Federal Aviation Administration

14 CFR Part 71

[Airspace Docket No. 99-AWP-11]

Airport Name Change and Revision of Legal Description of Class D, Class E2 and Class E4 Airspace Areas; Barbers Point NAS, HI

AGENCY: Federal Aviation Administration (FAA) DOT.

ACTION: Final rule, correction and delay of effective date.

SUMMARY: This action corrects a final rule that was published in the **Federal Register** on Thursday, August 12, 1999 (64 FR 43907), Airspace Docket No. 99-AWP-11, changing the name of Barbers Point NAS, HI, and its associated airspace areas to Kalaeloa Airport and delaying the effective date of the rule.

EFFECTIVE DATE: The final rule published on August 12, 1999 (64 FR 43907) as corrected by this document is effective 0901 UTC, November 14, 1999.

FOR FURTHER INFORMATION CONTACT: Debra Trindle, Airspace Specialist, Airspace Branch, AWP-520.10, Air Traffic Division, Western-Pacific Region, Federal Aviation Administration, 15000 Aviation Boulevard, Lawndale, California 90261, telephone (310) 725-6613.

SUPPLEMENTARY INFORMATION:**History**

Federal Register Document 99-20524, Airspace Docket No. 99-AWP-11, published on August 12, 1999, changed the name of Barbers Point NAS and its associated Class D, Class E2, and Class E4 airspace areas to Kalaeloa Airport, Kapolei, HI. The airport geographical reference points and the spelling of the city of reference listed in that document were incorrect. This action corrects those errors. The effective date of the rule was originally published as September 13, 1999, and is delayed until November 4, 1999.

Correction to Final Rule

Accordingly, pursuant to the authority delegated to me, the legal description for Kalaeloa Airport, Kapolei, HI, its associated airspace areas, and the spelling of the city of reference are corrected as follows:

PART 71—[CORRECTED]**§ 71.1 [Corrected]**

On page 43908, columns 1 and 2, correct the geographical coordinates of the Kalaeloa Airport, its associated

airspace areas, and the spelling of the city of reference, incorporated by reference in § 71.1, as follows:

* * * * *

AWP HI D Kalaeloa Airport, Kapolei, HI [Corrected]

Kalaeloa Airport, HI
(lat. 21°18'26"N, long. 158°04'13"W)

That airspace extending upward from the surface up to and including 2,500 feet MSL within a 4.3 mile radius of Kalaeloa Airport, excluding the airspace within the Honolulu, HI, Class B airspace area. This Class D airspace area is effective during the specific dates and times established in advance by a Notice to Airmen. The effective date and time will thereafter be continuously published in the Airport/Facility Directory, Pacific Chart Supplement.

AWP HI E2 Kalaeloa Airport, Kapolei, HI [Corrected]

Kalaeloa Airport, HI
(lat. 21°18'26"N, long. 158°04'13"W)

That airspace extending upward from the surface within a 4.3 mile radius of Kalaeloa Airport, excluding the airspace within the Honolulu, HI, Class B airspace area. This Class E airspace area is effective during the specific dates and times established in advance by a Notice to Airmen. The effective date and time will thereafter be continuously published in the Airport/Facility Directory.

* * * * *

AWP HI E4 Kalaeloa Airport, Kapolei, HI [Corrected]

Kalaeloa Airport, HI
(lat. 21°18'21"N, long. 158°04'13"W)
Point of Origin
(lat. 21°18'21"N, long. 158°03'54"W)

That airspace extending upward from the surface within 3 miles each side of the 242° bearing from the Point of Origin, extending from the 4.3 mile radius of Kalaeloa Airport to 8.5 miles west of the Point of Origin and within 1.8 miles each side of the 289° bearing from the Point of Origin, extending from the 4.3 mile radius of the airport to 6.6 miles west of the Point of Origin, excluding the airspace within the Honolulu, HI, Class B airspace area.

Issued in Los Angeles, California, on August 27, 1999.

John Clancy,

Manager, Air Traffic Division, Western-Pacific Region.

14 CFR Part 71

[Airspace Docket No. 99-ACE-44]

Amendment to Class E Airspace; Winfield/Arkansas City, KS

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Direct final rule; request for comments.

SUMMARY: This action amends Class E airspace area at Strother Field, Winfield/Arkansas City, KS. A review of the Class E airspace area for Strother Field, KS indicates it does not comply with the criteria for 700 feet Above Ground Level (AGL) airspace required for diverse departures as specified in FAA Order 7400.2D. The Class E airspace has been enlarged to conform to the criteria of FAA Order 7400.2D. The review also indicates the extension to the south can be eliminated.

The intended effect of this rule is to provide additional controlled Class E airspace for aircraft operating under Instrument Flight Rules (IFR), eliminate the extension, and comply with the criteria of FA Order 7400.2D.

DATES: Effective date: 0901 UTC, December 30, 1999.

Comments for inclusion in the Rules Docket must be received on or before October 25, 1999.

ADDRESSES: Send comments regarding the rule in triplicate to: Manager, Airspace Branch, Air Traffic Division, ACE-520, Federal Aviation Administration, Docket Number 99-ACE-44, 601 East 12th Street, Kansas City, MO 64106.

The official may be examined in the Office of the Regional Counsel for the Central Region at the same address between 9:00 a.m. and 3:00 p.m., Monday through Friday, except Federal holidays.

An informal docket may also be examined during normal business hours in the Air Traffic Division at the same address listed above.

