RIN 0938–AJ59

Medicare and Medicaid Program; Appeal of the Loss of Nurse Aide Training Programs; Correction

AGENCY: Health Care Financing Administration (HCFA), HHS.

ACTION: Correction of interim final rule with comment period.

SUMMARY: This document corrects a technical error that appeared in the interim final rule with comment period published in the **Federal Register** on July 23, 1999, entitled “Medicare and Medicaid Programs; Appeal of the Loss of Nurse Aide Training Programs.”

EFFECTIVE DATE: July 23, 1999.

FOR FURTHER INFORMATION CONTACT: Jeffrey Golland, (202) 619–3377.

SUPPLEMENTARY INFORMATION:

Background

In FR Doc. 99–18802 of July 23, 1999, (64 FR 39934), there was a technical error. The error relates to an omission of a needed change to our hearing regulations and the accompanying preamble discussion. Specifically, the interim final regulation explicitly made appealable determinations of substandard quality of care that lead to a nursing home’s loss of its nurse aide training program. What was inadvertently omitted was a needed revision to § 498.3(b)(12) (Initial determinations by HCFA) which excludes a loss of nurse aide training from the list of initial determinations that are appealable. Because this provision is so flatly inconsistent with the rest of the recently published

interim final rule, which made this determination appealable, § 498.3(b)(12) needs to be revised as well to make it consistent with the rest of the nurse aide training appeal rule.

The provision in this correction notice is effective as if it had been included in the document published in the **Federal Register** on July 23, 1999.

Correction of Errors

In FR Doc. 99–18802 of July 23, 1999, make the following corrections:

1. On page 39936, column one, a paragraph is added after the second full paragraph to read as follows:

“We are revising § 498.3(b) (Initial determinations by HCFA) by revising paragraph (12) to remove the reference to the loss of the approval for a nurse aide training program as an exception to an initial determination.”

§ 498.3 [Corrected]

2. On page 39937, in column 3, in the regulations text, the amendatory language for item 2 should be revised to read as follows:

“2. In § 498.3, paragraphs (b)(12) and (b)(13) are revised, a new paragraph (b)(15) is added, and paragraph (d)(10)(iii) is revised to read as follows:”

3. On page 39937, in column 3, in § 498.3, paragraph (b)(12) is correctly revised to read as follows:

§ 498.3 Scope and applicability

* * * * *

(b) * * *

(12) With respect to an SNF or NF, a finding of noncompliance that results in the imposition of a remedy specified in § 488.406 of this chapter, except the State monitoring remedy.

Fisheries of the Exclusive Economic Zone Off Alaska; Pacific Ocean Perch in the Central Regulatory Area

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Modification of a closure.

SUMMARY: NMFS is opening directed fishing for Pacific ocean perch in the Central Regulatory Area of the Gulf of Alaska management area (GOA). This action is necessary to fully utilize the 1999 total allowable catch (TAC) of Pacific ocean perch in this area.

DATES: Effective 1200 hrs, Alaska local time (A.l.t.), August 6, 1999.

FOR FURTHER INFORMATION CONTACT: Andrew Smoker, 907–586–7228.

SUPPLEMENTARY INFORMATION: NMFS manages the groundfish fishery in the GOA exclusive economic zone according to the Fishery Management Plan for Groundfish of the Gulf of Alaska (FMP) prepared by the North Pacific Fishery Management Council under authority of the Magnuson-Stevens Fishery Conservation and Management Act. Regulations governing fishing by U.S. vessels in accordance with the FMP appear at subpart H of 50 CFR part 600 and 50 CFR part 679.

The amount of the 1999 TAC of Pacific ocean perch in the Central Regulatory Area of the Gulf of Alaska was established by the Final 1999 Harvest Specifications of Groundfish for the GOA (64 FR 12094, March 11, 1999)

as 6,760 metric tons (mt), determined in accordance with § 679.20(c)(3)(ii).

