

that the following Information Collection Request (ICR) has been forwarded to the Office of Management and Budget (OMB) for review and approval: Emission Defect Information and Voluntary Emission Recall Reports for On-Highway, Light-Duty Motor Vehicles, formerly OMB #2060-0048, expires 11/30/99. The ICR describes the nature of the information collection and its expected burden and cost; where appropriate, it includes the actual data collection instrument.

DATES: Comments must be submitted on or before September 24, 1999.

FOR FURTHER INFORMATION CONTACT: Sandy Farmer at EPA by phone at (202) 260-2740, by email at farmer.sandy@epamail.epa.gov, or download a copy of the ICR off the Internet at <http://www.epa.gov/icr> and refer to EPA ICR No. 1916.01.

SUPPLEMENTARY INFORMATION:

Title: Emission Defect Information and Voluntary Emission Recall Reports for On-Highway, Light-Duty Motor Vehicles (EPA ICR No. 1916.01, previously EPA ICR No. 282.10 and OMB Control No. 2060-0048; which is being split into two collections. This one is only for on-highway, light-duty motor vehicles.) expiring 11/30/99. This is an extension of a currently approved collection.

Abstract: Some manufacturers of motor vehicles are required to submit two different reports under 40 CFR part 85. These reports are only required where certain conditions involving emission defects or voluntary recalls occur.

The "defect information report" (DIR) contains data regarding the class or engine family and number of vehicles on which a defect has been found, and a description of the defect and its effects on vehicle performance and emissions. The Agency uses the DIR to help identify emission-related defects or classes of vehicles which may not comply with federal emissions standards.

The "voluntary emission recall" (VER) report contains data on voluntary recall campaigns conducted by manufacturers, including the procedures used by the manufacturers to conduct voluntary recall campaigns, the identification of vehicles or engines affected by the campaign, and the repair to be completed on recalled vehicles. Progress or quarterly updates of the VER reports track the number of vehicles repaired. The Agency uses the VER report and progress reports to ensure that manufacturers are following acceptable procedures when conducting recalls and to track the progress and

effectiveness of voluntary recall campaigns. An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. The OMB control numbers for EPA's regulations are listed in 40 CFR part 9 and 48 CFR chapter 15. The **Federal Register** document required under 5 CFR 1320.8(d), soliciting comments on this collection of information was published on 5/21/99 (64 FR 27780); no comments were received.

Burden Statement: The estimated cost to the public of this ICR is 1256 hours and \$85,007. A respondent's burden for a defect information report is estimated to be 14 hours per report. The estimated frequency per respondent is expected to average 5.1 responses per year. It is estimated that there will be an average of 12 respondents submitting defect information reports per year.

A respondent's burden for a voluntary emissions recall report and the follow-up progress reports is estimated to be 3.5 hours and 14 hours, respectively. The estimated frequency per respondent is expected to average 3.8 voluntary recall reports per year. It is estimated that there will be an average of 6 respondents submitting voluntary emissions recall reports per year.

Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

Send comments on the Agency's need for this information, the accuracy of the provided burden estimates, and any suggested methods for minimizing respondent burden, including through the use of automated collection techniques to the following addresses. Please refer to EPA ICR No. 1916.01 in any correspondence.

SUPPLEMENTARY INFORMATION:

I. Important Information

A. Does This Apply to Me?

This action is directed to the public in general. Although this action may be of particular interest to persons who produce or use pesticides, the Agency has not attempted to describe all the specific entities that may be affected by this action. If you have any questions regarding the information in this notice, consult the person listed in the "FOR FURTHER INFORMATION CONTACT" section.

B. How Can I Get Additional Information of Copies of Support Documents?

1. *Electronically.* You may obtain electronic copies of this document and

various support documents are available from the EPA Home Page at the **Federal Register-Environmental Documents** entry for this document under "Laws and Regulations" (<http://www.epa.gov/fedrgrstr/>).

2. *In person.* The official record for this notice, as well as the public version, has been established under docket control number [OPP-34193], (including comments and data submitted electronically as described below). A public version of this record, including printed, paper versions of any electronic comments which does not include any information claimed as Confidential Business Information (CBI), is available for inspection in Rm., 119, Crystal Mall #2, 1921 Jefferson Davis

Highway, Arlington, VA, from 8:30 a.m. to 4:00 p.m., Monday through Friday, excluding legal holidays.

II. Introduction

Section 6(f)(1) of FIFRA provides that a registrant of a pesticide product may at any time request that any of its pesticide registrations be amended to delete one or more uses. The Act further provides that, before acting on the request, EPA must publish a notice of receipt of any such request in the **Federal Register**. Thereafter, the Administrator may approve such a request.

III. Intent to Delete Uses

This notice announces receipt by the Agency of applications from registrants

to delete uses in the three pesticide registrations listed in the following Table 1. These registrations are listed by registration number, product names, active ingredients and the specific uses deleted. Users of these products who desire continued use on crops or sites being deleted should contact the applicable registrant before February 22, 2000 to discuss withdrawal of the applications for amendment. This 180-day period will also permit interested members of the public to intercede with registrants prior to the Agency approval of the deletion. (Note: Registration number(s) preceded by * indicate a 30-day comment period).
