

in deducting U.S. commission expense from U.S. price, instead of adding it to normal value (NV).

The domestic producers disagree with Prayon and assert that in conducting an administrative review, the Department considers individual U.S. sales, and thus it is proper that the commission expense associated with each U.S. sale be deducted from U.S. price.

Department's position: We agree with Prayon that this was a clerical error. For the final results we have added U.S. commissions to NV as is our normal practice in the treatment of circumstances of sale adjustments for export price (EP) transactions.

Final Results of Review

As a result of our review, we have determined that the following weighted-average dumping margin exists for the period August 1, 1997 through July 31, 1998:

Manufacturer/exporter	Margin (percent)
Prayon	3.92

The Department shall determine, and the Customs Service shall assess, antidumping duties on all appropriate entries. We have calculated an importer-specific duty assessment rate based on the ratio of the total amount of antidumping duties calculated for the importer-specific sales to the total entered value of the same sales. The rate will be assessed uniformly on all entries by that particular importer made during the POR. The Department will issue appraisal instructions directly to the Customs Service.

Further, the following deposit requirements will be effective upon publication of this notice of final results of review for all shipments of IPA from Belgium entered, or withdrawn from warehouse, for consumption on or after the publication date, as provided for by section 751(a) of the Act: (1) for the company named above, the cash deposit rate will be the rate listed above; (2) for merchandise exported by manufacturers or exporters not covered in this review but covered in a previous segment of this proceeding, the cash deposit rate will continue to be the company-specific rate published in the most recent final results which covered that manufacturer or exporter; (3) if the exporter is not a firm covered in this review or in any previous segment of this proceeding, but the manufacturer is, the cash deposit rate will be that established for the manufacturer of the merchandise in these final results of review or in the most recent final results

which covered that manufacturer; and (4) if neither the exporter nor the manufacturer is a firm covered in this review or in any previous segment of this proceeding, the cash deposit rate will be 14.67 percent, the "all others" rate established in the *LTFV*.

These deposit requirements shall remain in effect until publication of the final results of the next administrative review. This notice serves as a final reminder to importers of their responsibility under 19 CFR 351.402(f) to file a certificate regarding the reimbursement of antidumping duties prior to liquidation of the relevant entries during this review period. Failure to comply with this requirement could result in the Secretary's presumption that reimbursement of antidumping duties occurred and the subsequent assessment of doubled antidumping duties.

This notice also serves as the only reminder to parties subject to administrative protective order (APO) of their responsibility concerning the disposition of proprietary information disclosed under APO in accordance with section 351.306 of the Department's regulations. Timely notification of return/destruction of APO materials or conversion to judicial protective order is hereby requested. Failure to comply with the regulations and the terms of an APO is a sanctionable violation.

This administrative review and notice are in accordance with sections 751(a)(1) and 777(i)(1) of the Act.

Background

The Department of the Treasury published an antidumping finding on stainless steel plate from Sweden on June 8, 1973 (38 FR 15079). The Department of Commerce published a notice of "Opportunity To Request Administrative Review" of the antidumping finding for the 1998-1999 review period on June 9, 1999 (64 FR 30962). On June 30, 1999, the petitioners, Allegheny Ludlum Steel Corp., G.O. Carlson, Inc., and Lukens, Inc. filed a request for review of Uddeholm Tooling AB ("Uddeholm"). No other interested party requested review of this antidumping duty order. We initiated the review on July 29, 1999 (64 FR 41075). On August 10, 1999 petitioners withdrew their request for review.

Section 19 CFR 351.213(d)(1) of the Department's regulations stipulates that the Secretary may permit a party that requests a review to withdraw the request not later than 90 days after the date of publication of the notice of initiation of the requested review. In this case, petitioners have withdrawn their request for review within the 90-

day period. No other interested party requested a review and we have received no other submissions regarding petitioner's withdrawal of their request for review. Therefore, we are terminating this review of the antidumping duty order on stainless steel plate from Sweden.

This notice is published in accordance with section 751 of the Act and section 19 CFR 351.213(d)(1) of the Department's regulations.
