biotechnology Division.

FOR FURTHER INFORMATION CONTACT: Ms. Emily Arakaki, Chemicals, Pharmaceuticals and Biotechnology Division; U.S. Department of Commerce/ITA; Room 4053; Washington, DC 20230; Telephone (202) 482-0130; fax (202) 482-2565; e-mail: "emily_arakaki@ita.doc.gov".

SUPPLEMENTARY INFORMATION:

Background: ITA is showcasing U.S. exports by exhibiting successfully exported products and services at its headquarters in Washington, DC, to highlight the benefits of exporting and the impact of exports on the U.S. economy. The exhibit, which represents a series of industries and a variety of companies, is located in the Office of the Under Secretary for International

Trade. The exhibit is rotated approximately every four months.

The next sector to be displayed is the biotechnology sector. Companies and trade associations in this sector are encouraged to express interest in showcasing their exports of goods and/or services by contacting ITA through the individual listed above. Displayed items may include three-dimensional models, illustrations, in addition to samples of actual U.S. products that are being successfully exported.

Extensive shelf-, wall- and floor-space are available in this large, executive-style office.

Selection Process: Items will be selected for exhibition on the basis of the following factors:

(1) Items must be produced in, or representative of services exported from, the United States and have at least a 51% U.S. content, including materials, equipment and labor (in the case of large development projects, the applicant should identify substantial U.S. products or services into the completed project). To highlight the impact of exports on small businesses, items will also be considered that are produced by U.S. companies that do not directly export but rather whose goods or services are incorporated into another company's for export.

(2) The items must relate to the industry selected by ITA and be suitable for exhibition in a limited space.

(3) The company must not be owned or controlled, indirectly or directly, by a foreign government.

(4) Items chosen should reflect diversity of company size, location, demographics, and traditional under-representation in business.

Other conditions: Displayed items will be considered loans to the Department. Companies will be responsible for shipment of the item to and from the Commerce Department, for obtaining appropriate insurance, and for all related costs.

Time Frame for Applications: Expressions of interest from the biotechnology sector should be received by September 1, 1999. Expressions of interest should be sent to the ITA official identified above.

A **Federal Register** notice will be published subsequently to announce the next sector to be highlighted.