FOR FURTHER INFORMATION CONTACT: Kathy Randolph, Air Traffic Division, Airspace Branch, ACE-520C, Federal Aviation Administration, 601 East 12th Street, Kansas City, MO 64106; telephone: (816) 426-3408.

SUPPLEMENTARY INFORMATION: This amendment to 14 CFR 71 revises the Class E airspace at Winfield/Arkansas City, KS. A review of the Class E airspace for Strother Field, KS, indicates it does not meet the criteria for 700 feet

AGL airspace required for diverse departures as specified in FAA Order 7400.2D. The criteria in FAA Order 7400.2D for an aircraft to reach 1,200 feet AGL is based on a standard climb gradient for 200 feet per mile plus the distance from the Airport Reference Point (ARP) to the end of the outermost runway. Any fractional part of a mile is converted to the next higher tenth of a mile. The amendment at Strother Field, KS, will provide additional controlled airspace for aircraft operating under IFR, eliminate the extension, and comply with the criteria of FAA Order 7400.2D. The area will be depicted on appropriate aeronautical charts. Class E airspace areas extending upward from 700 feet or more above the surface of the earth are published in paragraph 6005 of FAA Order 7400.9F, dated September 10, 1998, and effective September 16, 1998, which is incorporated by reference in 14 CFR 71.1. The Class E airspace designation listed in this document will be published subsequently in the Order.

The Direct Final Rule Procedure

The FAA anticipates that this regulation will not result in adverse or negative comment and, therefore, is issuing it as a direct final rule. Previous actions of this nature have not been controversial and have not resulted in adverse comments or objections. The amendment will enhance safety for all flight operations by designating an area where VFR pilots may anticipate the presence of IFR aircraft at lower altitudes, especially during inclement weather conditions. A greater degree of safety is achieved by depicting the area on aeronautical charts. Unless a written adverse or negative comment, or a written notice of intent to submit an adverse or negative comment is received within the comment period, the regulation will become effective on the date specified above. After the close of the comment period, the FAA will publish a document in the **Federal Register** indicating that no adverse or negative comments were received and confirming the date on which the final rule will become effective. If the FAA does receive, within the comment period, an adverse or negative comment, or written notice of intent to submit such a comment, a document withdrawing the direct final rule will be published in the **Federal Register**, and a notice of proposed rulemaking may be published with a new comment period.

Comments Invited

Although this action is in the form of a final rule and was not preceded by a notice of proposed rulemaking,

comments are invited on this rule. Interested persons are invited to comment on this rule by submitting such written data, views, or arguments as they may desire. Communications should identify the Rules Docket number and be submitted in triplicate to the address specified under the caption **ADDRESSES**. All communications received on or before the closing date for comments will be considered, and this rule may be amended or withdrawn in light of the comments received. Factual information that supports the commenters' ideas and suggestions is extremely helpful in evaluating the effectiveness of this action and determining whether additional rulemaking action would be needed.

Comments are specifically invited on the overall regulatory, economic, environmental, and energy-related aspects of the rule that might suggest a need to modify the rule. All comments submitted will be available, both before and after the closing date for comments, in the Rules Docket for examination by interested persons. A report that summarizes each FAA-public contact concerned with the substance of this action will be filed in the Rules Docket.

Commenters wishing the FAA to acknowledge receipt of their comments submitted in response to this rule must submit a self-addressed, stamped postcard on which the following statement is made: "Comments to Docket No. 99-ACE-44." The postcard will be date stamped and returned to the commenter.

Agency Findings

The regulations adopted herein will not have substantial direct effects on the States, on the relationship between the national government and the States, or on the distribution of power and responsibilities among the various levels of government. Therefore, in accordance with Executive Order 12612, it is determined that this final rule does not have sufficient federalism implications to warrant the preparation of a Federalism Assessment.

The FAA has determined that this regulation is noncontroversial and unlikely to result in adverse or negative comments. For the reasons discussed in the preamble, I certify that this regulation (1) is not a "significant regulatory action" under Executive Order 12866; (2) is not a "significant rule" under Department of Transportation (DOT) Regulatory Policies and Procedures (44 FR 11034, February 26, 1979); and (3) if promulgated, will not have a significant economic impact, positive or negative, on a substantial number of small entities

under the criteria of the Regulatory Flexibility Act.

List of Subjects in 14 CFR Part 71

Airspace, Incorporation by reference, Navigation (air).

Adoption of the Amendment

Accordingly, the Federal Aviation Administration amends 14 CFR part 71 as follows:

PART 71—DESIGNATION OF CLASS A, CLASS B, CLASS C, CLASS D, AND CLASS E AIRSPACE AREAS; AIRWAYS; ROUTES; AND REPORTING POINTS

1. The authority citation for part 71 continues to read as follows:

Authority: 49 U.S.C. 106(g), 40103, 40113, 40120; E.O. 10854, 24 FR 9565, 3 CFR, 1959–1963 Comp., p. 389.

§ 71.1 [Amended]

2. The incorporation by reference in 14 CFR 71.1 of Federal Aviation Administration Order 7400.9F, Airspace Designations and Reporting Points, dated September 10, 1998, and effective September 16, 1998, is amended as follows:

Paragraph 6005 Class E airspace areas extending upward from 700 feet or more above the surface of the earth.

* * * * *

ACE KS E5 Winfield/Arkansas City, KS [Revised]

Winfield/Arkansas City, Strother Field, KS (Lat. 37°10'05"N., long. 97°02'14"W.)

That airspace extending upward from 700 feet above the surface within a 6.6-mile radius of Strother Field.
