[Project No. 597-003-Utah]

### PacifiCorp Power Company; Notice of Availability of Draft Environmental Assessment

August 16, 1999.

In accordance with the National Environmental Policy Act of 1969 and the Federal Energy Regulatory Commission's (Commission) regulations, 18 CFR Part 380 (Order No. 486, 52 FR 47897), the Office of Hydropower Licensing has reviewed the application for a new license for the Stairs Hydroelectric Project, and has prepared a Draft Environmental Assessment (DEA). The project is located on the Big Cottonwood Creek in Big Cottonwood Canyon, Salt Lake County, near the town of Sandy, about 15 miles southeast of Salt Lake City, Utah. The project occupies about 8.7 acres of land within the Wasatch-Cache National Forest, administered by the U.S. Forest Service. The DEA contains the staff's analysis of the potential environmental impacts of the project and concludes that licensing the project, with appropriate environmental protective measures, would not constitute a major federal action that would significantly affect the quality of the human environment.

Copies of the DEA are available for review in the Public Reference Room, Room 2A, of the Commission's offices at

888 First Street, NE, Washington, DC 20426.

Any comments should be filed on or before August 31, 1999, and should be addressed to David P. Boergers, Secretary, Federal Energy Regulatory Commission, 888 First Street, NE, Washington, DC 20426. For further information, contact Gaylord Hoisington, Project Coordinator, at (202) 219-2756.
