Proposed Project

Translating Research Into Action for Diabetes (TRIAD)—New—The National Center for Chronic Disease Prevention and Health Promotion (NCCDPHP), Division of Diabetes Translation. Diabetes exerts a huge public health burden, and there are several efficacious interventions to combat the effects of this disease. Yet, the quality of care and quality of life among people with diabetes remain sub-optimal in the United States. The Centers for Disease Control and Prevention, Division of Diabetes Translation, intends to conduct a multi-center study called Translating Research Into Action for Diabetes (TRIAD). This study will assess quality of diabetes care and identify effective means of applying existing knowledge to improve care and quality of life. Data provided from TRIAD will be critical to the Division of Diabetes Translation's ongoing efforts to reduce the burden of diabetes.

Data will be collected through cooperative agreements with six