The Administrator, Alaska Region, NMFS (Regional Administrator), has established a directed fishing allowance of 5,760 mt, and set aside the remaining 1,000 mt as bycatch to support other anticipated groundfish fisheries. The fishery for Pacific ocean perch in the Central Regulatory Area of the GOA was closed to directed fishing under § 679.20(d)(1)(iii) on July 11, 1999, (64 FR 37884, July 14, 1999).

NMFS has determined that as of July 24, 1999, 900 mt remain in the directed fishing allowance. Therefore, NMFS is terminating the previous closure and is opening directed fishing for Pacific ocean perch in the Central Regulatory Area of the GOA.

Classification

All other closures remain in full force and effect. This action responds to the best available information recently obtained from the fishery. It must be implemented immediately in order to allow full utilization of the Pacific ocean perch TAC. Providing prior notice and opportunity for public comment for this action is impracticable and contrary to the public interest. NMFS finds for good cause that the implementation of this action cannot be delayed for 30 days. Accordingly, under 5 U.S.C. 553(d), a delay in the effective date is hereby waived.

This action is required by § 679.20 and is exempt from review under E.O. 12866.

Authority: 16 U.S.C. 1801 *et seq.*

Dated: August 4, 1999.

Bruce C. Morehead,

Acting Director, Office of Sustainable Fisheries, National Marine Fisheries Service.

Fisheries of the Economic Exclusive Zone Off Alaska; Deep-water Species Fishery by Vessels using Trawl Gear in the Gulf of Alaska

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Modification of a closure.

SUMMARY: NMFS is opening directed fishing for species that comprise the deep-water species fishery by vessels using trawl gear in the Gulf of Alaska (GOA). This action is necessary to fully utilize the third seasonal apportionment of the 1999 Pacific halibut bycatch allowance specified to the deep-water species fishery in the GOA.

DATES: Effective 1200 hrs, Alaska local time, August 6, 1999.

FOR FURTHER INFORMATION CONTACT: Andrew Smoker, 907-586-7280

SUPPLEMENTARY INFORMATION: NMFS manages the groundfish fishery in the GOA exclusive economic zone according to the Fishery Management Plan for Groundfish of the Gulf of Alaska (FMP) prepared by the North Pacific Fishery Management Council under authority of the Magnuson-Stevens Fishery Conservation and Management Act. Regulations governing fishing by U.S. vessels in accordance with the FMP appear at subpart H of 50 CFR part 600 and 50 CFR part 679.

The Pacific halibut bycatch allowance for the GOA trawl deep-water species fishery, which is defined at § 679.21(d)(3)(iii)(B), was established by the Final 1999 Harvest Specifications of Groundfish for the GOA (64 FR 12094, March 11, 1999) for the third season, the period July 4, 1999, through September 30, 1999, as 400 metric tons.

The fishery for the deep-water species fishery by vessels using trawl gear in the GOA was closed under § 679.21(d)(7)(i) on July 21, 1999, (64 FR 40293, July 26, 1999).

NMFS has determined that as of July 24, 1999, 180 metric tons remain in the third seasonal apportionment of the Pacific halibut bycatch mortality allowance specified for the GOA trawl deep-water species fishery. Therefore, NMFS is terminating the previous closure and is opening directed fishing for species that comprise the deep-water species fishery that are not otherwise closed to directed fishing in the GOA.

Maximum retainable bycatch amounts may be found in the regulations at § 679.20(e) and (f).

Classification

All other closures remain in full force and effect. This action responds to the best available information recently obtained from the fishery. It must be implemented immediately in order to allow full utilization of the third seasonal apportionment of the 1999 Pacific halibut bycatch allowance specified to the deep-water species fishery in the GOA. Providing prior notice and opportunity for public comment for this action is impracticable

and contrary to the public interest. Further delay would only disrupt the FMP objective of maximizing groundfish harvest. NMFS finds for good cause that the implementation of this action cannot be delayed for 30 days. Accordingly, under 5 U.S.C. 553(d), a delay in the effective date is hereby waived.

This action is required by § 679.21 and is exempt from review under E.O. 12866.

Authority: 16 U.S.C. 1801 *et seq.*

Dated: August 4, 1999.
