

C.3. below). The water remaining in this category would be 538,031 AF (which includes a reduction of 17,000 acre-feet of ASARCO water; see "c" above).

2. Water allocated for NIA use would be reduced by an estimated 28,665 AF. This estimate represents NIA water previously allocated to Queen Creek Irrigation District (ID), Chandler Heights Citrus ID, San Tan ID and Tonopah ID. In addition, as in Alternative #1, an estimated 112,578 AF of water would be made available for use by non-Indian agricultural and/or M&I entities under a process to be developed. No change in status would occur to the remaining estimated 199,855 AF in this category.

3. The amount of CAP water available for Federal purposes would be increased by an estimated 94,312 AF as a result of the reallocations described in C.1 and C.2 above. The 65,647 AF from the M&I category would be contracted as follows: 20,000 AF to GRIC; 28,200 AF to Tohono O'odham Nation; 3,947 AF to

San Carlos; and 13,500 AF to the Navajo and Hopi tribes. The estimated 28,665 AF from the NIA category would be contracted as follows: 9,000 AF to GRIC; and an additional 19,665 AF to San Carlos. In addition, as in Alternative #1, an estimated amount of 1,518 AF already held for Federal purposes would be allocated and contracted to the Tonto Apache and Camp Verde Apache tribes.

D. Alternative #3

1. Changes to amounts of water in the M&I category would be as described in Alternative #2.

2. Water allocated for NIA use would be reduced by an estimated 297,444 AF. An estimated 43,654 AF associated with HIDD would remain in this category (see "d" above).

3. The amount of water available for Federal uses would be increased by an estimated 272,091 AF as a result of the reallocations described in D.1 and D.2 above. The 65,647 AF from the M&I

category would be contracted as under Alternative #2 (20,000 AF to GRIC; 28,200 AF to Tohono O'odham Nation; 3,947 AF to San Carlos; and 13,500 AF to the Navajo and Hopi tribes). An estimated 206,444 AF reallocated from the NIA category would be distributed as follows: 82,000 AF would be contracted to GRIC, and 124,444 AF would be reserved by the Secretary for future Federal purposes. As in Alternatives #1 and #2, an estimated 1,518 AF would be allocated and contracted to the Tonto Apache and Camp Verde Apache tribes.

4. The remaining 91,000 AF of water reallocated from the NIA category described in D.2 above would be reserved by the Secretary for as yet to be determined non-Federal users.

Following is a table that summarizes the estimated total number of AF that would comprise each pool of CAP water, by alternative:

Cap water category	Current condition	Proposed action	Alternative #1	Alternative #2	Alternative #3
M&I category	620,678	603,678	603,678	538,031	538,031
NIA category	341,098	141,098	341,098	312,433	43,654
Held for "Federal purposes"	453,224	670,224	470,224	564,536	742,315
Held for "non-Federal purposes"					91,000
Total (in AF):	1,415,000	1,415,000 AF	1,415,000	1,415,000	1,415,000

In addition to the proposed action and the three action alternatives, Reclamation will also evaluate environmental consequences that are anticipated to occur in the absence of the proposed action (the no Federal action). By definition, the no Federal action alternative means that no water would be reallocated and no new contracts would be signed. Currently, uncontracted water from the previous CAP allocations, including 65,647 AF of M&I category water, and that portion of the NIA pool which has either been declined (about 112,578 AF) or considered to be relinquished (subject to Secretarial consent) from four non-Indian irrigation districts (about 28,665 AF), is delivered by the Central Arizona Water Conservation District to entities through two-party excess water agreements. The United States is challenging these agreements in ongoing litigation regarding operation of the CAP. For purposes of this analysis it is assumed that under the no Federal action scenario, this practice would continue pending resolution of the ongoing litigation.

Reclamation is circulating this notice in anticipation of considerable public interest and the need to ensure that all

relevant issues are evaluated in the EIS. Reclamation will consult other Federal, State, and local agencies with specific expertise regarding environmental impacts related to the project.

Dated: August 20, 1999.

Robert Johnson,

Regional Director.
